# MATHEMATICAL SCIENCES POSTDOCTORAL RESEARCH FELLOWSHIPS

*National Science Foundation*

## Description:

The National Science Foundation's directorate for mathematical and physical sciences solicits proposals for its mathematical sciences postdoctoral research fellowships. The purpose of the MSPRF programme is to support future leaders in the mathematical sciences by enabling them to participate in research environments that will have maximum impact on their future scientific development. There are two options for awardees: research fellowship and research instructorship. Awards will support research in areas of the mathematics and statistics, including applications to other disciplines.

The anticipated funding amount is US\$5 million subject to availability of funds. Fellowship awards are for a total of US\$150,000, with a possible additional allowance of up to US\$20,000 for awards with international host institutions. The research fellowship option provides full-time support for any 18 academic-year months in a three-year period, in intervals not shorter than three consecutive months. The research instructorship option provides a combination of full-time and half-time support over a period of three academic years, usually one academic year full-time and two academic years half time. Under both options, the award includes six summer months; however, no more than two summer months of support may be received in any calendar year. Under both options, the stipend support for 24 months (18 academic-year months plus six summer months) will be provided within the 48-month duration of the award. The MSPRF fellowships are awarded

to individuals. Fellows must not be affiliated with institutions or organisations. Applicants must: be US citizens, nationals, or legally admitted permanent resident aliens; not have held the doctoral degree more than two years as of January 1 of the year of the award; propose research in the mathematical sciences; not have previously received a federal research grant; not submit a research plan duplicated in another NSF proposal; and not previously been offered an award by the MSPRF programme. NSF 12-496 (replaces NSF 11-541).

**Closing date:** 17 Oct 12

## INTERNATIONAL AWARDS

Ashden Trust

### Description:

The Ashden Trust invites applications for its international awards for sustainable energy. These recognise organisations that have

excelled in providing sustainable energy at a local level. Projects should use renewable energy or energy efficiency measures to improve people's social and economic

prospects, and at the same time tackle climate change and other environmental threats. Award-winning work is likely to provide benefits in one or more of the following areas:

- energy for homes and businesses;
- health and education;
- avoided deforestation in tropical rainforest areas;
- finance organisations and schemes;
- product suppliers and renewable fuels suppliers;
- humanitarian work;
- agriculture and energy.

Organisations working in rural and urban communities in developing economies, as well as businesses, non-governmental organisations, social enterprises and government organisations are eligible to apply. The work must be delivered in areas that do not have developed world standards of living. These can be rural or urban programmes or enterprises, and in Africa, Central and South America or Asia.

For the 2013 awards there will be up to five international award winners. One will win the gold award, worth £40,000, while the remaining winners will each receive £20,000.

## **J**EAN MONNET FELLOWSHIPS

*European University Institute*

### **Description:**

The European University Institute invites applications for the Jean Monnet fellowships. These allow postdoctoral research for one to two academic years. Work must fall within one of the following categories:

- EU institutions, governance, democracy;
- migration;

- economic and monetary policy;
- development policy;
- competition policy and market regulation;
- energy and climate policy;
- international and transnational relations;
- global governance.

Fellows work on a selected topic and are expected to participate actively in the research activities of the Centre. The research conducted during the fellowship should lead to a publication. Fellowships are open to candidates who defended their PhD no more than seven years before 31 July of the year of application. There are no restrictions on nationality. The fellowship carries a monthly stipend of €2,000, plus up to €300 per month if the fellow has a cohabiting partner and €200 per month for each dependent child. Fellows, but not their families, receive one return trip from their home town to Florence. Fellowships may last for 12 to 24 months.

## EXTERNAL FACULTY FELLOWSHIPS

*Rice University*

### Description:

Rice University's Humanities Research Center invites applications for its external faculty fellowships. Fellowships are awarded to support research projects in the humanities. This includes, but is not limited to: history, philosophy, languages, literature, linguistics, religious studies, art history and the arts. Proposals employing humanistic approaches are welcome from the anthropology and other social sciences, natural sciences, music, architecture, and engineering. The fellows will teach one course affiliated with a humanities department, and will be in residence at the center during their appointments.

Both junior and senior scholars with tenure or tenure-track appointments at colleges and universities other than Rice are eligible to apply. They must be at least three years beyond receipt of the PhD at the beginning of the fellowship term. Fellows will receive a stipend of no less than \$40,000, depending on rank, for a duration of one semester, as well as an allowance for research and relocation to be used during the appointment period.

### Description:

The American Society of Agricultural and Biological Engineers invites nominations for the FPSA-FPEI food engineering award. The award honors engineering contributions in research, development or design of food processes significant to the food industry; or in outstanding leadership, management or education to advance the food engineering profession. The award alternates between recognition of a distinguished food engineer in odd-numbered years, and an emerging food engineer (with less than 10 years practice - less than 10 years from the date of nominee's terminal degree of BS, MS or PhD) to the date of the nomination submission, in even-numbered years. The award consists of a gold medal, a bronze medal, a certificate, \$2,000 cash and travel expenses to the annual conference of the International Association of Food Industry Suppliers Foundation.

## WHITLEY AWARDS

*Whitley Fund for Nature*

### Description:

The Whitley Fund for Nature invites applications for its awards for conservation projects. The awards are presented in recognition of conservation leaders from around the world who are applying sustained effort to conserve the natural environment. Funded projects are pragmatic, have long-lasting impact and aim to fully include local communities in wildlife and habitat conservation.

The aim is to provide the winner with: international recognition that enhances their credibility; worldwide media visibility for their project; financial support to pursue their ongoing conservation work; a supportive international network of other winners and friends through which to solicit advice and support.

Only applications from individuals who are nationals of the countries where they are working and that are not defined as a high-income economy by the World Bank are eligible.

It is expected that seven awards will be made at a value of £35,000 each.

## ALL AFRICA PUBLIC SECTOR INNOVATION AWARDS

*Department of Public Service and Administration*

### Description:

The Department of Public Service and Administration invites applications for the all Africa public sector innovation awards. These recognise public servants and their partners from the private and not-for-profit sectors who have successfully developed innovative solutions to service delivery and government challenges. The awards are offered in the following categories:

- innovative service delivery improvements - this includes improving the delivery of services to citizens and stakeholders external to

government, and improving internal efficiency within the public sector;

- innovative partnerships between government, private sector and civil society organisations - this includes creative partnerships that have resulted in better than anticipated outcomes for the project, and those that have built sustainable relationships between government and other social partners through alternative approaches to participation and consultation;
- innovations in the systems and processes of governance - this includes projects focused on building

accountable, transparent and ethical public services which value the input and participation of citizens.

All government departments and public entities across Africa may apply.

## **CfA POSTDOCTORAL FELLOWSHIPS** *Smithsonian Institution*

### Description:

The Harvard-Smithsonian Center for Astrophysicists invites applications for its CfA postdoctoral fellowships. These support researchers who have recently received their PhD and display significant promise in theory, observation, instrumentation or laboratory experiments in the field of astrophysics. Research is supported under the following six divisions:

- atomic and molecular physics;
- high energy astrophysics;
- optical and infrared astronomy;
- radio and geoastronomy;
- solar, stellar, and planetary sciences;
- theoretical astrophysics.

The fellowships last for a period of two years but may be renewed for a third year, contingent upon satisfactory progress. The fellowships include a stipend of approximately US\$65,500 per year with a research budget of US\$16,000, and funds for health benefits and relocation expenses. Applicants must have at least one first-author refereed journal paper including submitted papers, at the time of application. Applications will only be considered from candidates who received their PhD between 1 January 2012 and 1 September 2013.

## **G** **ERTRUDE ELION MEMORIAL LECTURE AWARD** *International Society for Antiviral Research*

**Description:**

The International Society for Antiviral Research invites applications for the Gertrude Elion memorial lecture award. The award is given to an outstanding scientist, not necessarily in the field of antiviral research but certainly someone who has made considerable contributions to the scientific field directly or peripheral to it. Nominees should be senior scientists (basic or clinical) of international stature. If the nominee had some ties to Dr Elion, this would be considered in a favorable light. The main selection criterion will be scientific prominence. The award is worth US\$7,500 and is for minimal administrative fees, travel and per diem for the awardee.

# POSTDOCTORAL FELLOWSHIPS

*International Institute for Research in Paraplegia*

## Description:

The International Institute for Research in Paraplegia invites applications for its postdoctoral fellowships. These promote basic and clinical research relating to spinal cord injury and neuroregeneration. One fellowship is for a young scientist from Switzerland to join an outstanding laboratory or clinic abroad, and one is for a candidate who comes from abroad and wants to work in Switzerland. The subsidies are of the following types:

- up to two years in a basic research laboratory specialised in one or several aspects of CNS and spinal cord lesions and repair, preferably in mammals. A third year may be funded for a fellow who returns to Switzerland from abroad;
- one year in a clinical research laboratory situated in the fields of diagnosis and acute lesion management of spinal cord injury, including surgery, neurology, urology, rehabilitation, and other areas related to paraplegia.

Applicants must have a research doctorate or a doctoral level degree and have at least one lead author paper published or accepted for publication. The living allowance is worth CHF70,000 per year, and research and travel allowance are worth CHF9,000 per year. Family support and child allowances may be paid depending on the fellow's situation.

# DOCTORAL FELLOWSHIPS IN THE NATURAL SCIENCES

*Schering Stiftung - Ernst Schering Foundation*

## Description:

The Ernst Schering Foundation invites applications for its doctoral fellowships for basic research in biology, medicine or chemistry. Approximately seven fellowships are awarded each year to young scientists who have graduated with excellent grades no longer than two years before applying and who are working towards their dissertation. Applicants should not yet have started their research project at the time of the application deadline. The fellowships are awarded for two years and can, in exceptional cases, be extended by up to one year. Fellowships are awarded irrespective of the applicant's nationality and the country where the project will be pursued. The fellowship amount is €1,300 per month. Recipients who live abroad may be eligible for a cost-of-living adjustment. In addition, there is an allowance of €100 per month to cover material costs such as for travel costs and books. The fellowship recipient is also entitled to a conference allowance of up to €1,000 to cover travel costs and registration fees, as well as a child supplement of €400 per month for the first child and €300 per month for each additional child.

## **A**SHOK KUMAR FELLOWSHIP *Institution of Chemical Engineers (ICHEME)*

### **Description:**

The Institution of Chemical Engineers invites applications for the Ashok Kumar fellowship. This provides funding for one candidate to spend three months working at the UK Parliamentary Office for Science and Technology. The post-holder will be expected to produce a short briefing paper, contribute to a longer report or assist a select committee in a current inquiry. The topic of the work will be relevant to chemical and process engineering or the process industries.

The fellowship is open to all IChemE members with postgraduate qualifications as well as postgraduate students. The successful applicant, if they are still a student, will receive a three month extension to their postgraduate funding or equivalent. Additional costs to the university will be reimbursed.

## **I**NNOVATION PRIZE FOR AFRICA *United Nations Economic Commission for Africa*

### **Description:**

The United Nations Economic Commission for Africa (UNECA) invites applications for its innovation prize for Africa. The prize honours and encourages innovative achievements that contribute towards developing new products, increasing efficiency or cost-saving in Africa. Innovations should unlock new African potential in the following five priority areas:

- agriculture and agribusiness;
- environment, energy and water;
- health and wellbeing;
- information communication technologies;
- manufacturing and service industry.

Africans based on the continent or in the Diaspora may apply, provided that their

innovations are of significance to Africa. Applications may be submitted in English or French. First prize is worth US\$100,000, the runner-up prize is worth US\$25,000 and the special prize for social impact innovation is worth US\$25,000.

## NOVEMBER 2012

### **A**WARD IN ORGANOMETALLIC CHEMISTRY *American Chemical Society*

#### **Description:**

The American Chemical Society, supported by the Dow Chemical Company Foundation, invites nominations for its award in organometallic chemistry. The purpose of this award is to recognise a recent advancement that is having a major impact on research in organometallic chemistry. Nominees must have shown outstanding research in the preparation, reactions, properties, or structure of organometallic substances. Special consideration will be given to demonstrated creativity and independence of thought.

The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background. Preference will be given to U.S. citizens.

The award includes a cash prize of US\$5,000. Travel expenses to the award ceremony worth up to US\$1,000 will be reimbursed.

### **J**EANNE S CHALL RESEARCH FELLOWSHIP *International Reading Association*

#### **Description:**

The International Reading Association invites applications for the Jeanne S Chall research

fellowship. This encourages and supports dissertation research on the subject of reading

by promising scholars. The emphasis is on supporting research in the following areas:

- beginning reading, including the theory, research and practice that improves the effectiveness of learning to read;
- readability, including the methods to predict the difficulty of texts;
- reading difficulty, including diagnosis, treatment and prevention;
- stages of reading development;
- the relation of vocabulary to reading;
- diagnosing and teaching adults with limited reading ability.

Applicants must be current members of the association and either doctoral students beginning their dissertations or university-based graduate students embarking on their independent research studies.

The fellowship includes a grant worth US\$6,000.

## **A**WARD FOR ENCOURAGING WOMEN INTO CAREERS IN THE CHEMICAL SCIENCES

*American Chemical Society*

### **Description:**

The American Chemical Society, supported by the Camille and Henry Dreyfus Foundation Incorporated, invites nominations for its award for encouraging women into careers in the chemical sciences. The purpose of this award is to recognise individuals who have stimulated or fostered the interest of women in chemistry, thereby promoting their professional development as chemists or chemical engineers.

Nominees for the award may come from any professional setting: academia, industry, government, or other independent facility. The award is intended to recognise significant accomplishments by individuals in stimulating women to elect careers in the chemical sciences and engineering, and in generating a broader appreciation of chemistry as the central science. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender

identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000, and travel expenses worth up to US\$1,500 will be reimbursed. A grant of US\$10,000 will also be made to an academic institution, designated by the recipient, to strengthen its activities in meeting the award's objectives.

## AWARD IN CHROMATOGRAPHY

*American Chemical Society*

### Description:

The American Chemical Society, supported by SUPELCO, Inc, invites nominations for its award in chromatography. The purpose of this award is to recognise outstanding contributions to the fields of chromatography.

Nominees must have made outstanding contributions to the field, with particular consideration given to developments of new methods. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

**Closing date:** 01 Nov 12

**Deadline information:** This call is repeated once a year.

# **A** WARD IN INORGANIC CHEMISTRY *American Chemical Society*

**Description:**

The American Chemical Society, supported by the Aldrich Chemical Company LLC, invites nominations for its award in inorganic chemistry. The purpose of this award is to recognise and encourage fundamental research in the field of inorganic chemistry.

Nominees must have accomplished outstanding research in the preparation, properties, reactions or structure of inorganic substances. Special consideration will be given to independence of thought and originality. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Travel expenses to the award ceremony worth up to US\$2,500 will be reimbursed.

## **A**WARD IN POLYMER CHEMISTRY *American Chemical Society*

### **Description:**

The American Chemical Society, supported by ExxonMobil Chemical Company, invites nominations for its award in polymer chemistry.

The purpose of this award is to recognise outstanding fundamental contributions and achievements in the field of polymer chemistry. The nominees for this award are expected to have demonstrated pioneering research accomplishments in synthetic methods of unique polymeric materials or achieved profound discoveries in polymer physical chemistry leading to recognised advancements in our understanding of complex macro-molecular behaviour. This award is specifically intended to acknowledge the impact in basic science of a researcher's body of work in the broad field of polymer chemistry on our global needs for advanced polymeric systems and materials. It will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$1,000 for travel expenses to the meeting at which the award will be presented will be reimbursed.

## **A**WARD IN SEPARATIONS SCIENCE AND TECHNOLOGY *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Waters Corporation, invites nominations

for its award in separations science and technology.

The purpose of this award is to recognise the development of novel applications with major impacts or the practical implementations of modern advancements in the field of separation science and technology.

The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background. The scope of the award is broad, covering all fields where separation science and technology is practised, including but not limited to biology, chemistry, engineering, geology, and medicine.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed. The recipient will deliver a lecture at the annual Division of Industrial and Engineering Chemistry Separations Science and Technology Symposium.

## **A** WARD IN THE CHEMISTRY OF MATERIALS *American Chemical Society*

### **Description:**

The American Chemical Society, supported by EI du Pont de Nemours and Co, invites nominations for its award in the chemistry of materials.

The purpose of this award is to recognise and encourage creative work in the chemistry of materials. Nominees must have made outstanding contributions to the chemistry of

materials. Particular emphasis will be placed on research relating to materials of actual or potential technological importance, where a fundamental understanding of the chemistry associated with materials preparation, processing, or use is critical. Because much of the impact of research depends upon the extension of the work of others, some consideration should be given to the nominee's success as a mentor and colleague.

The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

## **A**WARD IN THEORETICAL CHEMISTRY *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Dell Incorporated, invites nominations for its award in theoretical chemistry. The purpose of this award is to recognise innovative research in theoretical chemistry that either advances theoretical methodology or contributes to new discoveries about chemical systems.

A nominee must have accomplished innovative research in the field of theoretical chemistry. Emphasis in the selection process will be on work characterised by depth, originality, and scientific significance. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender

identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

## **A** ARTHUR W ADAMSON AWARD FOR DISTINGUISHED SERVICE IN THE ADVANCEMENT OF SURFACE CHEMISTRY *American Chemical Society*

#### Description:

The Division of Colloid and Surface Chemistry of the American Chemical Society and the ACS Publications journal Langmuir invite nominations for the Arthur W Adamson award for distinguished service in the advancement of surface chemistry.

The purpose of this award is to recognise distinguished services in the advancement of surface chemistry.

Nominees must have demonstrated extensive contributions to the advancement of surface chemistry. Activities recognised by the award may include such fields as teaching, writing, research, and administration. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

## **A**LFRED BADER AWARD IN BIOINORGANIC OR BIOORGANIC CHEMISTRY

*American Chemical Society*

**Description:**

The American Chemical Society, supported by the Alfred R Bader Fund, invites nominations for the Alfred Bader award in bioinorganic or biorganic chemistry.

The award is intended to recognise significant accomplishments that are at the interface between biology and organic or inorganic chemistry. Special consideration will be given to applications of the fundamental principles and experimental methodology of chemistry to areas of biological significance. It will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to \$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

## **E**ARLE B BARNES AWARD FOR LEADERSHIP IN CHEMICAL RESEARCH MANAGEMENT

*American Chemical Society*

**Description:**

The American Chemical Society, supported by the Dow Chemical Company Foundation, invites nominations for the Earle B Barnes

award for leadership in chemical research management.

This award is intended to recognise individuals who have demonstrated outstanding leadership and creativity in promoting the sciences of chemistry and chemical engineering in research management. Nominees should have demonstrated success in research management by exhibiting the proven ability to manage research projects and people. This leadership and creativity must have been demonstrated by a record of successful research projects and by a strong motivation of the researchers on those projects. Recognition of these accomplishments by peers is essential. Nominees should be industrial or government employees who are responsible for making decisions on R&D project selection, resource allocation, budgets, staffing, etc. and for being accountable for the results of these decisions. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

# HERBERT C BROWN AWARD FOR CREATIVE RESEARCH IN SYNTHETIC METHODS

*American Chemical Society*

## Description:

The American Chemical Society, supported by the Purdue Borane Research Fund and the Herbert C Brown Award Endowment, invites nominations for the Herbert C Brown Award for creative research in synthetic methods.

The purpose of this award is to recognise and encourage outstanding and creative contributions to research in synthetic methods.

Nominees must have accomplished outstanding and creative research that involved the discovery and development of novel and useful methods for chemical synthesis. The synthetic method that is the basis for the award may be related to any area of chemistry. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation,

gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

### **Description:**

The American Chemical Society invites nominations for the Arthur C Cope award. This award serves to recognise outstanding achievements in the field of organic chemistry. It includes a cash prize of US\$25,000 and reimbursement of up to US\$2,500 for expenses incurred to attend the spring national meeting at which the award will be presented.

An unrestricted grant-in-aid of US\$150,000 for research in organic chemistry, under the direction of the recipient, designated as an Arthur C. Cope Fund Grant, will be made to any university or nonprofit institution selected by the recipient. A recipient may choose to assign the Arthur C. Cope Fund Grant to an institution for use by others for research or education in organic chemistry.

**Closing date:** 01 Nov 12

**Deadline information:** This call is repeated once a year.

**Posted date:** 02 Jul 12

## **A** RTHUR C COPE SCHOLAR AWARDS *American Chemical Society*

### **Description:**

The American Chemical Society and the Arthur C Cope Fund invite applications for the Arthur C Cope Scholar Awards.

The purpose of this award is to recognise and encourage excellence in organic chemistry. Ten Arthur C Cope Scholars will be named annually: four between the ages of 36 and 49, four age 50 or older, and two 35 and younger all inclusive before April 30, of the year in

which the award is presented. No individual may receive a second Arthur C Cope Scholar Award. Recipients of an Arthur C. Cope Award are ineligible to be named an Arthur C. Cope Scholar.

The award includes a cash prize of of US\$5,000 and a US\$40,000 unrestricted research grant to be assigned by the recipient to any university or nonprofit institution. The recipient is required to deliver an awards

address at the Arthur C. Cope Symposium. Up to \$2,500 for travel expenses to the fall national meeting will be reimbursed.

The recipient may also be invited to make a presentation at an ACS regional meeting during the year after the Cope Award and Cope Scholar Award Symposium. In support of this presentation, the ACS Division of Organic Chemistry will provide a US\$500 honorarium and reasonable travel expenses to the regional meeting.

## **E**LIAS J COREY AWARD FOR OUTSTANDING ORIGINAL CONTRIBUTION IN ORGANIC SYNTHESIS BY A YOUNG INVESTIGATOR *American Chemical Society*

### **Description:**

The American Chemical Society, supported by the Pfizer Endowment Fund, invites nominations for the Elias J Corey award for outstanding original contribution in organic synthesis by a young investigator. This recognises original and insightful work by an investigator under 40 years of age, which has had significant impact on the field of synthetic organic chemistry.

Nominees must have accomplished research that is of exceptional merit and adds value to the field, such as the contribution of a novel and highly useful reagent, reaction, or catalytic process that solves a synthetic problem of considerable importance. Special

consideration will be given to the application of such novel chemistry toward the synthesis of natural products and organic molecules of medicinal importance, and to the discovery of novel reactions or processes with broad utility. The award will be granted regardless of race, gender, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes US\$5,000 and US\$2,500 for travel expenses to the meeting at which the award will be presented.

## **P**ETER DEBYE AWARD IN PHYSICAL CHEMISTRY *American Chemical Society*

**Description:**

The American Chemical Society, supported by EI du Pont de Nemours and Co, invites nominations for the Peter Debye award in physical chemistry.

The purpose of this award is to encourage and reward outstanding research in physical chemistry.

A nominee must have accomplished outstanding research of a theoretical or experimental nature in the field of physical chemistry. Because much of the impact of research depends upon the extension of the work by others, some consideration should be given to the nominee's success as a mentor and colleague. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

## **F** RANK H FIELD AND JOE L FRANKLIN AWARD FOR OUTSTANDING ACHIEVEMENT IN MASS SPECTROMETRY *American Chemical Society*

**Description:**

The American Chemical Society, supported by the Waters Corporation, invites nominations for the Frank H Field and Joe L Franklin award for outstanding achievement in mass spectrometry.

The purpose of this award is to recognise outstanding achievement in the development or application of mass spectrometry. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background. In odd-numbered years, the award is presented for advances in techniques or fundamental processes in mass spectrometry. Recognition is given in even-numbered years to development of the applications of mass spectrometry.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

## **ERNEST GUENTHER AWARD IN THE CHEMISTRY OF NATURAL PRODUCTS** *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Givaudan, invites nominations for the Ernest Guenther award in the chemistry of natural products.

The purpose of this award is to recognise and encourage outstanding achievements in the analysis, structure elucidation, and chemical synthesis of natural products.

Nominees must have accomplished outstanding work in the analysis, structure elucidation, and chemical synthesis of natural products. Special consideration will be given to the independence of thought and originality. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$6,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

## **F**REDERIC STANLEY KIPPING AWARD IN SILICON CHEMISTRY *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Dow Corning Company, invites applications for the Frederic Stanley Kipping award in silicon chemistry.

The purpose of this award is to recognise distinguished contributions to the field of silicon chemistry and, by such example, to stimulate the creativity of others.

Nominees must have made distinguished contributions in the field of silicon chemistry during the 10 years preceding the current nomination. The measure of this achievement should focus primarily on the nominee's significant publications in the field of silicon chemistry, silicon-based material sciences or the related field of organometallic chemistry particularly embracing the elements of Group IV. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

## **N**OBEL LAUREATE SIGNATURE AWARD FOR GRADUATE EDUCATION IN CHEMISTRY *American Chemical Society*

#### Description:

The American Chemical Society, supported by Avantor Performance Materials, invites nominations for the Nobel laureate signature award for graduate education in chemistry.

The purpose of this award is to recognise an outstanding graduate student and her or his preceptor or preceptors, in the field of chemistry, as broadly defined.

The graduate student nominee must have completed a PhD dissertation in chemistry

within the 12-month period before the deadline for receipt of nominations. The award will recognise only work done while the nominee was a graduate student. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The graduate student and the preceptor will receive US\$3,000 each. Up to US\$2,500 for

travel expenses to the meeting at which the award is presented will be reimbursed

## **G** **EOERGE C PIMENTEL AWARD IN CHEMICAL EDUCATION** *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Cengage Learning and friends and colleagues of George and Jeanne Pimentel, invites applications for the George C Pimentel Award in chemical education.

The purpose of this award is to recognise outstanding contributions to chemical education. Nominees must have made outstanding contributions to chemical education considered in its broadest meaning, including the training of professional chemists; the dissemination of reliable information about chemistry to prospective chemists, members of the profession, students in other fields, and the general public; and the integration of chemistry into our educational system. The activities recognised by the award may be in the fields of teaching (at any level), organisation and administration, influential writing, educational research, the methodology of instruction, the establishment of standards of instruction, and public enlightenment. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award is presented will be reimbursed.

**Closing date:** 01 Nov 12

## **I**NTERNATIONAL FELLOWSHIPS FOR BEGINNING INVESTIGATORS *Union for International Cancer Control*

### **Description:**

The Union for International Cancer Control and the American Cancer Society invite applications for their international fellowships for beginning investigators. These foster a bi-directional flow of knowledge, experience, expertise and innovation between countries, supporting clinical, behavioural or translational research projects. Research investigators, clinician scientists, epidemiologists and public health professionals from low, lower-middle and upper-middle-income countries, as defined by the World Bank, may apply. Each applicant must be in the early stages of their independent investigator career and must possess a terminal advanced degree. They must hold an academic university or hospital position and must conduct the research at a non-profit institution. Six to eight awards, worth \$50,000 each for up to 12 months, are available.

**Closing date:** 01 Nov 12

**Deadline information:** This call is repeated once a year.

**Posted date:** 12 Dec 11

# RESEARCH ASSOCIATESHIP PROGRAMS: FAA/CIVIL AEROSPACE MEDICAL INSTITUTE

*National Research Council*

## Description:

The National Research Council invites applications for its research associateship programs at the FAA/Civil Aerospace Medical Institute. The objectives of the programs are to provide postdoctoral scientists and engineers of unusual promise and ability with opportunities for research on problems, largely of their own choice, that are compatible with the interests of the sponsoring laboratories.

Awardees must hold a PhD, ScD, or other earned research doctoral degree recognized in US academic circles as equivalent to a PhD. Postdoctoral associates must have held the doctorate for under five years. Senior associates must have held the doctorate for five years or more or have equivalent research experience. Tenure ranges from three months to one year.

Opportunities are open to all US citizens and to citizens of other countries who have full command of the English language. The current annual stipend for a postdoctoral research associate is \$42,000 plus a travel allotment of \$2,000.

**Closing date:** 01 Nov 12

**Deadline information:** Deadlines on: 1 November 2012, 1 February 2013, 1 May 2013, 1 August 2013, and repeated annually.

**Posted date:** 20 Aug 10

**Award type:** Mid-Career fellowships

**Award amount max:** \$44,000

## SHORT-TERM FELLOWSHIPS FOR JEFFERSON-RELATED PROJECTS

*International Center for Jefferson Studies*

### Description:

The International Center for Jefferson Studies invites applications for its short-term fellowships for Jefferson-related projects. These are awarded for periods of up to four months to doctoral candidates and postdoctoral scholars from any country. At least one fellowship will be reserved for related research topics in African-American history and in archaeology.

Fellows are expected to be in residence at the Robert H Smith International Center for Jefferson Studies, where they will have access to Monticello's staff and research holdings at the Jefferson Library as well as those of the University of Virginia. The awards carry a monthly stipend of \$2,000 for scholars from the US or Canada and \$3,000 for overseas fellows. Pre-approved travel costs will also be awarded.

## **G**ETTY PRE- AND POSTDOCTORAL FELLOWSHIPS *The Getty Foundation*

### Description:

The Getty Foundation invites applications for its Getty pre- and postdoctoral fellowships. These residential fellowships are intended for emerging scholars to complete projects related to the Getty Research Institute's annual theme, which currently focuses on colour. The institute invites proposals that address the artistic use of colour from ancient to contemporary times in any culture, while proposals focused on the institute's collections will be given priority. Research projects on classical and ancient Mediterranean art and archaeology, the reception of antiquity, and other topics pertaining to the collections, resources and programmes of the Getty Villa may also be eligible.

Recipients are in residence at the institute, where they pursue research to complete their dissertations or to expand them for publication.

Applications are welcomed from pre-doctoral scholars who have advanced to candidacy and who expect to complete their dissertations during the fellowship, and from postdoctoral scholars who have received their degree after the year 2007. Applications are open to scholars of all nationalities.

Both fellowships require the fellows to be in residence for nine months. Predoctoral fellows receive a stipend of US\$25,000 while

postdoctoral fellows are awarded US\$30,000. Workplace at either the institute or the villa, an apartment at the Getty scholar housing complex, and return airfare will also be provided.

# L ICHTENBERG PROFESSORSHIPS

*VolkswagenStiftung - Volkswagen Foundation*

## Description:

The Volkswagen Foundation is inviting applications for its Lichtenberg professorships. These provide support to outstandingly qualified junior academics in connection with innovative fields of research located between the disciplines as well as new teaching concepts within the respective research environment. The funding is available to applicants from the humanities and the social sciences or natural and engineering sciences, as well as medicine. The two target groups are candidates who obtained their PhD no more than four years ago and those who obtained their PhD no more than seven years ago. For both of these categories, applicants should be returning or coming to Germany from abroad. Funding worth between €800,000 and €1.5 million per professorship is available for an initial period

of five years, with the possibility of extension for a further three years.

# POSTDOCTORAL FELLOWSHIPS IN CONSERVATION SCIENCE

*The Getty Foundation*

## Description:

The Getty Foundation invites applications for its postdoctoral fellowship in conservation science. This two-year programme provides recent PhD graduates in chemistry and the physical sciences with experience in conservation science. In collaboration with conservators and curators, the fellows will conduct scientific research to further the understanding and preservation of the collections of the J Paul Getty Museum and other museums around the world with which the museum collaborates. Furthermore, the research projects may:

- address questions related to authenticity, provenance and artists technique;
- assist in the evaluation of conservation treatment programmes;
- investigate the properties and behaviour of the materials found in works of art.

Applications may be of any nationality and must have a recent PhD, which was awarded in 2008 or later, in chemistry or another physical science. Experimental research experience, strong instrumental analysis skills, an aptitude for learning and adapting new analytical techniques, versatile problem-solving skills, the ability to work effectively in small teams, as well as excellent written and oral communication skills are also required.

The fellows receive a monthly stipend, US\$2,000 per year towards a study-related trip, an apartment in the Getty scholar housing complex, airfare to Los Angeles, and health benefits.

**Closing date: 01 Nov 12**

**Deadline information:** Applications due by 6pm PST. This call is repeated once a year.

## POSTDOCTORAL FELLOWSHIP

*Institute for Aegean Prehistory*

### Description:

The Institute for Aegean prehistory invites applications for its postdoctoral fellowship. This is awarded to a scholar who has received a PhD qualification within the past five years in the field of the Aegean bronze age or early iron age. Applicants who have received their PhD between May 2007 and August 2012 are eligible for the fellowship. The proposed work should take place between 1 July 2013 and 30 June 2014.

The award is open to applicants of all nationalities.

One award, worth US\$28,000 plus up to US\$4,000 for travel expenses, is available.

## SIX-WEEK RESEARCH FELLOWSHIPS

*Institute for Aegean Prehistory*

### Description:

The Institute for Aegean Prehistory invites applications for its six-week research fellowships. These allow two PhD scholars in the field of Aegean bronze age or early iron age to conduct research for a six-week period in Crete. The fellowships must be taken between 1 March and 20 May, 2013, or

between 1 September and 31 December, 2013, at the INSTAP study center for East Crete.

Applicants, who are required to hold a PhD qualification, must be prepared to show that travel to the SCEC library or its other facilities is necessary for completing a specific project designed to advance the scholarship.

The fellowships are each worth up to US\$3,000 plus reasonable round-trip travel expenses.

## **A**WARD FOR AFFORDABLE GREEN CHEMISTRY *American Chemical Society*

### **Description:**

The American Chemical Society, supported by Dow Chemical Company, invites nominations for its award for affordable green chemistry. The purpose of this award is to recognise outstanding scientific discoveries that lay the foundation for environmentally friendly products or manufacturing processes at a cost comparable to or less than that of current technologies, or discoveries that deliver new applications with compelling cost/benefit profiles; and to identify and recognise discovery of new eco-friendly chemistries with the potential to enable products or manufacturing processes that are less expensive than existing alternatives.

Nominee eligibility is neither contingent on the timeframe in which the technology was developed, nor on demonstrated commercial success. Discoveries must have significant commercial potential, however, to be considered for award. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses to the meeting at which the award will be presented will be reimbursed.

## **AWARD FOR RESEARCH AT AN UNDERGRADUATE INSTITUTION** *American Chemical Society*

### **Description:**

The American Chemical Society, supported by the Research Corporation for Science Advancement, invites nominations for its award for research at an undergraduate institution.

This award honours a chemistry faculty member whose research in an undergraduate

setting has achieved wide recognition and contributed significantly to chemistry and to the professional development of undergraduate students.

The nominee's department may offer work leading to the master's degree but cannot have a doctoral program. This award recognises fundamental research that

constitutes advances in science as evidenced by refereed publications with undergraduate coauthors in leading scientific research journals, external research grant support, and the subsequent professional development of students who have participated in the research program. The award will be given for significant work over a long period of time rather than for a specific, limited project. A nominee must be a tenured faculty member of a predominantly undergraduate institution. The award will be granted regardless of race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, presence of disabilities, and educational background.

The award includes a cash prize of US\$5,000. Up to US\$2,500 for travel expenses will be reimbursed. A grant of US\$5,000 is also provided directly to the recipient's institution.

## **E** RASMUS MUNDUS JOINT DOCTORAL FUNDING *Forest and Nature for Society*

### Description:

Forest and Nature for Society invites applications from EU and third country applicants for its Erasmus Mundus joint doctoral programme. This enables investigators to undertake doctoral research at FONASO partner institutions. Each proposal must address one of the following topics:

- economics and socio-economics of forests and nature;
- governance, policy and sociology of forests;
- forest ecosystems and ecosystem services;
- silviculture and sustainable forest management.

Each candidate must hold a very good second university degree and have documented research achievements, such as publications in peer-reviewed journals.

Partner institutions are: University of Copenhagen; Swedish University of Agricultural Sciences; Bangor University; Dresden University of Technology; University of Göttingen; AgroParisTech; University of Padova.

## CLAUDE AKE VISITING CHAIR

*Nordiska Afrikainstitutet - Nordic Africa Institute*

**Description:**

The Nordic Africa Institute, in partnership with the Department of Peace and Conflict Research at Uppsala University, invites nominations for the Claude Ake visiting chair. The chair is open to prominent social scientists working at African universities who combine a profound commitment to scholarship with a strong advocacy for social justice. Social scientists should be working in areas related to war, peace, conflict resolution, human rights, democracy and development on the African continent. The successful candidate will be offered a conducive environment to pursue his or her own research and will have the opportunity to lecture, hold seminars and contribute to ongoing research activities within the department and elsewhere. Social science departments, research institutions and institutes in Africa and elsewhere may submit nominations. The nomination of female candidates is particularly encouraged. Candidates may not nominate themselves. Candidates should be established and internationally recognised senior scholars with professorial competence in their respective fields of expertise. The chair is based in Uppsala and is tenable for up to six months. The awardee will receive a tax-free stipend of SEK30,000 per month, as well as travel and accommodation costs.

## SIR HENRY DALE FELLOWSHIPS

*Wellcome Trust*

### Description:

The Wellcome Trust, in collaboration with the Royal Society, invites applications for its Sir Henry Dale fellowships. These enable outstanding postdoctoral scientists who wish to build their own UK-based independent research career to address an important

biomedical question. Research can be based in the laboratory, clinic or field, and may involve experimental or theoretical approaches.

Applicants are expected to have relevant scientific or mathematical qualifications and

be no more than seven years from the date of their PhD viva. Applicants must be:

- a UK or EEA national;
- a non-EEA national who either has a relevant degree from a UK university, or has worked in the UK for at least a continuous three-year period;
- an exceptional biomedical scientist who does not fall within the categories above and whose recruitment to the host organisation would be advantageous to both the applicant and the organisation.

Applicants must also have an eligible sponsoring host organisation in the UK with the support of the relevant head of department, or equivalent.

Fellowships are tenable for five years in the first instance, with the potential to apply for competitive renewal for an additional three years.

Funding covers a basic salary plus an enhancement of £7,500 per annum; research expenses, including research assistance if required; travel and subsistence for collaborative travel or scientifically justified overseas visits; and overseas allowances where appropriate. In addition, the funders will provide an inflation and flexible funding allowance, as well as a contribution towards indirect and estate costs of £11,000 per year.

**Closing date: 01 Nov 12**

**Deadline information: Preliminary applications due 1 November 2012; invited full applications 18 January 2013. This call is repeated 2 times a year.**

## WILLIAM BEAUMONT PRIZE IN GASTROENTEROLOGY

*American Gastroenterological Association*

### Description:

The American Gastroenterological Association invites nominations for the William Beaumont prize in gastroenterology. The purpose of the award is to recognise an individual who has made a major contribution (a single accomplishment or series of accomplishments) that has significantly advanced gastroenterological basic or clinical research. A cheque to the amount of \$10,000, plus a travel grant to attend digestive disease week, will be awarded to the recipient.

AGA membership is not required to be considered for this award. The recipient must have made a unique, outstanding contribution of major importance for the field of gastroenterology, which will lead or has led to important new insights or advances in understanding, diagnosing, or treating digestive disease; or provides significant new knowledge of basic cellular and genetic structures or functions relevant to digestive function or disease. Please note that nominees need not be gastroenterologists; consideration will be given to scientists and medical professionals from all fields, however, the nominee's contributions must have significantly impacted the understanding or practice of gastroenterology.

## HISTORY VISITING MEMBERSHIPS

*Institute for Advanced Study*

### Description:

The School of Historical Studies at the Institute for Advanced Study invites applications for its visiting memberships. The

school supports scholarship in all fields of historical research, but is concerned principally with the history of Western, Near Eastern, and Asian civilisations, with

particular emphasis upon Greek and Roman civilisation, the history of Europe (medieval, early modern, and modern), the Islamic world, East Asian studies, the history of art, the history of science, philosophy, and modern international relations.

The School also offers the Edward T. Cone Membership in Music Studies. Each year the school welcomes approximately forty members. Members in the school are appointed for either one term or for two terms, amounting to a full academic year. Institute stipends will normally be offered up to a maximum of US\$70,000 for the full academic year, or US\$35,000 for one term.

Candidates of any nationality are eligible to apply. Current institutional affiliation is not a requirement.

## **S**OCIAL SCIENCE FELLOWSHIPS *Institute for Advanced Study*

### **Description:**

The School of Social Science at the Institute for Advanced Study invites applications for its fellowships. Fellowships are awarded for a full academic year.

Visiting fellows are expected to pursue only their own research, while the school organises a weekly seminar at which members as well as invited guests present their ongoing work. The school is not

wedded to any particular intellectual or disciplinary approach. It welcomes applications in economics, political science, law, psychology, sociology, and anthropology. It encourages social scientific work with a historical and humanistic bent and also considers applications in history, philosophy, literary criticism, literature, and linguistics.

The thematic focus for the academic year of 2013-14 is the environmental turn and the human sciences. This focus is neither an exclusive nor excluding theme; it is expected that only one-third of the accepted scholars will pursue work relating to this theme. Applications are strongly encouraged from scholars across the social sciences, whether or not their research corresponds to the theme.

Funding for member stipends is individually negotiated, taking into account the applicant's base salary and the level of sabbatical and other grant support he or she can secure. In setting compensation, the school attempts to provide half

of the current academic base salary for all fellows, up to a maximum of US\$65,000.

## SOMOPRO CALL FOR INCOMING GRANTS

*South Moravian Centre for International Mobility*

### Description:

The South Moravian Centre for International Mobility invites applications for its SoMoPro call for incoming grants. These support research in science, technology and medicine, excluding humanities and social sciences, conducted in the South Moravia region.

Researchers of any nationality may apply. Each applicant must hold a doctoral degree

or have at least four years' full-time or equivalent post-degree research experience, and must be eligible to enrol in a doctoral study programme in the country of their degree or the Czech Republic. Researchers may not have resided or carried out their main work or studies in the Czech Republic for more than 12 months in the last three years. They must apply jointly with a host institution, which should be a public research

organisation located, or operating, in South Moravia. Female researchers and those returning from a career break are encouraged to apply.

The budget for this call is €2.24 million. Funding will cover a living allowance, travel and mobility costs, a contribution to research costs and a contribution to overheads. The grant period may last from 12 to 36 months, and projects must be completed by 30 November 2016.

## **IADR PROSTHODONTICS GROUP STUDENT RESEARCH FELLOWSHIP**

*International Association for Dental Research*

**Description:**

The International Association for Dental Research's Prosthodontics Group invites applications for its student research fellowship. The fellowship has been created to encourage dental students, residents, and graduate students to consider careers in oral health research related to the topic of prosthodontics. Proposals are sought in any category of research related to prosthodontics. Students, residents, or graduate students carrying out original research in which they are the primary investigator are eligible to apply. To be eligible, applicants cannot have been the primary author of more than three articles published in refereed scientific journals. Students should also be sponsored by a faculty member who is a member of the PG of the IADR. The fellowship consists of a cash prize worth US\$3,000 with additional travel funds available worth up to US\$1,500 to support direct costs for the research and travel and accommodations to present at an annual IADR general session and exhibition.

## **V** AVILOV-FRANKEL FELLOWSHIPS *Bioversity International*

### **Description:**

Bioversity International invites applicants for the Vavilov- Frankel fellowships. These support innovative research on topics related to the conservation and use of plant genetic resources in developing countries. One of the fellowships will be supported by Pioneer Hi-Bred of the US, while the other is supported by the Grains Research and Development Corporation of Australia. Proposals for the first fellowship may be carried out in any country outside the applicant's home country, whilst proposals for the second fellowship should be carried out at an Australian research institute, the

International Maize and Wheat Improvement Center or the International Center for Agricultural Research in Dry areas. Projects may address:

- use of agrobiodiversity as an instrument for climate change adaptation;
- research to enhance the conservation of genetic resources of a tree species important to the livelihoods of the rural poor;
- sustainable diets for improved nutrition and health;

- management of musa diseases through better understanding of specific host-pathogen interactions and co-evolution;
- policy research in support of implementation of the International Treaty for Plant Genetic Resources for Food and Agriculture;
- gene discovery in crop and wild relatives;
- facilitating better use of biobank materials;
- researching neglected and under-utilised species for food and nutrition security;
- applying economics to agrobiodiversity conservation, sustainable use and policy analysis.

Applications must be submitted in English, French or Spanish. The fellowships, worth US\$20,000 each over three to 12 months, will be awarded to nationals of developing countries, aged 35 or under, who hold a master's degree or equivalent in a relevant subject area.

## **R**OBERTSON VISITING PROFESSOR IN BRITISH HISTORY *Fulbright Commission*

### **Description:**

The Fulbright Commission invites applications for its Robertson visiting professor in British history award. This provides an opportunity for an exceptional early-career British historian to teach at Westminster College, Missouri, a small, selective liberal arts college, for one academic year. The modest lecturing requirement will allow time for establishing a collaborative relationship with the US National Churchill Museum and Churchill Institute, and for conducting personal research.

The commission welcomes applications from historians of all time periods, thematic areas, and geographical regions of the British Isles, in addition to applications from candidates with a specialisation in British Imperial or Colonial history. Applicants must be UK citizens, hold or expect to receive a PhD in a relevant area and have a least one year's experience of lecturing to undergraduate students.

The grant includes \$52,500 to cover for accommodation and general maintenance costs while in the US. Additionally, a travel budget of up to \$10,000, and smaller allowances for entertainment, office supplies and printing, as well as insurance and visa sponsorship are also provided. The scholar will also have the option of renting a reasonably priced house and car on campus.

**Closing date:** 15 Nov 12

# **R**ISING STAR RESEARCH AWARDS *International Mental Health Research Organization*

**Description:**

The International Mental Health Research Organization invites nominations for its rising star research awards. The organization is offering up to two awards, worth \$250,000 each, for research related to psychiatric illness. The objective of these awards is to advance the understanding and translation of underlying disease mechanisms in bipolar disorder, schizophrenia, and major depression with the goal of benefiting patients and the healthcare system. Specifically, the program will support translational research on untested targets, with the potential to advance discovery of therapeutic approaches. The emphasis will be on approaches that provide a viable path toward renormalizing or compensating for novel biological alterations or those that have already been discovered.

Candidates should be leaders of an independent research program and have a track record in a scientific field that can be applied to the study of the underlying mechanisms of schizophrenia, bipolar disorder, or major depression. Both early

career and established investigators are eligible.

## **F** FRANK M CHAPMAN MEMORIAL FELLOWSHIPS *American Museum of Natural History*

#### Description:

The American Museum of Natural History invites applications for the Frank M Chapman memorial fellowships. These one- or two-year fellowships are awarded for research in avian systematics, evolution and biogeography. Research must be performed whilst in residence at the American Museum of Natural History. The grants include a stipend and a research budget.

Fellowships are usually awarded to recent recipients of a doctoral degree in avian systematics. However, awards are sometimes made to senior researchers on sabbatical leave from their home institution. Applicants must have prior discussions with one or more members of the Ornithology Department concerning the research project.

## PROGRAMME FOR THE STUDY OF THE HUMANITIES IN AFRICA FELLOWSHIPS

*University of the Western Cape*

### Description:

The Centre for Humanities Research at the University of the Western Cape invites applications for fellowships through its programme for the study of the humanities in Africa. Fellowships aim to foster critical dialogue in an academically engaged and supportive environment on the key themes of the programme, which is dedicated to redefining humanities research in and about Africa and to making sense of the driving forces of globalisation. Fellows will be

required to be present on campus during academic semesters, to show significant progress towards completing a monograph, and to produce two peer-reviewed articles over two years. The centre will provide office space and access to the UWC-Robben Island Museum Mayibuye archive collection. In 2012, the programme may make three doctoral and two postdoctoral fellowship awards, each of which will cover a monthly stipend, travel costs, accommodation and basic research expenses.

## **A**NDREW W MELLON FELLOWSHIP *Stanford University*

### **Description:**

Stanford University invites applications for the Andrew W Mellon fellowship. This brings outstanding younger scholars to Stanford on two-year fellowships that enable them to pursue research, teach two courses per year in an affiliated department, and participate in an active programme of scholarly exchanges. Applications are accepted from the following fields of study:

- comparative literature;
- French and Italian;
- German studies;
- Iberian and Latin American cultures;
- religious studies;
- Slavic languages and literatures.

To be eligible, applicants must have received or expect to receive a qualified PhD in a relevant field of humanities between 1 January 2010, and 30 June 2013. Currently employed academics and those already serving in a postdoctoral programme are also eligible to apply, given that they have received their PhD within the time frame.

Up to four fellowships, with a stipend worth US\$62,000 each, will be available. A full package of employee benefits and a research account to fund research-related expenses may also be available.

## **S** TUDENT POSTER SESSION AWARDS *Electrochemical Society*

### **Description:**

The Electrochemical Society invites applications for the student poster session awards. The awards are given to the best poster presentations at a society meeting and are meant to acknowledge the quality and thoroughness of the candidate's work, originality and independence of the candidate's contributions, significance and timeliness of research results, and depth of understanding of the research topic and its relationship to the fields of interest to the Electrochemical Society. The award's intent is also to stimulate active student interest and participation in the Electrochemical Society and having the students remain active in the society after their formal education is completed. If possible, one award will be presented in the field of electrochemical science and the other in the field of solid state science and technology.

Cash prizes are awarded; the amounts of these are at the discretion of the organizers and judges.

## INDIVIDUAL GRANTS FOR FUTURE RESEARCH LEADERS

*Stiftelsen för Strategisk Forskning - Swedish Foundation for Strategic Research*

### Description:

The Swedish Foundation for Strategic Research invites applications for its individual grants for future research leaders. Up to 20 grants of a total of SEK10 million each (including overhead), covering a period of five years, have been allocated. The aim of the foundation in launching this programme is to support and promote young scientists who have the potential and the ambition to become future leaders of academic or industrial research in Sweden.

Currently, the foundation prioritises such research that can be applied in the following areas:

- life sciences;
- life science technologies and bioengineering;
- ICST including electronics and photonics;
- computational sciences and applied mathematics.

The programme is open to young scientists from Sweden as well as from other countries. Swedish applicants are encouraged to locate their research at a Swedish department or group other than the one where their PhD was earned. Out of each grant, SEK300,000 will be withheld at SSF to be used by the grantee for commercialisation of results from the project. Applicants must be born in 1973 or later. Applicants must have obtained their PhD degree within the period 1 January 2006 to 31 December 2008 with adjustment for documented postdoctoral parental leave and for postdoctoral clinical internship or residency period.

Applicants currently working outside Sweden must be prepared to work full-time at a Swedish research organisation. Applicants who are eligible to both Ingvar

Carlsson Award and future research leaders may only apply to one of these programmes.

**Closing date:** 20 Nov 12

**Deadline information:** Applications are due by 2pm.

## PUBLISHING FUND

*International Council for Canadian Studies*

### Description:

The International Council for Canadian Studies invites applications for grants through its publishing fund. These assist with the publication and distribution in Canada of scholarly monographs on Canada written by foreign Canadianists who are members of a Canadian studies association or associate members belonging to the International Council for Canadian Studies. This fund assists foreign scholars by granting financial aid to a recognised scholarly press once the work is published.

The fund may also grant financial assistance for the translation from English or French into a third language and from a third language into French or English. In this case, conditions and procedures remain the same, but instead of a manuscript the press will submit a published monograph that it would like to see translated.

The author shall be a member in good standing of an ICCS member association or associate member. The funds allocated shall apply to the printing or translating costs of a

manuscript and not to the costs of research, typing, reproduction or any other stage in the manuscript preparation.

## **P**IERRE SAVARD AWARD *International Council for Canadian Studies*

### Description:

The International Council for Canadian Studies invites applications for the Pierre Savard award. This is designed to recognise and promote each year outstanding scholarly monographs on a Canadian topic. The awards form part of a strategy that is aimed at promoting, especially throughout the Canadian academic community, works that have been written by members of the Canadian studies international network. The awards are intended to designate exceptional books, which, being based on a Canadian topic, contribute to a better understanding of Canada. There are two categories:

- books written in French or English;
- books written in a language other than French or English.

Every member association or associate member of the ICCS can submit each year the title of a book that has been published within the preceding two years. The book must have been authored by a member of a member association or an associate member.

## **H**OUBLON-NORMAN AND GEORGE FELLOWSHIPS *Bank of England*

### Description:

The Bank of England invites applications for its Houblon-Norman and George fellowships. These fellowships are awarded to promote research into and disseminate knowledge and understanding of the working, interaction and function of financial business institutions in Great Britain and elsewhere and the economic conditions affecting them. Applicants are invited to engage in full-time research on an economic or financial topic of their choice, preferably one that could be studied with particular advantage at the Bank of England. Particular regard will be paid to the relevance of the research to current economic and financial problems. Senior fellowships will be awarded to distinguished research workers who have established a reputation in their field. Applicants for senior fellowships may be of any nationality. Fellowships are also available to younger postdoctoral or equivalent researchers. For these fellowships, preference will be shown to British and other EU nationals. Fellowships are tenable at the Bank of England and may last for between one month and one year. Successful candidates will be provided with office accommodation and secretarial and other necessary support services. Individual awards will broadly reflect the circumstances of the candidate and will be what appears to be necessary for the work to be undertaken. The total amount distributed in any one year rarely exceeds £120,000.

## RUBICON GRANTS

*Netherlands Organisation for Scientific Research - NWO*

### Description:

The Netherlands Organisation for Scientific Research (NWO) invites applications for its Rubicon grants. These aim to encourage talented researchers at Dutch universities and research institutes run by the Royal Academy of Arts and Sciences (KNAW) and NWO to dedicate themselves to careers in postdoctoral research. Rubicon offers researchers from the Netherlands and abroad the chance to gain experience at a top research institution in or outside the Netherlands. Preference will be given to proposals for study outside the Netherlands.

Postgraduates who are currently engaged in doctoral research or who have been awarded a doctorate in the twelve months preceding the relevant deadline are invited to apply. Applicants who are still engaged in doctoral research may only apply if their supervisor provides a written declaration approving their thesis. Female researchers are particularly encouraged to apply.

The total budget for this round is €2.3 million. The research must last for one to two years. Proposals must be written in English.

# POSTDOCTORAL FELLOWSHIPS FOR TRAINING IN CANCER RESEARCH

*International Agency for Research on Cancer*

## Description:

The International Agency for Research on Cancer invites applications for its postdoctoral fellowships for training in cancer research. These enable junior scientists to complete their training in aspects of cancer research related to the agency's own programme. Fellowships support research in the following disciplines: genetic and molecular epidemiology; biostatistics; bioinformatics; areas related to mechanisms of carcinogenesis, including molecular and cell biology, molecular genetics, epigenetics and molecular pathology. Applicants may be of any nationality, although preference is given to applicants from low- and medium-resource countries. Applicants should have finished their doctoral degree within five years of the closing date for application, or be in the final phase of completing their doctoral degree. Applicants must be proficient in English at a level sufficient for scientific communication. The stipend is worth €33,000 annually for a maximum of two years. The cost of travel for the fellow, and in certain circumstances for dependants, will be met, a dependant's allowance paid, and health insurance covered.

## POSTGRADUATE SCHOLARSHIP

*Lionel Murphy Foundation*

### Description:

The Lionel Murphy Foundation invites applications for its postgraduate scholarships. These support graduates within the areas of science, law or legal studies, or another appropriate discipline, who intend to pursue these studies on a postgraduate level. Preference will be given to applicants who propose to study any of the following:

- the law and the legal system in social context and their practical application;
- science or law as a means of attaining social justice and human rights and as vehicles for change;
- international law as a developing force for peace and as a means of achieving the rule of law in all nations;
- science as a tool for social benefit, particularly in meeting the needs of those most disadvantaged within society;

- other disciplines where the proposed nature and area of study are likely to promote the goals of social justice and benefit for the disadvantaged.

Each applicant must be an Australian citizen or permanent resident where residency has been granted by 31 October in the year prior to this application, having lived in Australia continuously for the previous 12 months. The Australian scholarships are tenable at any Australian or overseas tertiary institution for one year. The scholarships are currently worth up to AU\$40,000 each per year.

# **R**OTHAMSTED INTERNATIONAL FELLOWSHIP SCHEME

*Rothamsted International*

**Description:**

Rothamsted International invites applications to its fellowship scheme. This scheme is designed to promote the exchange of vital scientific skills and technologies relevant to the agricultural and environmental needs and aspirations of developing and emerging countries. Fellowships enable scientists working in developing or emerging countries to pursue research, learn new techniques or undertake other forms of study in fields within agricultural, environmental, mathematical and computational sciences that are of direct relevance to development issues in their home country. Applicants should normally be of doctoral status or equivalent, with at least two years' postdoctoral research experience and a substantial track record that will facilitate collaborative research at the institute. It is anticipated that applicants will have permanent salaried appointments in their home country, usually at resource-poor institutes or laboratories, to which they will

return on completion of the fellowship. Fellowships are tenable for between six months and one year and include one return journey, an accommodation and subsistence allowance, discretionary payments for conference attendance in the UK and institute research costs.

# **EXPERTISE TRANSFER FELLOWSHIP** *International Agency for Research on Cancer*

## Description:

The International Agency for Research on Cancer invites applications for its expertise transfer fellowship. This enables an established investigator to spend six to 12 months in an appropriate host institute in a low- or medium-resource country. The main objective of this programme is to transfer knowledge and expertise in a research area relevant to the host country and related to the agency's programmes. The agency's research priorities are as follows:

- understanding cancer etiology, including infections, nutrition, lifestyle, environment, radiation, genetics;
- developing strategies for cancer prevention, including primary prevention and screening;
- elucidating the underlying mechanisms of carcinogenesis through studies of molecular and cell biology, molecular genetics, epigenetics and molecular pathology.

The agency also has strong programmes dedicated to describing the global cancer burden and to the evaluation of carcinogenicity through its monographs programme.

Applicants should be established cancer researchers actively engaged in the field with appropriate scientific or medical qualifications and an excellent publications record. They must also belong to the staff of a university or a research institution. Annual remuneration is worth up to US\$70,000, and will take into account the ongoing salary of the fellow. The cost of travel for the fellow, and in certain circumstances for dependants, will be met, and health insurance covered.

## VISITING FELLOWSHIPS

*Arts and Humanities Research Council (AHRC)*

### Description:

The Arts and Humanities Research Council research centre for musical performance as creative practice invites applications for its visiting fellowships. Fellowships enable musicologists, musicians and those working in cognate fields in the UK and overseas to spend up to three months undertaking collaborative research at one of the centre's partner institutions. Partner institutions are the University of Cambridge, King's College London, the University of Oxford and Royal Holloway, University of London. Fellows will have the opportunity to gain exposure to the centre's research activities, to share their work with centre staff and students and to contribute to the activities supported by the centre's performance studies network.

Research must address one or more of the following questions:

- how is musical performance creative, and what knowledge is creatively embodied in musical performance?
- how does music in performance - and the very act of performance - take shape over time?
- how does understanding musical performance as a creative practice vary across different global contexts, idioms and performance conditions?

In phase one of this programme, priority may be given to applicants who wish to be based at King's College London in association with the centre's 'shaping music in performance' project. All applicants should have

completed a doctorate prior to application or have equivalent professorial experience. Eligible maintenance expenses incurred during the period of the fellowship will be reimbursed, up to a maximum of £1,500 per month. Relevant travel costs to and/or within the UK will also be reimbursed, subject to prior approval.

## **R** ESearch Fellowships in Ethics and Society Wellcome Trust

### Description:

The Wellcome Trust invites applications for its research fellowships in ethics and society. This scheme is for individuals not yet in established academic posts, who wish to undertake a period of postdoctoral research. Due to the multidisciplinary nature of biomedical ethics research, fellowships may provide researchers with support to enable them to obtain research training, either in a new discipline or in a new aspect of their own field.

Postdoctoral scholars who are not in a tenured or otherwise long-term established post are eligible to apply. Fellowships must be held at an institution in the UK, Republic of Ireland or a low or middle-income

country. Strong preference will be given to applicants with a good prospect of achieving a long-term academic career as a specialist in any area related to biomedical ethics. Applications must be sponsored by an established member of the department in which the award is to be held.

Fellowships provide a salary and research expenses, including travel and fieldwork, for a period of up to three years.

### Closing date: 03 Dec 12

**Deadline information:** Preliminary applications 20 June and 3 December annually; full applications will be due six

weeks after the preliminary applications deadline.

## RESEARCH FELLOWSHIPS IN ETHICS AND SOCIETY FOR HEALTH PROFESSIONALS AND SCIENTISTS

*Wellcome Trust*

### Description:

The Wellcome Trust invites applications for its research fellowships for health professionals and scientists. This scheme is intended for practising health professionals and scientists who wish to carry out research in any area within the remit of the ethics and society programme either full-time or part-time while maintaining their work commitments. It is particularly aimed at those who intend to pursue a long-term academic career exploring the ethical or social aspects of biomedical research or health interventions. This scheme can be used to enrol for a PhD.

Research fellowships must be held at a UK, Irish or low- or middle-income country institution. Candidates wishing to enrol for a PhD under this scheme should have little or no humanities or social science research

experience. Candidates not wishing to enrol for a PhD should have previously undergone a period of research training and will have completed, or be about to complete, a higher degree. Candidates who are health professionals should have completed general professional training and would typically be expected to have spent at least two to three years in professional practice. Candidates should be sponsored by someone, typically in a senior position, who has a contract of employment with an academic institution or, in the case of an NHS employee, an honorary academic appointment. The sponsor must also have tenure beyond the duration of the proposed fellowship and be in a position to guarantee space and facilities for the tenure of the award.

The maximum duration of the award is three years full time. The fellow's salary is

provided, plus appropriate employer's contributions, essential research expenses, and travel to conferences, seminars and other meetings of a scholarly nature. If enrolling for a PhD, a clinical salary will be provided, together with PhD registration fees, research expenses and a contribution to travel and general training costs.

**Closing date:** 03 Dec 12

**Deadline information:** Preliminary applications due 3 December and 20 June annually; full applications six weeks after preliminary applications.

**Posted date:** 07 Nov 11

**Award type:** Predoctoral training fellowships, Mid-Career fellowships, Financial aid for postgraduate students, Predoctoral fellowships, Student awards, Travel for research purposes, Travel to conferences, meetings etc.

## **I**ADR/GLAXOSMITHKLINE INNOVATION IN ORAL CARE AWARDS *International Association for Dental Research*

### Description:

The International Association for Dental Research and GlaxoSmithKline invites applications for the innovation in oral care awards funded by GSK. These innovation awards offer opportunities for investigators to conduct dental research that will have a direct impact on the oral health of the public. Awards will be provided to recipients to advance oral care programmes directed toward the development of innovative and novel compounds, biomaterials or devices that can be used ultimately at the public health level. Examples of areas of interest could include, but not be limited to:

- inhibition or removal of biofilms, etc, adhering to natural or artificial surfaces;
- modification of those surfaces to inhibit biofilms and other deposits, stains and odours;
- adhesives for removable prosthetic devices;
- inhibition of tooth surface loss and gingival recession, and amelioration of their effects;
- counteracting the oral effects of dry mouth, systemic illness, hormonal disturbances or physiological ageing.

To fulfil the quest for innovation, proposals should be collaboratively sponsored by at least one researcher whose principal expertise is in an area of biotechnology other than a dental science. The intent is to encourage collaboration with researchers from outside the dental institution; nevertheless, the most important criterion involves the innovative nature of the proposed research. Applicants should possess advanced degrees and must hold an affiliation with an academic centre, not-for-profit institution, or for-profit entity such as a biotechnology start-up. The principal investigator should be a current member of, or at the time of submission have made bona fide application for membership in the IADR. The awards are worth up to US\$75,000.

## **C**OMMONWEALTH ACADEMIC FELLOWSHIPS *Commonwealth Scholarship Commission in the UK*

### Description:

The Commonwealth Scholarship Commission in the UK invites applications for its academic fellowships. These enable mid-career academics from developing countries to spend three months at a UK university updating their skills and knowledge. Permanent residents of developing Commonwealth countries who hold a doctorate and have been employed for at least five years on the academic staff of a university in such a country are eligible to apply. Applicants in the field of medicine or dentistry should have qualified as a doctor or dentist before 1 October 2003. Applications must be made through the applicant's nominating university in their home country. Applicants may not apply directly to the commission, with the exception of applicants who have previously held a Commonwealth PhD scholarship. All applications must include a letter of support from an academic at the proposed host university. Fellowships provide return airfare to the UK, a research

support grant, a monthly maintenance allowance of £1,467 (or £1,819 for fellows at institutions in the London area), a grant towards preparing reports and other written work, an arrival allowance and a grant for approved travel within the UK or overseas.

## A AUSTRALIAN LAUREATE FELLOWSHIPS *Australian Research Council*

#### Description:

The Australian Research Council invites applications for the Australian laureate fellowships. The scheme encourages researchers of international repute to conduct research of significant national economic, environmental, cultural and social benefit. The ARC particularly encourages proposals from women, early to mid-career researchers, and from researchers currently working overseas. Up to 17 fellowships may be awarded for funding commencing in 2012, with two of these allocated to exceptional female researchers, promoting women in research. Fellows duties include conducting world-class research, forging links among the international research community or industry

and providing an excellent research training environment and mentoring to early-career researchers. Fellows commencing in 2012 will receive a salary supplement of \$105,782, plus 28 per cent on-costs, with a standard tenure of five years. In addition, ARC may provide project funding of up to \$300,000 per annum and additional funding to appoint up to two postdoctoral research associates with a salary of \$27,652 per annum and up to two postgraduate researchers with a salary of \$69,949 per annum. This award is listed in the Australian Competitive Grants Register (ACGR) - research income Category 1.

# FELLOWSHIP PROGRAMME

*International Society of Nephrology*

## Description:

The International Society of Nephrology invites applications for its global outreach fellowship programme. The programme provides nephrological training to physicians from emerging countries. Fellows receive training in advanced host institutions, allowing them to acquire knowledge in basic and clinical nephrology, dialysis, transplantation, and epidemiology. The training focuses on providing the exact skills and knowledge specifically required by the home institution; the guiding principle of the programme is that fellows are required to return to their home countries after their training to convey knowledge and experience that they acquired during their fellowship.

Two types of fellowships are offered; long-term awards lasting seven to 12 months and short-term awards lasting two to six months.

Eligible to apply are individuals at least 30 years of age who are living and working in developing countries and who have received basic training in nephrology. Applicants must be able to guarantee a return to their home countries within three months of completing the training. Candidates are encouraged to seek out relationships of their own accord and to benefit from relationships that their institution may already have with other well-established renal centres.

## **E** ENDO/ESE INTERNATIONAL ENDOCRINE SCHOLARS PROGRAMME *European Society of Endocrinology*

### **Description:**

The Endocrine Society and the European Society of Endocrinology invite applications for their international endocrine scholars programme. The purpose of the programme is to select highly qualified candidates who wish to gain training for a period of two to three years in an outstanding laboratory. The IESP is part of an integrated effort to facilitate collaboration among scientists working around the world and has the long range goal to develop an interactive relationship between the IESP scholars. A key element of this plan is to select scholars who will later become leaders in endocrinology in their home countries and internationally.

Individuals with an MD, PhD, DVM, MD/PhD or equivalent degree who have

completed at least two, but no more than five, years of research training after receiving their PhD are eligible; clinically qualified candidates should have advanced or completed training. Ideal candidates are postdoctoral endocrinologists with promising leadership skills and at the top rank with respect to intelligence, motivation, prior accomplishments, and English language skills. Successful candidates will be invited to attend both the Endocrine Society and European Society of Endocrinology annual meetings and all travel, registration, accommodation and reasonable expenses will be covered. The individual also receives free membership to the Endocrine Society and the European Society of Endocrinology for a period of three years. Selected scholars will receive an award of €5,000 to cover visits to

potential host labs. In addition, if the scholar decides on a host lab in Europe that is a member of ENDO or ESE, an additional scholarship award of €25,000 for a research period of six months is made available.
