B IRD PROTECTION PROJECT GRANTS

Club 300:s Fågelskyddsfond - The Club 300 Foundation for Bird Protection

Description:

The Club 300 Foundation for Bird Protections invites applications for project grants. The foundation supports projects related to bird protection, including research, all over the world. There are no specific eligibility requirements, however, only applications concerning bird protection will be considered. The maximum amount granted is \$5,000. Applications, to be sent via post to the chairman, can be written in English or Swedish. There is no dedicated application form. Applications must have been received, in four copies, on the deadline date.

Closing date: 01 Jul 12

Deadline information: Deadlines on: 1 July 2012, 1 January 2013, and repeated annually.

Posted date: 29 Nov 11

Award type: Directed grants for individual investigators, Directed grants to institutions, research groups etc

Award amount max: kr50,000

Award amount min: -

Award budget total: -

D UPRÉ GRANTS

Multiple Sclerosis International Federation

Description:

The Multiple Sclerosis International Federation invites nominations for the Du Pré grants. These enable young researchers from emerging countries to undertake short visits to other MS research centres either to learn more from each other or to carry out parts of joint research projects. The aim is to encourage cross-fertilisation of skills

through collaborative research projects. In 2012, research in the areas of symptom relief, rehabilitation and palliative care is encouraged. University departments must nominate a candidate. Individuals, preferably young researchers from emerging countries, who are directly involved in a special MS research project are eligible for nomination. Grants usually

range between £1,000 and £4,000. The maximum sum available is £5,000. Funds are intended to contribute towards travel and living costs or to top-up an existing grant in order to extend a visit.

Closing date: 01 Jul 12

Deadline information: Deadlines on: 1 July 2012, 12 February 2013, and repeated annually.

Posted date: 13 Dec 11

Award type: Networking/collaboration, Directed grants for individual investigators, Travel for research purposes

Award amount max: £5,000

Award amount min: £1,000

Award budget total: £25,000

G RANT AWARDS

Association for Professionals in Infection Control and Epidemiology Research Foundation

Description:

The Association for Professionals in Infection Control and Epidemiology Research Foundation invites applications for its grant awards. These grants support research projects under the following two programs:

- general research program. Grants are available to support a pilot study, a small project, or development and testing of an instrument. Applications should be directed toward the area of infection control and applied epidemiology;
- Steris focused research program. Grants are available for studies designed to demonstrate and quantify the value, and improve the practice of, infection prevention and

control and applied epidemiology in all health care delivery settings.

Grants are normally awarded for a one year period and range between \$5,000 and \$10,000.

Closing date: 01 Jul 12

Deadline information: Deadlines on: 1 July 2012, 1 December 2012, and repeated annually.

Posted date: 19 May 11

Award type: Directed grants for individual investigators, Directed grants to institutions, research groups etc

Award amount max: \$10,000

PROJECT GRANTS *Conservation, Food and Health Foundation*

Description:

The Conservation, Food and Health Foundation invites applications for its project grants. The foundation seeks to promote the conservation of natural resources, improve the production and distribution of food, and improve health in the developing world. The foundation helps build capacity within developing countries in its three areas of interest with grants that support research or projects that solve specific problems.

The foundation does not provide general operating support. It favors research, training, and technical assistance projects that:

- employ or train personnel from developing countries;
- are led by organizations with strong records of accomplishments in a particular field and have potential for replication;
- focus on regional or cross-boundary issues and opportunities;
- feature collaborative partnerships embedded in strong networks;
- strengthen local leadership and scientific capacity;

- influence public discourse and policy;
- focus on prevention rather than remediation;
- attract additional support and hold promise for continuation or impact beyond the period of foundation support.

The program is open to 501(c)(3) organizations, domestic or foreign governmental units or agencies, and non-governmental, foreign organizations determined to be the equivalent of a 501(c)(3) organization.

The average award amount is \$17,000 and grants rarely exceed \$25,000.

Closing date: 01 Jul 12

Deadline information: Deadline: concept applications January 1 and July 1; invited full applications March 1 and September 3, annually.

YAMAGIWA-YOSHIDA MEMORIAL INTERNATIONAL CANCER STUDY GRANTS *Union for International Cancer Control*

Description:

The Union for International Cancer Control invites applications for the Yamagiwa-Yoshida memorial international cancer study grants. These enable cancer investigators from any country to carry out bilateral research projects abroad that exploit complementary materials or skills, including training in advanced experimental research methods and techniques. Basic, translational, or applied cancer research is eligible, and prevention-oriented projects are especially encouraged. Candidates should be actively engaged in cancer research with appropriate scientific or medical qualifications and recent publications in international peer-reviewed literature. Applicants must possess at least two years' postdoctoral experience. Grants are worth \$10,000 each on average over a maximum of three months.

Closing date: 01 Jul 12

2012 CALL FOR PROPOSALS

Open Society Initiative for West Africa

Description:

The Open Society Initiative for West Africa invites proposals under its 2012 call. Grants are available to support the creation of open societies in West Africa marked by functioning democracy, good governance, the rule of law, basic freedoms and widespread civic participation. Proposals should seek to:

- foster building of strong governance institutions, processes and structures that are transparent, accountable and intolerant of impunity;
- build the capacity of civil society organisations and increase citizen participation in decision-making processes;
- promote the protection of fundamental rights and citizenship groups exposed to discrimination.

Programmes will be implemented in one or more of these countries: Benin; Cote d'Ivoire; Ghana; Guinea; Liberia; Niger; Nigeria; Senegal; Sierra Leone. Local organisations based in these countries and working in the society's core priority areas are eligible to apply. In rare circumstances, international organisations based in one of these countries and which have a strong commitment to transferring knowledge to local partners may also be considered for support.

Closing date: 02 Jul 12

Deadline information: Deadlines on: 27 February 2012, 2 July 2012.

PROJECT GRANTS Nuffield Foundation

Description:

The Nuffield Foundation invites applications for its project grants. Grants support research and innovation in the areas of children and families, education and law in society, as well as open-door projects.

The aim of the programmes is to:

- children and families - ensure that the legal and institutional framework is best adapted to meet the needs of children and families;
- education - support innovative research and development in specific priority areas;
- law in society - promote access to, and understanding of, the civil justice system;
- open-door projects - improve social well-being, and support the trustees' interests that lie outside the other programme areas.

The foundation does not usually make grants to organisations or projects outside the UK, although proposals for collaborative projects involving EU or Commonwealth partners are welcomed. Grants are normally worth between £10,000 and £250,000.

Closing date: 06 Jul 12

Deadline information: Deadline: outline applications 16 March and 6 July; full applications 4 May and 31 August 2012.

VISTAKON GRANTS American Academy of Optometry

Description:

The American Optometric Foundation invites proposals for two research grants sponsored by Vistakon. The grants are

intended to encourage talented researchers to pursue full-time careers in optometry. These grants fund basic or clinical research in the area of soft contact lenses. There will

be two one-year awards; \$25,000 and \$10,000. The \$25,000 award is open to all persons in optometry and vision science. The \$10,000 award is limited to graduate students and post-doctoral fellows no more than five years beyond their terminal degree.

Closing date: 07 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

SOCIAL SCIENCE RESEARCH GRANTS

World Anti-Doping Agency

Description:

The World Anti-Doping Agency invites applications for its social science research grant programme. This programme encourages research in the social sciences to obtain information which will enable more efficient doping prevention strategies. Projects must address one of the following research priority areas:

- increasing knowledge of causes of doping behaviour and influences that affect such behaviour;
- evaluating anti-doping intervention;
- improving social science research on doping prevention.

WADA awards research grants to organisations of all types, including universities, colleges, small businesses, for-profit and not-for-profit organisations.

FOGARTY AFRICAN BIOETHICS TRAINING PROGRAMME FOR INSTITUTIONS
Johns Hopkins University

Description:

The Johns Hopkins University Bloomberg School of Public Health and Institute of Bioethics, in collaboration with the Fogarty International Center, National Institutes of Health, invites applications for the Fogarty African bioethics training programme in research ethics for institutions within Africa. Training will occur over a 12-month period beginning October 2011 with continued guidance and opportunities for collaboration thereafter. Funding supports the capacity development of one African institution per year. Eligible institutions include: universities; hospitals; non-governmental organisations and governmental institutions that fund, regulate, conduct, oversee or provide training related to health research with human beings. Institutions must be based in the African region of the World Health Organization. The selected African institution will receive: one-year training opportunities in research ethics; one-month intensive training opportunities in research ethics; one short-term training workshop; consultations long-term mentorship; identification of networking opportunities for continued professional development within research ethics.

NISBET RESEARCH GRANT

Waterbird Society

Description:

The Waterbird Society invites applicants for its Nisbet research grant. The aim of this grant is to support research on waterbirds with preference given to research on gulls or terns. Of particular interest to the society are research proposals that are likely to provide significant advances in the biology, ecology, or conservation of waterbirds. Applications are welcome from students, professional or amateurs.
One award of a maximum of \$1,000 will be awarded per year.

Closing date: 14 Jul 12 (Forecast)

R RESEARCH GRANT *Vasculitis Foundation*

Description:

The Vasculitis Foundation invites applications for its research grant program. The purpose of this program is to provide one or two year seed grants to support pilot studies in researching the etiology, epidemiology, diagnosis, treatment, and complications of this disease. The awards are worth \$50,000 for 12 months. Some awards will be available for two years.

The Foundation's hope is that the results of the research supported by the program will lead to, and provide the basis for, much larger multi-year studies that would be funded by larger agencies like The National Institutes of Health. Suitable applicants will be medical researchers in areas such as rheumatology, immunology, nephrology, otolaryngology, pulmonary and respiratory diseases, and internal medicine. Only applications from non-profit organizations or institutions are eligible.

R RESEARCH GRANTS *National Ataxia Foundation*

Description:

The National Ataxia Foundation invites applications for its research grants. The grants fund new and innovative studies related to the cause, pathogenesis or treatment of hereditary or sporadic ataxia. Grants are offered primarily as seed monies to assist investigators in the early or pilot phase of their studies and as additional support for ongoing investigations. Grants are for one year and it is anticipated that

the average funds granted will be around \$15,000, although funding may be considered for up to \$30,000 for projects deserving special consideration.

Closing date: 14 Jul 12 (Forecast)

HERMANN STRENGER SCHOLARSHIPS

Bayer

Description:

Bayer invites proposals for the Hermann Strenger scholarships. These enable young people in the non-academic sector to gain work experience abroad in one of the following areas:

technical careers;

- science-related careers;
- careers in the health sector;
- business careers.

Researchers from Germany may apply to stay abroad, while international applicants may propose a placement in Germany. Support is available for up to one year, to gain initial international experience as part of a project, internship, training course, or simply on-the-job work.

P ILOT STUDY GRANTS FOR LARGE COMPANION ANIMALS *Morris Animal Foundation*

Description:

The Morris Animal Foundation invites proposals for pilot studies for large companion animals. The goal of this program is to provide timely funding for innovative ideas to speed up discovery and advance the foundation's mission of advancing animal health and welfare. Large companion animals include horses, llamas and alpacas.

Studies cannot exceed one year and all investigators are eligible to apply.

The proposal's budget cannot exceed \$10,000 plus eight percent for indirect costs.

Description:

The Kay Kendall Leukaemia Fund invites proposals for its programme and project grants. Project grants will be awarded for a period of up to three years to support research on aspects of leukaemia and for relevant studies on related haematological malignancies. Requests for support for basic science programmes may be considered. The fund also offers grants for the support of programmes associated with the care of patients with leukaemia. This includes proposals for phase 1 or 2 clinical trial studies. Proposals which are close to practical application to the care of

leukaemia patients or to the prevention of leukaemia and related diseases are particularly encouraged. Programme grants will give additional support to high-quality activities already underway.

Both UK and non-UK based organisations are eligible to apply for project or programme awards where the work to be funded is based primarily within the UK.

Closing date: 15 Jul 12

Deadline information: Deadlines on: 15 July 2012, 28 February 2013, and repeated annually.

SOLICITED GRANTS - GENERAL SOLID WASTE RESEARCH

Environmental Research and Education Foundation

Description:

The Environmental Research and Education Foundation invites applications for its solid waste research grants. Proposals should fit within EREF's strategic research plan and it's nine areas of specialization: landfills; transport/collection; policy/economics; recycling/waste minimization; combustion/waste-to-energy; equipment/safety; conversion technologies; life cycle inventory/analysis and education. Previously awarded grants have ranged from \$15,000 to over \$500,000 with the average grant amount being \$100,000.

Closing date: 15 Jul 12

Deadline information: Deadline: proposals accepted 10 days prior to, and up to, 5pm ET on closing date.

Posted date: 27 Oct 11

Award type: Directed grants to institutions, research groups etc, Directed grants for individual investigators

SOLICITED GRANTS - SUSTAINABILITY RESEARCH

Environmental Research and Education Foundation

Description:

The Environmental Research and Education Foundation invites applications for its sustainability research grants. Proposals are welcome in the area of sustainable solid waste research. This includes:

- waste minimization;
- recycling;
- waste conversion to energy , biofuels, chemicals or other useful products, including: waste-to-

energy, pyrolysis/gasification, oxidation, anaerobic digestion, composting;

- strategies to promote diversion from landfills.

Previously awarded grants have ranged from \$15,000 to over \$500,000 with the average grant amount being \$100,000.

Closing date: 15 Jul 12

Deadline information: Deadline: proposals accepted 10 days prior to, and up to, 5pm ET on closing date.

SPECIAL PROGRAMME ON SECURITY, SOCIETY AND THE STATE

Gerda Henkel Foundation

Description:

The Gerda Henkel Foundation invites proposals for its special programme on security, society and the state. Funding supports research projects, conferences, workshops and project-linked doctoral fellowships in the following fields:

- cyber security as a government task;
- public administration and human security;
- patterns of conflict resolution between the state and traditional actors;
- non-governmental actors as partners and contenders of the state;
- security strategies between doctrine formation and implementation.

Funding will only support existing research projects. Each applicant should be a postdoctoral scholar at a university, other research institute or comparable institution. Grants are worth up to €100,000 each.

Closing date: 16 Jul 12

Deadline information:

Posted date: 21 Feb 12

Award type: Directed grants to institutions, research groups etc, Directed grants for individual investigators, Hosting conferences, Studentship allocations

Award amount max: €100,000

NEW INVESTIGATOR AWARDS IN BIOMEDICAL SCIENCE

Wellcome Trust

Description:

The Wellcome Trust invites applications for its new investigator awards in biomedical science. These will provide support that is flexible and at a level and length sufficient to enable exceptional researchers to address the most important questions about health and disease. Awards will support world-class researchers who are no more than five years from appointment to their first academic position, but who can already show that they have the ability to innovate and drive advances in their field of study. They should be able to articulate a compelling long-term vision for their research and demonstrate the talent, track record and originality to achieve it. Applicants based in the UK or a low- or middle-income country must have an established academic post at an eligible higher education or research institution. Applicants based in low- or middle-income countries, except India, are also eligible to apply if they are carrying out research in the fields of public health and tropical medicine aimed at understanding and controlling human and animal diseases of local, national or global health importance. Awards are worth between £100,000 and £425,000 per year for a period of up to seven years, and cover research expenses, overseas allowances, travel and subsistence.

Closing date: 20 Jul 12

Deadline information: Deadlines on: 2 March 2012, 20 July 2012.

Posted date: 21 Dec 11

Award type: Equipment and materials, Networking/collaboration, Directed grants

for individual investigators, Young investigator awards, Travel for research purposes

Award amount max: £2,975,000

IEEE FOUNDATION GRANTS PROGRAM

Institute of Electrical and Electronics Engineers

Description:

The Institute of Electrical and Electronics Engineers invites applications for its foundation grants program. The foundation provides seed money to IEEE units and charitable organizations for innovative projects that further the scientific and educational purposes of IEEE. Focus areas include:

- education, supporting projects that expand and enhance engineering, science and technology education opportunities;
- history of technology, supporting projects to increase awareness of the impact and influence of early technology on the present and future among the general public;
- applying technology for humanitarian causes, supporting projects that implement or disseminate replicable, sustainable, technology-based solutions for humanitarian issues in underserved and underprivileged areas.

The foundation does not provide funds for overhead expenses nor for those costs that can be associated with the regular, ongoing business of the institute or the applying entity.

Closing date: 24 Jul 12

INDUSTRIAL CASE AWARDS *Biotechnology and Biological Sciences Research Council*

Description:

The Biotechnology and Biological Sciences Research Council invites applications for its industrial case awards. These will be awarded in the form of flexible doctoral training grants commencing in the 2012/13 academic year. Rather than funding individual studentships, DTGs provide funding in the form of a single training grant to the academic partner. This gives the department considerable flexibility in how it chooses to use the funding, in discussion with the industrial partner, for example:

- flexible start dates for students;
- ability to part-fund studentships with other sponsors;
- joint funding of studentships with another Research Council;
- offering three-year studentships where appropriate with the flexibility to use funding across different headings.

All industrial case research students are based at a university (or other eligible research organisation), but must spend part of their time with the company. It is expected that the company will provide a placement for a period of between six and 18 months. The company is required to ensure sufficient time is allocated during the placement to fulfil all aspects of the training being provided. This should include wider business-related training for the student in, for example: project-management; business strategy; and finance.

The company must contribute to the studentship at least £1,400 per year to the academic institution, cover travel and accommodation as well as provide a cash

payment of at least £2,500 per year to the student.

Proposals can be submitted by either an industrial company or an individual academic supervisor. Companies registered for business and trading in the UK with a UK research or manufacturing base, as well as foreign-owned companies are eligible to apply.

Funding for 88 four-year studentships is available.

Closing date: 27 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. Deadline time: 4pm. This call is repeated once a year.

POSTCODE LOTTERY GREEN CHALLENGE

Dutch Postcode Lottery - Nationale Postcode Loterij

Description:

The Dutch Postcode Lottery invites applications for its Postcode Lottery green challenge. The aim of this challenge is to encourage the development of new, innovative, creative and commercially viable products and/or services that contribute to an eco-friendly lifestyle, directly reduce greenhouse gas emissions and score highly on convenience, quality and design. Applicants are invited to submit a business plan for such a product or service which can be categorised in one of the following sectors:

- lifestyle;
- ICT;
- design;
- energy;
- mobility.

Applications may be submitted by any individual from any country above the age of 18 as well as companies, businesses, institutions and all other organisations.

The best business plan will win €500,000, with an additional €200,000 going to one or two other promising entries. The winning inventions must reduce CO2 output and be realisable within two years.

Closing date: 28 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

R ESearch GRANTS International Foundation for Science

Description:

The International Foundation for Science invites applications for its research grants. These enable young scientists from developing countries to conduct research on the sustainable management of biological resources. Projects must be related to the sustainable utilisation, conservation or management of the biological or water resource base. Applicants must be citizens of a developing country, attached to a university, national research institution or a research-oriented NGO. Applicants should be at the beginning of their research career, have at

least a master's or equivalent degree and be younger than 40.

Grants are worth up to \$12,000 for a period of one to three years, and cover the purchase of the basic tools needed to conduct the proposed research project such as equipment, expendable supplies and literature and to arrange fieldwork activities related to the proposed project. It is expected that the applicants already receive a salary and are employed by, or otherwise attached to, a developing country research institution.

Closing date: 29 Jul 12 (Forecast)

ACP-EU COOPERATION PROGRAMME IN HIGHER EDUCATION (EDULINK II)

EDULINK

Description:

EDULINK invites applications to the ACP-EU cooperation programme in higher education (EDULINK II). The overall aim of this programme is to foster capacity building and regional integration in the field of higher education through institutional networking. Funding will support higher education institutions in the African, Caribbean and Pacific group of states to create new and to upgrade existing curricula and teaching methods, reinforce links between teaching, modern technologies, lifelong learning and research, as well as strengthening their management and administration capacity. Projects should focus on the target areas of energy

access and efficiency, and agriculture and food security. Projects must take place in at least one ACP member state and may last for between 12 and 42 months. Proposals may be submitted under either of the following lots:

- lot one - European Development Fund, for which the total budget is worth €18.3 million;
- lot two - budget, for which the total budget is worth €5 million.

Public or private higher education institutions, networks of higher education institutions or recognised regional institutions of higher education with legal status that have been established for at least three years may apply. Applicants must

apply in partnerships involving at least three partners, with partners from at least two different ACP states. The number of institutions from ACP states must always exceed the number of institutions from EU or other regions. Applicants must be established in ACP member states, EU member states or candidate countries, EEA EFTA states, UN least developed countries or OECD/DAC member countries. Organisations from other countries may participate as associates. Applications may be submitted in English or French. The total budget for this programme is €23.3 million. Individual grants are worth between €200,000 and €500,000, and may not exceed 85 per cent of the estimated total project cost.

EuropeAid/132023/D/ACT/ACPTPS.

A OSSM/GENZYME OSTEOARTHRITIS GRANTS *American Orthopaedic Society for Sports Medicine*

Description:

The American Orthopaedic Society for Sports Medicine invites applications for the AOSSM/Genzyme osteoarthritis grants. This program will fund investigations related to early osteoarthritis or prevention of OA progression. The program reflects growing recognition of the importance of osteoarthritis within sports medicine and orthopaedics. Two separate grants will be offered. One will provide \$50,000 per year, renewable for three years, to support a clinical research study. The second will be a one-time award of \$50,000 to support a lab/basic science project to separate investigators over successive three years. Proposed studies need not relate specifically to sports injuries and should also have broad applicability to OA in the general population.

The principal investigator on all applications must be an AOSSM member who has completed his or her training.

Closing date: 31 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

C OLLABORATIVE RESEARCH GRANTS *American Academy of Religion*

Description:

The American Academy of Religion invites applications for collaborative research grants. These aim to encourage cooperative research among scholars in different institutions, with a focus on a clearly identified research project. Grants may also be used for interdisciplinary work with scholars outside the field of religion,

especially when such work shows promise of continuing beyond the year funded. The awards range between \$500 and \$5,000 each and can provide funding for networking and communication, or small research conferences if these are designed primarily to advance research.

The applicant must hold a PhD and must not have received an AAR research award

in the past five years. Groups must apply through an AAR member designated as the project director who must have been a member of the academy for three years.

Closing date: 31 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect.

This call is repeated once a year.

I NSTITUTIONAL RESEARCH TRAINING GRANT

Society for Academic Emergency Medicine

Description:

The Society for Academic Emergency Medicine invites applications for its institutional research training grant. The grant is intended to identify, develop, and fund promising institutions dedicated to providing high quality training to emergency medicine research fellows. Its specific goals are to:

- increase the number of emergency medicine physicians with training in research;
- develop and support programs that can serve as advanced research training sites for emergency medicine graduates who wish to pursue a career that involves research;
- establish a departmental culture in emergency medicine to support advanced research training;

- enhance the academic development and productivity of the specialty of emergency medicine.

Eligible institutions should host or be affiliated with a residency program in emergency medicine. The faculty member overseeing the grant should be a SAEM member and hold an academic appointment in emergency medicine or pediatric emergency medicine within the institution. The research fellow must be a residency graduate from emergency medicine and an active member of SAEM. This award will provide two years of funding at \$75,000 per year.

Closing date: 31 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

KYLE BRYANT TRANSLATIONAL RESEARCH AWARD

Friedreich's Ataxia Research Alliance

Description:

The Friedreich's Ataxia Research Alliance and the National Ataxia Foundation invite applications for the Kyle Bryant translational research award. The grant, worth \$120,000, will be awarded to projects focusing on pre-clinical/translational and clinical investigations that will advance treatments for Friedreich's Ataxia. Proposals should focus on one of the following:

- identification of biomarkers for FA that will elucidate disease variability, severity, and prognosis; facilitate drug screening; and optimize selection of patients and clinical endpoints for clinical trials;
- development of animal or cellular models that permit further evaluation of candidate therapeutics;
- development of tools and technologies that can be directly used for therapy development;
- pre-clinical development and testing of potential targets, biologics, and devices in cells and animals;
- clinical studies of patient outcomes measures, potential interventions, or devices.

Applications will be accepted from for-profit organizations, non-profit organizations, public or private institutions, and foreign institutions.

Closing date: 31 Jul 12 (Forecast)

PREDOCTORAL RESEARCH GRANT

Association for the Treatment of Sexual Abusers

Description:

The Association for the Treatment of Sexual Abusers invites applications for its predoctoral research grant. Grants support research on the causes and treatment of sexual offending. The ATSA research program encourages and supports all research on sexual aggression including research on the assessment, management, and treatment of identified sexual offenders, on the assessment of risk for re-offending, and on the treatment of the victims of sexual abuse. During the current granting cycle, however, ATSA is especially interested in research proposals that target the causes of sexually abusive behavior, the identification of characteristics that predispose individuals to perpetrate such abuse, and the investigation of the optimal intervention methods for preventing the occurrence of sexual abuse.

The total amount of grant monies available is \$15,000. Applications requesting any amount up to this limit will be considered. More than one application can be funded until the full \$15,000 has been awarded.

R **ESearch GRANTS** *Harry Frank Guggenheim Foundation*

Description:

The Harry Frank Guggenheim Foundation welcomes research grant proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Particular questions that interest to HFG concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships, among other subjects. Grants are awarded to individuals, and are normally in the range of \$15,000 to \$40,000 per year for one or two years.

Closing date: 31 Jul 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

R **ESearch GRANTS** *Centre for Environmental Economics and Policy in Africa*

Description:

The Centre for Environmental Economics and Policy in Africa invites applications for its research grants. Funding is available for proposals that focus mainly on broader issues in environmental economics and policy in African countries. Proposals that seek to suggest alternative strategies, policies and programmes to reduce present and future environmental burdens in African countries, as well as proposals whose potential output could lead to improvement in monitoring and

measurement of changes in environmental phenomena are also encouraged. CEEPA particularly welcomes proposals contributing to development of new methods and extensions of the theories of natural resource and environmental economics. Of particular interest are research projects that deal with managing natural resource use and environmental externalities, open access and public good situations, and forms of capital other than manufactured assets, such as natural and social capital, for which limited funding is

currently available from alternative traditional research funding sources. Funding of up to \$15,000 is available. Applications are welcomed from all researchers working in the field of environmental economics in Africa.

Closing date: 31 Jul 12

SHAFFER GRANTS *Glaucoma Research Foundation*

Description:

The Glaucoma Research Foundation invites preliminary applications for its Shaffer grants. These grants support new, high impact clinical, epidemiological and laboratory research. Strategic research goals include:

- to protect and restore the optic nerve;
- to accurately detect glaucoma and monitor its progression;

- to find the genes responsible for glaucoma;
- to understand intraocular pressure and develop better treatments;
- to determine the risk factors for glaucoma damage using systematic outcomes data.

Grants are typically awarded in the amount of \$40,000 for one year, renewable for a second year. Investigators must possess a graduate or postdoctoral degree to apply for support.

Closing date: 31 Jul 12 (Forecast)

AUGUST 2012

WORLDWIDE SMALL GRANTS

People's Trust for Endangered Species

Description:

The People's Trust for Endangered Species invites applications for its worldwide small grants. Funding is available for short-term conservation and research projects that focus on one or more IUCN classified endangered species or their habitat. It is hoped that these grants will enable innovative work and discrete projects to be carried out. Applications are welcomed from scientific researchers and workers in the field of conservation. Applicants should already be working and established in either the UK, UK overseas territories or any country not classified by the World Bank as high-income. For applications for work outside the UK, preference will be given to those from, or projects carried out in, regions or countries that have fewer avenues of funding open to them. Applications from developed countries outside the UK are highly unlikely to be funded. Grants are awarded for projects of up to two years' duration and are worth between £2,000 and £8,000, although most grants will not exceed £5,000.

Closing date: 10 Aug 12 (Forecast)

FIELD VEGETABLES RESEARCH AND DEVELOPMENT STRATEGY

Horticultural Development Company

Description:

The Horticultural Development Company invites applications for its field vegetables

research and development strategy. This scheme supports research projects on field vegetables. There are five key objectives for

research projects supported under this scheme:

- ensuring that adequate and sustainable crop protection measures are available for the main crop protection risks;
- increasing returns on investment through the efficient use of resources;
- supply consistent quality product and continuity of supply to achieve customer satisfaction;
- ensure a coordinated approach to research and development and technology transfer to farm level;
- provide information which can be used to promote consumption of home grown vegetables.

As priorities are constantly evolving and changing, the panel will also consider projects not outlined above but which are innovative and topical.

STANDARD RESEARCH PROPOSAL

Institut Laue Langevin

Description:

The Institute Laue Langevin invites proposals for access to its facilities. Neutron beams and instrument facilities are offered free of charge for accepted experiments. The instruments available for this round are :

- powder diffractometers;
- liquids diffractometer;
- polarised neutron diffractometers;
- single-crystal diffractometers;
- large scale structure diffractometers;
- small-angle scattering;
- reflectometers
- small momentum-transfer diffractometer;
- diffuse-scattering spectrometer;
- three-axis spectrometers;
- time-of-flight spectrometers;
- backscattering and spin-echo spectrometers;

- nuclear-physics instruments;
- fundamental-physics instruments.

Vivaldi will not be available in 2012. Beamtime allocation is on the basis of scientific merit, provided the experiment proposed meets technical feasibility and safety requirements.

R ESearch GRANTS IN BASIC AND CLINICAL SCIENCE Tourette Syndrome Association

Description:

The Tourette Syndrome Association invites applications for its research grants in basic and clinical sciences. Grants are available for research into any area that has the potential to contribute to the understanding of Tourette syndrome. Areas of interest include:

- neuropathology;
- experimental therapeutics;
- epidemiology;
- animal models.

Candidates must have a PhD, MD or equivalent. Research grant awards are valued at up to \$75,000 for one year, with a second year of funding available depending upon competitive review. Postdoctoral fellowships are also available, valued at up to \$40,000 for one year.

Closing date: 31 Aug 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. **Deadline:** pre-proposals, September 1; full proposals, November 3, 2011. This call is repeated once a year.

R **ESearch GRANTS IN BASIC SCIENCES PROGRAMME** *Academy of Sciences for the Developing World (formerly Third World Academy of Sciences)*

Description:

The Third World Academy of Sciences, in collaboration with the Department for Research Cooperation of the Swedish International Development Cooperation Agency and the Italian government, invites applications for its research grants in basic sciences. Funding aims to reinforce and promote scientific research in biology, chemistry, mathematics and physics carried out by either individual scientists or research units in S&T-lagging countries. Applicants must meet the following requirements:

- individual scientist grants. Applicants must be nationals of developing countries and under 45 years of age. They must hold a PhD, be at the beginning of their careers, but already have some research experience. They must hold a position at a university or research institution in one of the S&TLCs;
- research units grants. Units must be led by a renowned researcher who is a national of a developing country, who holds a PhD and who has good research experience. The research unit must operate within a university or a research institution in one of the S&TLCs and consist of a core number of research scientists,

postgraduate students and technicians. There is no age limit for unit leaders.

Funding is worth up to \$15,000 for individual scientists and up to \$30,000 for research units. Grants are normally provided for a period of 18 months and may be used to purchase scientific equipment, consumables and specialised literature. Applicants may apply for a renewal upon satisfactory performance.

Closing date: 31 Aug 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

SCIENCE RESEARCH GRANTS

Bial Foundation

Description:

The Bial Foundation is accepting applications for its science research bursaries. These support research in the areas of psychophysiology and parapsychology. All scientific researchers will be admitted as applicants, either individually or in groups, except those working for the Bial Foundation or for any of the companies belonging to the Bial Group. Bursaries last for up to three years and will commence between 1 November 2010 and 31 October 2011. Funding is worth between 5,000 euros and 50,000 euros.

Closing date: 31 Aug 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated every 2 years.

GENERAL GRANTS *Mérieux Foundation*

Description:

The Mérieux Foundation invites applications for its general grants. These support projects that improve the prevention, diagnosis and treatment of infectious diseases and support infected patients. Grants are available to private individuals, organisations or associations whose projects meet the following criteria:

- it is run in a developing country by local people;
- it relates to HIV/Aids, tuberculosis, malaria, hepatitis and other infectious diseases that represent

significant problems to public health;

- it provides concrete solutions that are suitable and sustainable for the local population.

Projects including as beneficiaries mothers and children will be given priority. The annual budget is €50,000. A maximum of 10 grants, worth up to €5,000 each, are available annually.

Closing date: 01 Sep 12

Deadline information: Deadlines on: 1 September 2012, 1 March 2013, and repeated annually.

Posted date: 02 Nov 11

G RADUATE ENGINEER TRAINING SCHEME

Cern (European Organization for Nuclear Research)

Description:

Cern, the European Organization for Nuclear Research, invites applications for its graduate engineering training scheme. This offers an opportunity for training and work experience in engineering fields. Applications are accepted from researchers from Cern member states, but a limited number of positions in the research sector are also available for scientists from non-member states. Applicants must hold a university degree, BSc level or above, or a technical engineering qualification. Recent graduates at bachelor level should not have more than four years of relevant professional experience, whereas candidates with an MSc should have no more than 10 years of professional experience. Each position is granted initially for one year and normally extended for a second year. Extensions for all or part of a third year are granted only in exceptional circumstances. Stipends are calculated individually. Health insurance

costs are covered and travel expenses for fellows and their family are granted. An installation grant, family allowance and child allowance can also be awarded.

Closing date: 01 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated 2 times a year.

G RANTS TO REDUCE ANIMAL EXPERIMENTS IN RESEARCH

3R Research Foundation Switzerland

Description:

The 3R Research Foundation invites applications for its grants to reduce animal experiments in research. Funding is provided for research with the following aims:

- reduction of the impact on animals used in animal experimentation;
- reduction of the number of animals needed for any one experiment;
- replacement of specific experiments using animals.

The duration of the project should preferably be between one and three years and grants should fall between CHF50,000 and CHF250,000. The budget for this call is CHF500,000.

Closing date: 01 Sep 12

INDIVIDUAL RESEARCH GRANTS

Wings for Life Spinal Cord Research Foundation

Description:

The Wings for Life Spinal Cord Research Foundation invites applications for its individual research grants. These promote basic and clinical research related to spinal cord injury by encouraging work by new investigators (including PhD students and technicians) on regeneration and recovery processes, and by encouraging well-established researchers to develop new ideas or transfer their efforts of other areas into spinal cord research. Funding is worth a maximum of €15,000 per year for established investigator applicants, €42,000 per year for postdoctoral applicants, €27,000 per year for PhD applicants, and €20,000 per year for technician applicants.

Closing date: 01 Sep 12

Deadline information: Deadline: executive summary due 1 September; full grant application due 1 November 2012. This call is repeated once a year.

NEW THERAPY - COMMERCIALIZATION GRANTS

Epilepsy Therapy Project (Epilepsy Research Foundation)

Description:

The Epilepsy Therapy Project and the Epilepsy Foundation invite applications for their new therapy - commercialization grants. The goal of the program is to drive the development of new therapies for epilepsy, accelerating the advancement of research from the laboratory to the patient. The program seeks to advance the development of new therapies including medicines, biologics or devices. The project also encourages 1:1 matching grants to academic and commercial entities to support the commercialization of novel approaches to the treatment of epilepsy. Areas of interest include:

- novel approaches to treatment;
- platform technology to advance screening techniques that can be utilized by multiple laboratories, including utility of techniques for early proof-of-concept trials;
- adaptation of treatment in development for another therapeutic areas to assess utility for epilepsy.

Proposals for research originating from outside the US are welcome. Preference will be given to proposals that already have a commercial partner engaged to assist with development, and to proposals that have committed or matched funding from the sponsoring institution, commercial partner or other third party source.

\$500,000 is available for funding for the spring 2012 grants cycle. ETP and EF encourage proposals ranging from \$50,000 to \$500,000 and anticipates average awards of \$100,000.

Closing date: 01 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect.

OVERSEAS BURSARY

British Ecological Society

Description:

The British Ecological Society invites applications for its overseas bursaries scheme. These provide grants for ecologists to carry out innovative ecological research. Funding is for any area of ecological science excluding research focused solely on agriculture, forestry and bioprospecting. Each grant is normally up to £7,000 over a 18 month period and is intended for the purchase of basic tools needed to conduct a research project, limited in-country travel and in some cases part of the applicant's salary. Applicants must be scientists and citizens of a country in Africa or its associated islands.

Closing date: 01 Sep 12

Deadline information: This call is repeated once a year.

PROJECT RESEARCH GRANTS

Wings for Life Spinal Cord Research Foundation

Description:

The Wings for Life Spinal Cord Research Foundation invites applications for its

project research grants. Projects may address all aspects of spinal cord lesions, nerve regeneration, trophic support of

lesioned neurons, and functional changes induced by lesions preferentially in mammals. Proposals should have a view to translation from the laboratory to the clinical setting and have potential to provide real benefits to human patients. Grants are awarded to institutions such as universities or hospitals, but not to individuals. Funding is worth a maximum of €70,000 per project, or €50,000 for postdoctoral applicants.

Closing date: 01 Sep 12

Deadline information: Deadline: executive summary due 1 September; full grant application due 1 November 2012. This call is repeated once a year.

RESEARCH AWARDS

Society for Research into Higher Education

Description:

The Society for Research into Higher Education invites applications for its research awards. The awards support new research into higher education.

The society is offering:

- up to three awards annually of £10,000 each for research focused on any aspect of higher education submitted under three overarching themes: higher education policy, higher education and society and higher education practice. These awards are only open to individual members of the society at the date of application. Where a proposal is submitted by a research group or

team, the lead proposer must be an individual member of the society;

- up to four scoping awards annually of £5,000 each for the exploration of any new or emerging area of higher education research leading to the development of a plan for further research. Applications are welcome from members and non members of the society.

Closing date: 01 Sep 12 (Forecast)

R ESearch GRANTS *Law School Admission Council*

Description:

The Law School Admission Council invites applications for its research grant program. The program funds research on a wide variety of topics related to the mission of LSAC. Specifically included in the program's scope are projects investigating precursors to legal training, selection into law schools, legal education, and the legal profession. To be eligible for funding, a research project must inform either the process of selecting law students or legal education itself in a demonstrable way. The program welcomes proposals for research proceeding from any of a variety of methodologies, a potentially broad range of topics, and varying time frames.

The following topics are of particular interest to LSAC:

- research on pipeline issues and access to law schools for minority populations;
- research on access to law school for students with disabilities;
- research on law school academic assistance programs.

The program is open to institutions and organizations from all countries; however, proposals must include some explicit connection to legal education or the legal

profession within the US, Canada and/or Australia.

Funding up to \$200,000 is available.

Closing date: 01 Sep 12

Deadline information: Deadlines on: 1 September 2012, 1 February 2013, and repeated annually.

R **ESearch INTO NEUROMUSCULAR SYSTEM** *Association Française contre les Myopathies*

Description:

Association Française contre les Myopathies invites grant applications for research into the neuromuscular system. Projects will address the following areas:

- fundamental research and physiopathology of diseases of the neuromuscular system;
- development of therapeutic approaches for rare diseases;
- clinical and care management.

Awards include: trampoline grants, available to early career investigators and established investigators proposing innovative projects, worth €50,000 each over one year; research projects, available for up to two years; PhD fellowships, available for up to three years; and postdoctoral fellowships, available for up to two years. French and foreign groups may apply.

Closing date: 09 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect.

R **RESEARCH AWARDS** International Development Research Centre

Description:

The International Development Research Centre invites applications for its research awards. These enable researchers to undertake a programme of training in research management and grant administration under the guidance of IDRC staff. Internships are currently available in the following units:

- agriculture and food security;
- climate change and water;
- ecosystems and human health;
- donor partnership division;
- innovation, technology and society;
- information networks and inclusion;
- supporting inclusive growth;
- governance, security and justice;
- think tank initiative;
- governance, equity, and health;
- research for international tobacco control;
- special initiatives division;
- policy and planning group;
- evaluation unit;
- president's office.

Each candidate must be a citizen and permanent resident of Canada, or a citizen of a developing country, and must be working towards, or have gained, a master's degree. Doctoral students or candidates with doctoral degrees may also apply. Research must focus on one or several developing countries, though IDRC is not currently supporting research on Burma, Cuba, Iran, Iraq, Eastern Europe or Central Asia. Internships based in Canada provide a salary ranging from CAD\$37,035 to CAD\$42,873, plus travel and research expenses worth a maximum of CAD\$10,000. Approximately 15 fellowships are available.

Closing date: 11 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

FUNDING FOR MEDICAL SCIENCE RESEARCH

Päivikki and Sakari Sohlberg Foundation - Päivikki ja Sakari Sohlbergin Säätiö

Description:

The Päivikki and Sakari Sohlberg Foundation invites applications for funding for medical research within the interest of the foundation. The foundation aims to advance the mental and physical well-being of children and seniors in Finland. The foundation sponsors medical science, health care and other activities in line with this objective. The focus in relation to children is on promoting their psychic development based on Christian and patriotic principles and on easing the

obstacles caused by physical and/or mental challenges.

The grants are mainly allocated to individual postdoctoral researchers to fund sabbaticals, hiring of assistant personnel and immediate costs such as equipment. Funding of travel, conference or publishing costs is not within the foundation's remit. Research groups may apply but the planned amount of funding for each individual must be listed. The research should be conducted by researchers based

in Finland or by Finnish nationals working abroad.

The amount of funding awarded annually has been as high as €1.5 million in past years. Individual grant amounts varied in 2010 between €2,000 and €80,000. The foundation also allocates grants worth €1,000 to €30,000 to not for profit organisations to help fund their operations.

Closing date: 14 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

INNOVATIVE GRANTS

Juvenile Diabetes Research Foundation International

Description:

The Juvenile Diabetes Research Foundation International invites applications for its innovative grants. The grants are for highly innovative research with potential significant impact on accelerating the mission of JDRF. The innovative research should have the potential for a change in the current paradigm or conventional wisdom or to lead to a seminal discovery or to be groundbreaking. Grants provide one year of support worth \$110,000. Applicants must hold an MD, DMD, DVM, PhD or

equivalent and have a faculty position or equivalent at a college, university, medical school or other research facility in the US or abroad. There are no citizenship requirements.

Closing date: 14 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

PROGRAMME FOR INNOVATIVE LIBRARIES IN DEVELOPING COUNTRIES

Elsevier Foundation

Description:

The Elsevier Foundation invites applications for its innovative libraries in developing countries programme. This enables libraries to enhance the quality of life in developing countries by advancing knowledge in science, the social sciences, technology and medicine. The foundation provides one, two and three year grants to libraries in developing countries and supporting organisations in the following areas:

- programmes to enhance library infrastructure, technology or information services in ways that significantly enhance the ability to make social sciences, and scientific, technical and medical information available to those that need it;
- programmes that enhance or expand library information resources in the developing world through digitisation or preservation of information that advances science, health, the environment and indigenous knowledge;
- training and education programmes for library staff, students and researchers contributing to sustainable improvements in the

library's capacity to provide STM information in the developing world;

- partnerships between libraries in the developing countries and institutions in the developed countries to provide technical assistance or training.

Preference will be given to proposals that demonstrate innovation in improving the use of STM information and have a high degree of potential impact in the developing world, as well as programmes that enhance international partnerships or exchange between individuals and institutions. Grants worth between \$5,000 and \$50,000 per year are available for up to three years.

Closing date: 14 Sep 12 (Forecast)

R **ES** **E** **S** **E** **A** **R** **C** **H** **G** **R** **A** **N** **T** **S** *Oxalosis and Hyperoxaluria Foundation*

Description:

The Oxalosis and Hyperoxaluria Foundation invites applications for its research grants. The program assists investigators, new or established, who have research projects for which they need support. While the foundation primarily seeks to fund grants which will increase the understanding of primary hyperoxaluria and oxalosis and improve the clinical management and treatment of the genetic diseases, applications focused on hyperoxaluria and oxalosis associated with other conditions and diseases will also be considered.

Grants are worth up to \$160,000 for a period of up to two years and may be used to cover expenses for personnel, supplies, other costs, travel, and equipment. Indirect

costs up to 10 percent of the direct costs (excluding equipment) may be requested.

A NUAL PROGRAM STATEMENT FOR FOOD SECURITY, NUTRITION, BIODIVERSITY AND CONSERVATION *Agency for International Development (USAID)*

Description:

The Agency for International Development (USAID) invites applications under its annual program statement for food security, nutrition, biodiversity and conservation. Funding is available for a limited number of public-private alliances to enhance food security and address issues of biodiversity and conservation in Uganda. There are two key priority areas:

- food security and nutrition: priorities include promising methods for substantially advancing coffee, maize, beans, agro-inputs, nutritional food products, financial services and information and communication technologies solutions;
- biodiversity and conservation: priorities include innovative methods for promoting ecotourism as well as averting ecological and trans-boundary threats.

US and non-US institutions and organisations may apply. The total estimated budget for this programme is \$19 million. APS-617-12-000010.

Closing date: 15 Sep 12

COMPARATIVE PSYCHOLOGY FUNDING

Royal Netherlands Academy of Arts and Sciences - Koninklijke Nederlandse Akademie van Wetenschappen (KNAW)

Description:

The Royal Netherlands Academy of Arts and Sciences invites applications for Dobberke Foundation comparative psychology funding. This supports scientific research in the fields of behavioural biology and comparative psychology, in so far as such research focuses on animal behaviour. Research focusing on human neurobiology or human psychology will not be eligible.

University graduates or PhD holders who are Dutch nationals or who work for a Dutch research institution are welcome to apply.

Funding is generally worth between €2,000 and €6,000.

In exceptional cases, a project may be funded with up to €10,000.

IMPLEMENTATION SCIENCE RESEARCH TO SUPPORT PROGRAMS UNDER THE PRESIDENT'S EMERGENCY PLAN FOR AIDS RELIEF (PEPFAR)

Agency for International Development (USAID)

Description:

The Agency for International Development (USAID) invites applications under its implementation science research to support

programs under the President's emergency plan for Aids relief (PEPFAR) call. The purpose of this call is to foster

implementation science essential for building an evidences base to improve HIV/Aids service delivery and maximise health outcomes and impact. The implementation science priority areas are:

- identification of new and effective interventions and cost-effective, efficient implementation models for proven interventions to achieve public health impact;
- identification of approaches for adopting and integrating programs, technologies and guidelines for optimal, timely effect and impact.

Both HIV-specific and integrated programming proposals are welcome. Priority will be given to programs focussed on sub-Saharan Africa.

Eligible organisations include US and non-US non-governmental organisations, non-profit organisations and for-profit organisations. The estimated budget for this call is \$30 million. USAID anticipates funding up to 40 awards, and the maximum award will be \$3m total. USAID-APS-OAA-11-000002.

PETROLEUM RESEARCH FUND: NEW DIRECTIONS GRANTS *American Chemical Society*

Description:

The American Chemical Society invites applications for new directions grants through the ACS petroleum research fund. The purpose of the new directions grants program is to stimulate a new direction of research for established faculty and to support the careers of student scientists and engineers.

Grants are offered to scientists and engineers with limited or no preliminary results, for a research project they wish to pursue, who intend to use the PRF-driven preliminary results to seek continuation funding from other agencies. Grants are to be used to illustrate proof of concept/feasibility. Accordingly, they are to be viewed as seed money for new research ventures.

Regularly-appointed faculty members at academic institutions in countries where the fund can administer grants are eligible to apply. Certain other long-term scientific appointments may be eligible.

Each applicant can be awarded a maximum amount of \$100,000, over two years. Approximately 100 grants are awarded each year.

Closing date: 16 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. **Deadline time:** 5pm ET. This call is repeated 2 times a year.

CALL FOR PROPOSALS

European Commission Research Fund for Coal and Steel

Description:

The European Commission Research Fund for Coal and Steel invites applications under its call for proposals. This supports projects covering:

- production processes;
- application, utilisation and conversion of resources;
- safety at work;
- environmental protection and reducing CO₂ emissions from coal use and steel production.

Research, pilot and demonstration projects typically last for 36 to 42 months, whole accompanying measure typically last for 18 months. Consortia of any size, including EU members, candidate countries or third countries, may apply, but only EU members will receive funding. There is no set project duration, although typical research projects will last between three and four years. Project budgets normally range between €1 million and €2m, although no budget limit has been set. The total annual budget for the programme is approximately €60m, of which 72.8 per cent is earmarked for steel-related projects and 27.2 per cent for coal-related projects. The Commission provides up to 60 per cent funding for research projects, up to 50 per cent for pilot and demonstration projects and 60 per cent for accompanying measures for the promotion of knowledge, which can be exceptionally raised to 100 per cent.

Closing date: 18 Sep 12

Economic and Social Research Council

Description:

The Economic and Social Research Council and the Department for International Development invite proposals under their joint scheme for research on international development (poverty alleviation) - phase 2. The purpose of the scheme is to provide a more robust conceptual and empirical basis for development and to enhance the quality and impact of social science research which contributes to the achievement of the millennium development goals. The second phase of funding for the joint scheme retains the overall poverty alleviation theme from the first phase, and applications under this broad heading are welcome. However, ESRC and DFID have identified the following three thematic areas for this call where work will be of particular interest:

- resource scarcity, growth and poverty reduction;
- information and communication technology and development;
- measuring development.

The scheme is open to researchers based in recognised higher education institutions, research organisations or organisations with a credible research capacity.

Awards are worth between £100,000 and £500,000 at 100 per cent full economic cost. A total budget of £7 million has been set aside for this call.

Closing date: 27 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. Deadline time: 4pm. This call is repeated once a year.

Posted date: 01 Jul 11

Award type: Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration

Award amount max: £500,000

Award amount min: £100,000

Award budget total: £7,000,000

G RANTS FOR RESEARCH IN MEDICINE AND HEALTH ECONOMICS

Yrjö Jahnsson Foundation - Yrjö Jahnssonin säätiö

Description:

The Yrjö Jahnsson Foundation invites applications for its research grants in medicine and health economics. These research grants may be awarded to individual investigators or research groups in the priority research areas in medicine and health economics.

In medicine, the Foundation has four priority areas:

- effects of environment and life style on health outcomes;
- health promotion and education;
- health issues affecting adolescents, young adults and families;
- addictions and dependency.

In health economics, the two priority areas are:

healthcare services structure and functionality;

- healthcare organisational policy, funding and incentives.

Grants may be awarded for a period of one year. Grants may also be awarded to support postgraduate studies.

Closing date: 28 Sep 12

ACCESS TO LEARNING AWARD

Bill and Melinda Gates Foundation

Description:

The Bill and Melinda Gates Foundation invites applications for its access to learning award under its global libraries initiative. This award recognises the innovative efforts of libraries or similar organisations outside the US to connect people to

information through free access to computers and the internet. Projects should aim to offer the following key services in new ways:

- free public access to computers and the internet;

- public training to assist users in accessing online information that can help improve their lives;
- technology training for library staff
- outreach to under-served communities.

Applications are open to institutions outside the US that are working with disadvantaged communities. To be eligible, the applying institution must allow all members of the public to use computers and the internet free of charge in a community space. The award is worth \$1 million.

Closing date: 29 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

P ILOT RESEARCH GRANTS *Interstitial Cystitis Association*

Description:

The Interstitial Cystitis Association invites applications for its pilot research grants. These grants seek to provide novel IC research proposals with initial grant funding to gather preliminary data. This data may then enable researchers to obtain further grants to continue the research. Priority areas of interest include:

- epidemiology of interstitial cystitis-special interest in studies on the burden of disease;
- etiology of interstitial cystitis;

- serum or urine markers;
- potential IC treatment modalities;
- neurophysiology;
- pain management;
- pregnancy and IC.

Suitable applicants will be specialists with a particular interest in IC in the areas of urology, urogynecology, or pain management.

KEEPERS OF THE EARTH GRANTS *First Peoples Worldwide*

Description:

First Peoples Worldwide invites applications for its keepers of the Earth grants. These grants support indigenous communities and indigenous-led projects that create greater indigenous control of assets.

Grants support strategies that support indigenous development, including:

- indigenous-led, grassroots/local projects;
- control and self-determination of indigenous homelands;
- strategies for redressing evictions;
- indigenous stewardship;
- traditional knowledge;
- community organizing and start-up costs for indigenous organizations;
- appropriate technology and learning exchanges;
- advocacy for indigenous voice within policy forums.

Applicants must be: an indigenous-led grassroots/ local organization or group; have an organizational bank account or access to a fiscal sponsor; and ensure project activities will be completed outside the US. Projects may have a duration between six and 12 months. Grants are worth between \$250 and \$20,000.

Closing date: 29 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. Deadline: applications are accepted on a rolling basis throughout the year, with a

September 30 deadline for funding for the current year.

POWER AND THERMAL MANAGEMENT TECHNOLOGY DEVELOPMENT PROGRAM

Department of the Air Force (USAF)

Description:

The Air Force invites white papers for its power and thermal management technology development program. The objective is to obtain cutting edge technology from industry and academia that has not previously been considered for funding opportunities. This objective will be met by awarding contracts/assistance instruments that provide a broad range of highly unique evolutionary and revolutionary technology advances in three application areas: aircraft power and thermal, directed energy weapon power and thermal, and special purpose power and thermal.

This is an unrestricted solicitation although preventive restrictions might apply to foreign contractors. The estimated program cost is \$47.55 million. The anticipated

funding is broken out as follows: fiscal year 2008 approximately \$7.55m; fiscal year 2009 approximately \$10m; fiscal year 2010 approximately \$10m; fiscal year 2011 approximately \$10m; fiscal year 2012 approximately \$10m. Individual awards will normally be up to 36 months in duration and range between \$200,000 and \$3m per contract. BAA-08-01-PKPA

R **ESearch AND DEVELOPMENT PROJECTS** *Dairy Australia*

Description:

Dairy Australia invites applications for its research and development project funding. Applications are welcomed from individuals and organisations worldwide for projects addressing:

- increasing farm productivity;
- maintaining and developing high margin markets, channels and products;
- promoting and protecting the unique benefits of dairy.

Proposals are judged on the perceived benefits to the Australian dairy industry. Most projects last for one to three years. This award is listed in the Australian Competitive Grants Register (ACGR) - research income Category 1.

RESEARCHER AND PROJECT GRANTS IN HUMANITIES, SOCIAL SCIENCES AND ENVIRONMENTAL AND ARTISTIC RESEARCH

Kone Foundation - Koneen Säätiö

Description:

The Kone Foundation invites applications for grants for individual researchers and projects in the fields of humanities, social sciences, environmental and artistic research. Only researchers who have completed a master's degree are eligible for Kone Foundation academic grants.

The foundation offers grants for both recent doctoral graduates and researchers with more career experience. For doctoral grant applicants, individuals whose research fields have no PhD programmes in Finland are prioritised. Priority is also given to multi- and interdisciplinary and marginal fields of research.

Internationality is also valued, therefore Finnish applicants completing their studies abroad and foreign applicants completing their degree in Finland are also given priority. Geographically, the Kone Foundation focuses on the Baltic region.

Individual researches can apply for a maximum of one year at a time. For doctoral research, grants can be awarded for a maximum of four years while for postdoctoral research the maximum is two years. To be eligible applicants must be engaged in full-time research.

Grants can also be awarded for projects that involve one or more researches and are supervised. Funding can be sought for projects spanning several years. These projects offer researchers grants, not a salary, although it is possible to pay salaries

to research assistants and possibly the director of the project.

The Kone Foundation awards €25,000 annually per doctoral research grant and €27,600 annually for postdoctoral research.

Closing date: 30 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect.

Deadline: applications accepted from 1 August until 30 September annually.

R **ESearch GRANTS** *Grayson-Jockey Club Research Foundation*

Description:

The Grayson-Jockey Club Research Foundation invites applications for its research grants. The foundation supports research relevant to equine health and performance. Although there are no limits on the dollar amount that may be awarded, applicants are advised that the foundation awards approximately \$900,000 annually. Average funding during the past five years has been \$71,000 per grant.

The investigator should have some professorial rank and salary from the institution involved, or hold some grade of research professorship with salary from the institution.

Closing date: 30 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. This call is repeated once a year.

Posted date: 19 May 11

Award type: Directed grants for individual investigators

Award amount max: -

Award amount min: -

Award budget total: \$900,000

TREATMENT TRIALS FOR SCHIZOPHRENIA AND BIPOLAR DISORDER *Stanley Medical Research Institute*

Description:

The Stanley Medical Research Institute invites proposals for treatment trials for schizophrenia and bipolar disorder. Regular treatment trials, funded at up to \$300,000 per year for up to three years, support the testing of medications to assess their efficacy for treating schizophrenia and bipolar disorder. SMRI is especially

interested in supporting the testing of medications that are unlikely to be tested by pharmaceutical companies because they are not commercially profitable.

Applications will be accepted from researchers in any country except where prohibited by United States law. The skills and academic experience of the applicant

will be considered, but no particular academic degree is required.

Closing date: 30 Sep 12 (Forecast)

Deadline information: !! Call has not yet been announced by sponsor but this is the approximate deadline we expect. Deadline time: 11:59 EST. This call is repeated once a year.
