### **S**MITHSONIAN FELLOWSHIPS Smithsonian Institution

#### Description:

The Smithsonian Institution invites applications for its Smithsonian fellowships. These provide opportunities for graduate students, predoctoral students, and postdoctoral and senior investigators to conduct research in association with members of the Smithsonian professional research staff, and to utilise the resources of the institution. Proposals must reflect one or more of the four grand challenges identified by the Smithsonian strategic plan, which include unlocking the mysteries of the universe; understanding and sustaining a biodiverse planet; valuing world cultures; and understanding the American experience. Four types of fellowships are available:

- graduate student fellowships support students enrolled in academic graduate programmes and include a stipend worth US\$6,500 is available over a ten-week period;
- predoctoral fellowships, worth up to US\$30,000, support students enrolled in a university as PhD candidates for a period of three to 12 months;
- postdoctoral fellowships support applicants who have or will have received their PhD or equivalent qualification after 15 January 2006, comprise stipends worth up to US\$50,000 and support a period of three to 12 months;
- senior fellowships support applicants who have received their PhD, or equivalent, before 15 January 2006, comprise stipends worth up to US\$50,000 and support a period of three to 12 months.

Applicants must have fluency in writing and conversing in English, and all application materials must be presented in English.

In addition to receiving scholarships, fellows will be provided with space to conduct their research within the department they are working. An allowance of up to US\$4,000 may be available to assist the fellow with research-related expenses, and funding towards relocation may be provided.

**Closing date:** 15 Jan 13

**Deadline information:** This call is repeated once a year.

## B EILBY MEDAL AND PRIZE

Royal Society of Chemistry

#### Description:

The Royal Society of Chemistry invites nominations for the Beilby medal and prize. This recognises work of exceptional practical significance in chemical engineering, applied materials science, energy efficiency or a related field.

Preference will be given to those candidates under the age of 40 at the closing date. The award is open to members and non-members based in the UK or internationally. Self-nominations are accepted.

The prize is worth £1,000.

## **YAMAGIWA-YOSHIDA MEMORIAL INTERNATIONAL CANCER STUDY GRANTS**

*Union for International Cancer Control*

### **Description:**

The Union for International Cancer Control invites applications for the Yamagiwa-Yoshida memorial international cancer study grants. These enable cancer investigators from any country to carry out bilateral research projects abroad that exploit complementary materials or skills, including training in advanced experimental research methods and techniques. Basic, translational or applied cancer research is eligible, and prevention-oriented projects are especially encouraged. Candidates should be actively engaged in cancer research with appropriate scientific or medical qualifications and recent publications in international peer-reviewed literature. Applicants must possess at least two years' postdoctoral experience. Grants are worth US\$10,000 each on average over a maximum of three months.

## **R ESEARCH SEED GRANT**

*Radiological Society of North America*

### **Description:**

The Radiological Society of North America Research and Education Foundation invites applications under its research seed grant program. This enables investigators to define objectives and test hypotheses in preparation of major grant applications in any area of radiologic sciences. Projects with a focus on advancing imaging science, developing or

evaluating medical imaging technology, or making innovative use of imaging science to answer important biologic or clinical questions are encouraged. Each applicant must:

- Be a radiological investigator of any level and of any nationality;
- Be an RSNA member;

- Hold a full-time faculty position in a department of radiology, radiation oncology, or nuclear medicine within an educational institution;
- Have completed advanced training and be certified by the radiology board of their country;
- Not be an agent for any for-profit, commercial company in the radiologic sciences.

Up to US\$40,000 is available for a period of one year. Funding is available to support the preliminary or pilot phase of the project with no salary support is available for the principal investigator.

### Description:

The American Society for Microbiology and the Coordinating centre for Infectious Diseases (formerly the National centre for Infectious Diseases) invite applications for their programme in infectious disease and public health microbiology. The goal of the fellowship

is to support the development of new approaches, methodologies and knowledge in infectious disease prevention and control in areas within the public health mission of the centres for Disease Control and Prevention. The fellowship allows the fellow to perform research in residence at the CCID, which is

headquartered at the CDC in Atlanta, GA. Eligible fields of study include:

- Bacterial and mycotic diseases;
- Viral and rickettsial infections;
- Nosocomial infections;
- HIV/Aids;
- Vector-borne infectious diseases;
- Parasitic diseases.

The programme is intended for individuals who either earned their doctorate degree or completed a primary residency within three years of their proposed start date. Applicants may not have a faculty position or be enrolled in a graduate degree programme during the fellowship. The fellowship provides an annual stipend worth up to US\$45,243, health benefits worth up to US\$3,000 annually for a maximum of two years, relocation benefits worth up to US\$500, and professional development support worth up to US\$2,000 annually for a maximum of two years.

## MEWALDT-KING STUDENT RESEARCH AWARD *Cooper Ornithological Society*

### Description:

The Cooper Ornithological Society invites applications for the Mewaldt-King student

research awards. These \$1,000 awards are designated to support research that relates to the conservation of birds. Research may be in

any area of ornithology, but studies that involve demographics, breeding biology or disease ecology may be particularly relevant, especially if the species is endangered, threatened or otherwise of management concern. Studies of species from threatened ecosystems or with reference to large-scale conservation issues such as climate or landscape change are also of particular interest.

Only graduate students accepted to or enrolled in a master's or doctoral program are eligible for the award.

## R ESEARCH SUPPORT FUND GRANTS *Edinburgh Mathematical Society*

#### Description:

The Edinburgh Mathematical Society invites applications for its research support fund grants. This supports a variety of mathematical activities of benefit to the broad mathematical community. The main criteria used to assess applications are their academic merit and benefit, either to individuals, groups or the mathematical community in general. Activities supported include research visits, conferences and publications. Applications from non-members must be countersigned by a member of the society.

The total annual award budget is £15,000. An upper limit of £1,000 per individual and calendar year will normally apply.

## **T**HREE-YEAR TUPPER POSTDOCTORAL FELLOWSHIPS IN TROPICAL BIOLOGY

*Smithsonian Institution*

#### **Description:**

The Smithsonian Tropical Research Institute invites applications for its three-year Tupper postdoctoral fellowships in tropical biology. Support is provided in the areas represented by the STRI's scientific staff. Disciplines include: ecology, anthropology, paleontology, paleoecology, evolutionary biology, molecular phylogenetics, biogeography, animal behavior, neurobiology, soil sciences and physiology of tropical plants and animals.

Research should be based at one of the STRI facilities, although proposals that include comparative research in other tropical countries will be considered. The annual stipend is US\$45,000 with yearly travel and research allotments.

#### Description:

The American Arachnological Society invites applications for its fund for arachnological research. The purpose of the fund is to provide research support for work relating to any aspect of the behavior, ecology, physiology, evolution or systematics of any of the arachnid groups (excluding Acari). Awards may be used for field work, museum research (including travel), expendable supplies, identification of specimens, or for preparation of figures and drawings for publication.

Individual awards will normally range between \$250 and \$350. These awards are open to all students and faculty who receive less than \$500 per year of research funding from their home institutions. However, preference will be given to graduate students.

Research grants are awarded only to student and regular members of the AAS and to students of current regular members of the society. The competition is open to both US and non-US citizens and to biologists at US and non-US institutions.

## MIMICS INNOVATION AWARDS *Materialise Group*

### Description:

The Materialise Group invites application for the Mimics innovation awards. These support top level research conducted with the assistance of Mimics innovation suite. Categories of participation are:

- Engineering on anatomy, with one award worth €5,000, one worth €3,000 and three worth €2,000;

- Open category, including industrial applications, archaeology and material sciences, worth €1,000;
- Poster category, worth €1,000.

Researchers may submit published or unpublished cases. Papers may be published in the Journal of Computer Methods in

Biomechanics and Biomedical Engineering if it has not earlier been published.

**Closing date:** 15 Jan 13

**Deadline information:** This call is repeated once a year.

**Posted date:** 18 Oct 12

## AFRICAN DOCTORAL DISSERTATION RESEARCH FELLOWSHIPS

*Africa Population and Health Research Center*

#### Description:

The Africa Population and Health Research Centre, in association with the International Development Research Centre, invites applications for its African doctoral dissertation research fellowships. Funding supports advanced doctoral students who are within two years of completing their doctoral thesis on health policy and health systems issues in Africa. Eligible fields include: health sector analysis; health management and organisation; healthcare financing; quality of care; human resources for health; health programme

evaluation; health equity; cost-effectiveness of health care programmes; community participation in healthcare or health issues; research to practice and health policy; health information, education and communication; pharmaceutical policy; economic policy and health; health information systems; health services utilisation and accessibility; health inequities in urban areas; reproductive health of marginalised urban communities.

Applicants must:

- Be citizens or permanent residents of a sub-Saharan African country;
- Be undertaking doctoral training at a recognised African university;
- Have completed all pre-dissertation requirements;
- Be able to complete their dissertation within 24 months.

Female applicants and those from Francophone and Lusophone countries are encouraged to apply. Approximately 20 fellowships, worth US\$15,000 each, are available.

**Closing date:** 15 Jan 13

**Deadline information:** This call is repeated once a year.

## C LINICAL AND BASIC SCIENCE RESEARCH AWARD *Osteoarthritis Research Society International*

#### Description:

The Osteoarthritis Research Society International invites nominations for its clinical and basic science research awards. These recognise excellence in basic and clinical research in osteoarthritis.

Research domains include areas such as epidemiology and health service research, clinical outcomes, translational research and therapeutics. Projects must encompass all phases of research that have clinical implications. Research may be in any of a number of speciality disciplines related to osteoarthritis. Research should have been primarily conducted within the last five years. Applicants must be society members.

Awards consist of a US\$2,000 honourarium, travel expenses to the congress up to US\$1,000, complimentary registration and three nights' hotel accommodations.

# FELLOWSHIPS IN SUSTAINABILITY SCIENCE

*Harvard University*

## Description:

The Center for International Development at Harvard University invites applications for resident fellowships through the sustainability science programme.

The 2013-14 fellowship competition focuses on regional initiatives pursuing an integrated perspective on sustainable development in India, China and Brazil. It will also include a crosscutting research initiative to integrate work focused on the theme of innovation for sustainable development. Although the competition is open to strong proposals in any area of sustainability science, preference will be given to applicants whose proposals complement one or more of the following four initiatives:

- Governance innovations for sustainable development – building public-private partnerships in India;
- Sustainable development of the energy sector in China – challenges and options;
- Sustainable development of the Amazon and its surrounding regions – the interplay of changing climate, hydrology, and land use;
- Innovation and access to technologies for sustainable development.

The fellowship competition is open to advanced doctoral and postdoctoral students, and to mid-career professionals engaged in activities to facilitate the design, implementation, and evaluation of effective interventions that promote sustainable development. Stipends last 12 months and are worth up to US\$28,000, US\$35,000 and US\$55,000 depending on the fellowship.

**Closing date: 15 Jan 13**

**Deadline information:** This call is repeated once a year.

## MELLON POSTDOCTORAL FELLOWSHIPS IN ASIAN STUDIES

*Cornell University*

#### Description:

The Society for Humanities at Cornell University invites applications for the Mellon postdoctoral fellowship in Asian studies. This postdoctoral teaching research fellowship is for two years. Special preference is given to candidates who work at the intersection of media studies and literature.

Applicants must have received their PhD between September 2005 and June 2011. International applicants are eligible to apply.

Each fellowship offers a stipend of \$45,000 a year. While in residence at Cornell, Mellon fellows hold departmental affiliations and have limited teaching duties and the opportunity for scholarly work.

## ARCHBISHOP TUTU LEADERSHIP PROGRAMME

*African Leadership Institute*

#### Description:

The African Leadership Institute invites applications for the Archbishop Tutu

fellowship. Grants aim is to introduce young achievers who are likely to become leaders to key principles, requirements and challenges of

leadership and to provide a platform for them across the African continent. This five month part-time programme is run in partnership with Oxford University and African institutions. The programme combines theory and case studies with experiential learning, mentoring and tutoring, practical application and experience, and peer interaction and review. The focus is African leadership in a global context. The programme involves two nine-day workshops. The first workshop will be held in South Africa held from 24 April to 1 May 2010, while the second workshop will be held at Oxford University and in London at the beginning of September. The candidate's costs of travel, accommodation and tuition at the workshops will be covered.

Candidates must be aged between 25 and 39 and be currently living in Africa, temporarily placed abroad by their employer or completing further education abroad. They should be committed to living in Africa and to actively contributing to its long term success. Only nominated candidates will be considered for admission.

## **SARA ROBY FELLOWSHIP IN 20TH CENTURY AMERICAN REALISM**

*Smithsonian Institution*

### **Description:**

The Smithsonian American Art Museum and its Renwick Gallery invite applications for its Sara Roby fellowship in 20th century American realism. This fellowship is awarded to a scholar whose research topic matches the foundation's interest in American realism.

Predoctoral applicants must have completed coursework and preliminary examinations for a doctoral degree and be engaged in dissertation research. Postdoctoral fellowships are available to support specific research projects by scholars who hold the doctoral degree or equivalent. All qualified persons may apply.

The fellowship is residential and has a standard term of 12 months. The stipend for one-year predoctoral fellowships is US\$30,000 and US\$45,000 for postdoctoral applicants, plus research and travel allowances. Shorter terms will be considered, with the stipend prorated for the period of residency.

## JOSHUA C TAYLOR FELLOWSHIP

Smithsonian Institution

### Description:

The Smithsonian American Art Museum and its Renwick Gallery invite applications for its Joshua C Taylor fellowship. This residential fellowship supports full-time research in American art and visual culture. Three types of fellowships are available with the following specifications:

- Predoctoral fellowships support candidates who have completed coursework and preliminary examinations for their doctoral degree, and who are engaged in dissertation research. Stipends are worth US\$30,000 per year plus research and travel allowances;

- Postdoctoral fellowships support scholars with a doctoral degree or equivalent. Stipends are worth US\$45,000 per year plus research and travel allowances;
- Senior fellowships support scholars with a distinguished publication record and who have held their doctoral degree for more than seven years or who possess an equivalent record of professional accomplishment. Stipends are worth US\$45,000 per year plus research and travel allowances.

Each fellow is provided a carrel in the fellowship office, which is located across the street from the museum. Available research resources include a 180,000 volume library

specialising in American art, history and biography; the archives of American art; the graphics collections of the American Art Museum and NPG; as well as a variety of image collections and research databases.

The standard term of residency is 12 months but shorter terms will also be considered.

# AFRICA INITIATIVE GRADUATE RESEARCH GRANT

Centre for International Governance Innovation

## Description:

The Centre for International Governance Innovation invites applications for its Africa Initiative graduate research grant. These offer full-time graduate students the opportunity to conduct research in Canada for up to three

months in one of five thematic areas: conflict resolution, energy, food security, health, and migration, with special attention to the crosscutting issue of climate change. The objectives are to build capacity by giving bright, highly-motivated students an opportunity to

discover and impart new learning in a cross-cultural experience; and to support research by scholars in Africa and Canada on critically important areas to the continent. Eligibility is based on existing agreements between Canadian and African universities. PhD and master's students from the following African universities are eligible to conduct research at corresponding Canadian universities: University of Botswana; University of Cape Town; University of KwaZulu Natal; University of Ghana; University of Dar es Salaam; Universite Gaston Berger de Saint-Louis; Ecole de Gouvernance et d'Economie de Rabat; University of Nairobi; Cairo University; University of Benin; National University of Rwanda; University of Jos; Rhodes University; University of Pretoria; Mzuzu University; MISR International University; and Makerere University. The programme currently offers grants worth up to CAD\$10,000 to a maximum of 15 students per year.

## **S**MITHSONIAN BIODIVERSITY GENOMICS AND BIOINFORMATICS POSTDOCTORAL FELLOWSHIP

*Smithsonian Institution*

#### Description:

The Smithsonian Institution requests proposals for its Smithsonian biodiversity genomics and bioinformatics postdoctoral fellowship. This aims to promote collaborative research in biodiversity genomics and bioinformatics and build genomics expertise in the greater Smithsonian Institute research community. Proposed research should involve comparative genomic approaches, including phylogenomics, population genomics, metagenomics or transcriptomics; and have a component that involves significant bioinformatics analysis. Coordinated applications dealing with multiple genomic approaches and collaboration with other SI facilities are encouraged.

Applicants must have completed or be near completion of the PhD. All application materials must be submitted in English.

The institution aims to fill three or more fellowships in the area of biodiversity genomics, and is especially interested in recruiting a team of fellows to work together to advance bioinformatics. Applicants must propose to conduct research in-residence for a period of 12 to 24 months.

# **P**OSTDOCTORAL FELLOWSHIPS

*Forum Transregionale Studien*

## Description:

Forum Transregionale Studien, under its programme Europe in the Middle East - the Middle East in Europe, invites applications for postdoctoral fellowships. The EUME programme draws on the international expertise of scholars in and outside of Germany and is embedded in university and extra-university research institutions in Berlin. It supports historical-critical philology, engagement with the literatures of the Middle East and their histories, the social history of cities and the study of Middle Eastern political and philosophical thought (Christian, Jewish, Muslim, and secular) as central fields of research not only for area or cultural studies, but also for European intellectual history and other academic disciplines. The programme explores modernity as a historical space and conceptual frame.

The fellowships are intended primarily for scholars of art history, history, literature, museology, philology, political philosophy, political science, religion and sociology who want to carry out their research projects in connection with the EUME programme. Applicants should be at the postdoctoral level and should have obtained their doctorate within the last seven years. Fellows gain the opportunity to pursue research projects of their own choice within the framework of one of the programme's research fields and in relation to the overall programme. Successful applicants will be fellows of EUME at the Forum Transregionale Studien, and associate members of one of the associated university or non-university research institutes. Fellows are obliged to work in Berlin and to help shape the seminars and working discussions related to their research field. The working language of EUME is English.

The fellowships start on 1 October 2013 and end on 31 July 2014. Fellows will receive a monthly stipend of €2,500 plus supplement depending on their personal situation. Organisational

support regarding visa, insurances, housing, etc. will be provided.

## VISITING FACULTY FELLOWSHIP

*Vanderbilt University*

### Description:

Vanderbilt University's Robert Penn Warren Center for the Humanities invites applications for the visiting faculty fellows program. This year the program will be a year-long interdisciplinary faculty seminar focusing on the theme "The Age of Emancipation: Black Freedom in the Atlantic World". Applications are invited from scholars in all disciplines whose lively presence will help to focus the center's work and stimulate discussions. It is anticipated that the successful applicant will have completed the terminal degree in her/his field and will have a record of scholarly publication. The seminar meets weekly and will allow the visiting fellow ample time to pursue a major research project. The visiting fellow is provided with a spacious office within the center's own building. The fellowship pays a stipend of \$50,000, provides a research fund of \$3,000 for the academic year in residence and \$1,500 in moving expenses.

# MIND MASTER'S SCHOLARSHIPS

*Education, Audiovisual and Culture Executive Agency*

**Description:**

The Education, Audiovisual and Culture Executive Agency invites applications for the MIND industrial ecology master's scholarships. The objective of the MIND programme is, in keeping with the Europe 2020 strategy, to:

- Conduct industrial ecology analyses of complex sustainability problems;
- Design industrial ecology solutions for those problems;
- Develop implementation strategies for those solutions identified.

Applicants must hold a bachelor's degree in engineering, natural sciences, environmental sciences, economics or social sciences. The master's degree will last for two years and involve 15 third-country students and 10 EU students. Students must study at two or three of the participating universities, which are the universities of Graz, Leiden and Waeda, the Chalmers University of Technology in Sweden, Delft University of Technology, the Asian University of Technology in Thailand and Rochester Institute of Technology in the US.

Funding of up to €8,000 is available for travel and installation costs, up to €4,000 per semester for participation costs, and up to €1,000 as a monthly allowance.

## ERTEGUN SCHOLARSHIPS IN THE HUMANITIES

*University of Oxford*

### Description:

The University of Oxford invites applications for the Ertegun scholarships in the humanities. These master's scholarships bring together the world's top graduate students in the humanities in a setting that fosters dialogue

across academic disciplines, cultures and generations.

Applications may be made by scholars who pursue graduate level study and research in: classics, including classical archaeology; English language and literature; history,

including history of art and history of architecture; linguistics, philology and phonetics; medieval and modern languages, covering most European languages and their literature; music; Oriental studies, including Far and Middle Eastern studies and languages; theology. This scholarship may not be held in conjunction with any other award and current graduate students are not eligible to apply.

The scholarship covers university and college tuition fees, and a grant for living costs, currently approximately £13,590. Scholars will also be able to use Ertegun house, which provides space for each scholar for writing and research, as well as other opportunities. Awards are made for the full duration of a student's fee liability for the agreed one- or two-year full-time master's course. Approximately 12 scholarships will be awarded.

# **G RAWEMEYER AWARD FOR IDEAS IMPROVING WORLD ORDER**

*University of Louisville*

**Description:**

The University of Louisville invites nominations for the Grawemeyer award for ideas improving world order. This aims to stimulate the recognition, dissemination and critical analysis of outstanding proposals for improving world order. Submissions may address a wide range of global concerns, including:

- Foreign policy and its formation;
- The conduct of international relations or world politics;
- Global economic issues, such as world trade and investment;
- Resolution of regional, ethnic or racial conflicts;
- The proliferation of destructive technologies;
- Global cooperation on environmental protection or other important issues;
- International law and organisation;
- Any combination or particular aspects of these, or any other suitable idea which could at least incrementally lead to a more just and peaceful world order.

The ideas or achievements considered may be found in printed books and articles in scholarly or distinguished journals, and also in public speeches or other widely and publicly disseminated documents so long as they first appeared between January 2008 and December 2012.

Nominations are welcome from chairs of political science departments, professional associations of political scientists or related disciplines, publishers and editors of books and journals in political science and world affairs. Self-nominations are not allowed. Nominees may be individuals, government agencies, nonprofit groups or international organisations.

The award consists of a US\$100,000 prize.

The Brocher Foundation invites applications for residencies at its centre in Geneva. These enable researchers to stay at the centre for one to six months to start or complete a research project on ethical, legal and social implications of recent medical research and new medical technologies. Eligible disciplines include: bioethics, health anthropology, health economics, health governance, health law, health philosophy, health psychology, health sociology, medical ethics, history of medicine. A special emphasis is placed on projects addressing neuroscience and synthetic biology. Preference is given to collaborations with Swiss universities, European universities and non-governmental or international organisations, and researchers can collaborate with one or two other researchers on a project. Applications from low- or middle-income countries are highly encouraged. All successful applicants receive accommodation, an office, food and travel costs to Geneva. Junior visiting researchers, each of whom should be a PhD student, or have obtained their PhD in 2008 or later, may also apply for travel and local expenses in Geneva. ## A USTRALIAN LAUREATE FELLOWSHIPS

Australian Research Council

### Description:

The Australian Research Council invites applications for the Australian laureate fellowships. The scheme encourages researchers of international repute to conduct research of significant national economic, environmental, cultural and social benefit. The ARC particularly encourages proposals from women, early to mid-career researchers, and from researchers currently working overseas. Up to 17 fellowships may be awarded for funding commencing in 2012, with two of these allocated to exceptional female researchers, promoting women in research. Fellows duties include conducting world-class research, forging links among the international research community or industry and providing an excellent research training environment and mentoring to early-career researchers. Fellows commencing in 2012 will receive a salary supplement of \$105,782, plus 28 per cent on-costs, with a standard tenure of five years. In addition, ARC may provide project funding of up to \$300,000 per annum and additional funding to appoint up to two postdoctoral

research associates with a salary of \$27,652 per annum and up to two postgraduate researchers with a salary of \$69,949 per annum. This award is listed in the Australian Competitive Grants Register (ACGR) - research income Category 1.

## R ESEARCH GRANTS

*Foundation for Urban and Regional Studies*

#### Description:

The Foundation for Urban and Regional Studies invites applications for its research grants within the field of urban and regional studies. These promote urban and regional research, and within this field particularly encourage an understanding of the interconnection between social, economic and political processes, and of the broader causes and effects of these processes. This means that research examining policies critically and focusing on their unintended as well as intended consequences is more likely to be supported than research on managerially defined questions.

Applicants must be within the field of urban and regional studies. Grants may be held at any university. Only applicants who are nationals of countries listed in groups B and C of the World Bank classification will be eligible to apply.

Grants are usually worth up to £2,000 each and a limited number of higher-value grants may be awarded where this is justified.

## TECHNICAL FIELD AWARDS

Institute of Electrical and Electronics Engineers

#### Description:

The Institute of Electrical and Electronics Engineers invites nominations for its technical field awards. The following awards are available:

- The Cleo Brunetti award for outstanding contributions to miniaturization in the electronics arts;
- IEEE Biomedical Engineering Award;
- Components, packaging and manufacturing technology award for meritorious contributions to the advancement of components, electronic packaging or manufacturing technologies;
- Control systems award for outstanding contributions to control systems engineering, science or technology;
- Electromagnetics award for outstanding contributions to electromagnetics in theory, application or education;
- The James L Flanagan speech and audio processing award for outstanding contributions to the advancement of speech and/or audio signal processing;

- The Andrew S Grove award for outstanding contributions to solid-state devices and technology;
- The Leon K Kirchmayer graduate teaching award for inspirational teaching of graduate students in the THE fields of interest;
- The Herman Halperin electric transmission and distribution award for outstanding contributions to electric transmission and distribution;
- The Masaru Ibuka consumer electronics award for outstanding contributions in the field of consumer electronics technology;
- Internet award for exceptional contributions to the advancement of Internet technology for network architecture, mobility or end-use applications;
- The Reynold B Johnson data storage device technology award for outstanding contributions to the advancement of information storage with emphasis on technical contributions in computer data storage device technology;

- The Reynold B Johnson information storage systems award for outstanding contributions to information storage systems with emphasis on computer storage systems;
- The Richard Harold Kaufmann award for outstanding contributions in industrial systems engineering;
- The Joseph F Keithley award in instrumentation and measurement for outstanding contributions in electrical measurement;
- The Gustav Robert Kirchhoff award for outstanding contributions to the fundamentals of any aspect of electronic circuits and systems that has a long-term significance or impact;
- The Koji Kobayashi computers and communications award for outstanding contributions to the integration of computers and communications;
- The William E Newell power electronics award for outstanding contributions to the advancement of power electronics;
- The Daniel E Noble award for outstanding contributions to emerging technologies recognized within recent years;
- The Frederik Philips award for outstanding accomplishments in the management of research and development resulting in effective innovation in the electrical and electronics industry;
- Photonics award for outstanding achievements in photonics;
- The Emanuel R Piore award for outstanding contributions in the field of information processing in relation to computer science;
- The Judith A Resnik award for outstanding contributions to space engineering within the fields of interest of the the IEEE;
- Robotics and automation award for contributions in the field of robotics and automation;
- The Frank Rosenblatt award for outstanding contributions to the advancement of the design, practice, techniques, or theory in biologically and linguistically motivated computational paradigms, including but not limited to neural networks, connectionist systems, evolutionary computation, fuzzy systems, and hybrid intelligent systems in which these paradigms are contained;
- The David Sarnoff award for exceptional contributions to electronics;
- The Donald O Pederson award in solid-state circuits for exceptional contributions to the development and/or advancement of standards in electrical and electronics engineering;
- The Eric E Sumner award for outstanding contributions to communications technology;
- The Nikola Tesla award for outstanding contributions to the generation and utilization of electric power;
- The Kiyo Tomiyasu award for outstanding early to mid-career contributions to technologies holding the promise of innovative applications;
- Undergraduate teaching award for inspirational teaching of undergraduate students in the fields of interest of the IEEE;
- The Marie Skłodowska-Curie award for outstanding contributions to the field of nuclear and plasma sciences and engineering;
- IEEE innovation in society infrastructure award for significant technological achievements and contributions to the establishment, development and proliferation of innovative societal infrastructure systems through the application of information technology with an emphasis on distributed computing systems;
- The Charles Proteus Steinmetz award for exception contributions to the development or advancement of standards in electrical and electronics engineering;
- Transportation technologies award for advances within the fields of interest to

the IEEE as applied to transportation systems.

Any person may be nominated for an IEEE medal or award, regardless of nationality or IEEE membership.

## **JAMES W CAREY URBAN COMMUNICATION AWARD**

*International Communication Association*

### **Description:**

The International Communication Association invites nominations for the James W Carey urban communication award. This award supports communication research that enhances social interaction and civic engagement in an age of global communication.

The award encourages applied research on the role of city and community at a time when communication technology alters the parameters of the urban landscape. Priority will be given to projects which study places where traditional modes of communication are being juxtaposed with the new, including the

adoption of changes that may have a radical impact. Proposals from developing nations are encouraged. The prize includes a cash award worth between \$1,500 and \$3,000.

## **N**ETWORK FOR AFRICAN URBAN SOCIAL STUDIES

*Foundation for Urban and Regional Studies*

#### Description:

The Foundation for Urban and Regional Studies invites applications for its network for African urban social studies. This aims to fund networks of scholars to share and develop collaborative research on urban sociology in Africa, and to organise seminars, round tables and other scholarly activities. The foundation further wishes to support initiatives to encourage high-quality applications from young African scholars for PhD studentships and research grants.

African nationals under the age of 35 are eligible. Applicants should hold established academic posts in sub-Saharan African universities or research institutes, and should preferably be sociologists based in departments of sociology. The foundation will also consider

applications from social anthropologists, political scientists, geographers and those researching in urban studies, provided the main focus of their work deals with sociological issues.

Funding up to £3,000 per application will be considered; in exceptional case this could be higher. Awards will cover travel, subsistence and conference registration fees, and costs of organising and disseminating seminars and roundtables.

**Closing date:** 31 Jan 13

## I NTERNATIONAL FOCUS GROUPS

*International Union for Quaternary Research*

#### Description:

The International Union for Quaternary Research invites applications for its international focus groups. Groups are non-permanent collaborations designed to address a significant question that is central to the work of the five following sponsoring commissions:

- coastal and marine processes;
- palaeoclimate;
- human and biosphere;
- stratigraphy and chronology;
- terrestrial processes, deposits and history.

The IFG will normally last for one inter-congress period and should involve early-career or developing researchers in significant roles. Funds will be allocated on a yearly basis, subject to evaluation. An individual proposal for an IFG would typically be for funding worth between €5,000 and €8,000.

# **P**HD FELLOWSHIPS

*Boehringer Ingelheim Fund*

**Description:**

Boehringer Ingelheim Fund invites applications for its PhD fellowships. These support basic biomedical research conducted by scientists not older than 27 years of age in an internationally leading laboratory in Europe. The research should be aimed at elucidating basic biological phenomena of human life and acquiring new

scientific knowledge. Applicants will hold a diploma or equivalent degree and have passed their state examinations when applicable. At the deadline, applicants should not have worked on their project for longer than six months. Applicants should be European citizens working in Europe or overseas or non-European citizens pursuing their PhD project in

Europe. Scholarships are granted for at least two years, with the option of renewal for a further 12 months. The basic monthly grant is worth €1,550. In most countries scholars are paid an additional €150 per month to cover minor project-related costs such as books and travelling expenses and premiums for personal insurance. A separate country-related premium is added and spouse or child allowance may be available.

## LASKER AWARDS

*Albert and Mary Lasker Foundation*

### Description:

The Albert and Mary Lasker Foundation invites nominations for its medical research awards. These are awarded to scientists who have made significant contributions to the understanding, diagnosis, treatment, cure, and prevention of human disease. There are three categories of awards:

- the Albert Lasker basic medical research award honours scientists whose fundamental investigations have provided techniques, information or concepts that contribute to the elimination of major causes of disability and death;
- the Lasker-DeBakey clinical medical research award honours investigators whose contributions have led to the

improvement of the clinical treatment of patients;

- the Lasker-Bloomberg public service award honours men and women who have helped make possible the federal legislation and funding that supports research and who have created public communication, public health and advocacy programmes of major importance.

There are no nationality restrictions. Each award includes an honourarium.

# R ESEARCH FELLOWSHIPS

*Harry Ransom Humanities Research Center*

**Description:**

The Harry Ransom Humanities Research Center invites applications for its research fellowships. The fellowships enable scholars to pursue research projects in all areas of the humanities. Approximately 50 fellowships are awarded annually. Priority will be given to proposals that concentrate on the center's collections and that require substantial onsite use of them.

The center awards fellowships of one to three months, with funding at \$3,000 per month. Travel stipends worth \$1,200 to \$1,700 may be awarded to scholars with research projects that require less than one month's research at the center.

The fellowships available are as follows:

- the American Society for 18th century Studies: two fellowships, jointly sponsored with the Ransom Center, for literary, cultural or historical study. Applicants must be members of ASECS at the time of application;
- the British Studies fellowship for research in British literary, cultural, and historical subjects;
- the Cline fellowships for research on 19th or early 20th century British topics;
- the Robert De Niro endowment fund for film research, especially in the center's Robert De Niro collection;
- the Dorot Foundation fellowships in Jewish studies for research on Jewish authors and on relevant cultural topics requiring research in the center's collections. These fellowships may be

- extended to three months or, exceptionally, for longer periods;
- the David Douglas Duncan endowment for photojournalism for research in the center's photography collections;
- the TS Eliot editorial fellowship, jointly sponsored by the University of London Institute of English Studies and the Ransom Center, for scholars working on the TS Eliot editorial project. Applicants must be affiliated with the IES.
- the Filmscript Acquisitions Endowment for research in the Center's film collections;
- the Fleur Cowles fellowships: two are available for research on topics related to 20th century art, journalism, women's studies, and general literature and culture;
- the Edwin Gale fellowship for research on Jewish writers, photographers, artists, performers and the Jewish presence in culture as represented in the Ransom Center's collections, while providing affiliation with the Schusterman Center for Jewish Studies at the University of Texas at Austin;
- the Erle Stanley Gardner endowment for mystery studies supports research on topics related to mystery and suspense;
- the Hobby Family Foundation fellowship for research in general literary studies;
- the Alfred A and Blanche W Knopf fellowship for research in the areas of publishing and general literary studies, with special emphasis given to research concerning Knopf authors;
- Limited Editions Club for research in the center's rare book and print collections, with emphasis given to work with illustrated books;
- the Norman Mailer endowed fund for research related to Norman Mailer's writings, times and the archive;
- the Andrew W Mellon Foundation: a number of fellowships are available in general literary and cultural studies.

These fellowships may be extended to three months.

- the Marlene Nathan Meyerson photography fellowship for research in the center's photography collections;
- the Cora Maud Oneal fellowship for research in general literary studies;
- the Pforzheimer endowment: two fellowships are available for research in the Pforzheimer collection as well as in general Renaissance studies;
- the Warren Skaaren film research endowment supports research in the center's film collections;
- the CP Snow fellowship for research in general literary and cultural studies, with a special emphasis on the relationship of literature and science;
- the Weinstein memorial fellowship for research in 20th-century American literature;
- the Woodward and Bernstein endowment supports research on topics related to Watergate, the First Amendment and the press.

Six dissertation fellowships jointly sponsored by the Ransom Center and the University of Texas at Austin Office of Graduate Studies are designated for graduate students who are working on doctoral dissertations. Dissertation fellowship residencies must be taken up during the period from September 1, 2012 through August 31, 2013. There is not a specific required length of residency for dissertation fellowships.

Applicants must be postdoctoral or equivalent or have a substantial record of scholarly achievement. There are no nationality restrictions.

## IUPAC PRIZE FOR YOUNG CHEMISTS

*International Union of Pure and Applied Chemistry*

#### Description:

The International Union of Pure and Applied Chemistry invites applications for its IUPAC prize for young chemists. This prize is awarded to young scientists for graduate-level research work in the chemical sciences. Only work that was performed while the applicant was a graduate student will be recognised by the prize.

Applicants must have received their PhD or equivalent, or completed all PhD requirements including successful defence of the doctoral thesis, during the year 2012. There are no citizenship requirements although the PhD must have been completed in a member or associate member country of the IUPAC.

Each prize will consist of US\$1,000 cash and travel expenses to the next IUPAC congress.

## **I**ADR/COLGATE ORAL HEALTH RESEARCH AWARD

*International Association for Dental Research*

### **Description:**

The International Association for Dental Research invites nominations for its Colgate oral health research award. This award

recognises meritorious research by a member of the IADR oral health research group, with preference given to dental hygienists. Dental hygienist nominees must be graduates of an

accredited dental hygiene programme. Submissions must represent original research in the area of oral health. This includes a broad array of basic, clinical and applied studies related to strategies for the prevention of oral disease and promotion of wellness; outcomes of primary and secondary preventive care; interdisciplinary approaches to integrating oral health into general health; clinical efficacy of professional and personal oral hygiene measures; methods to improve health outcomes of compromised patients; the dental hygiene process of care; self-care strategies; disease-prevention and health promotion focused curricular models; science transfer methods; ethics and quality assurance; alternative patterns for practice; clinical decision-making; and issues related to the conduct of research.

A certificate of recognition and one cash award worth US\$2,000 will be given. This award is intended to provide travel and other support related to attending the IADR annual meeting and participating in the oral health research group activities.

## **C**HARLES BULLARD FELLOWSHIPS IN FOREST RESEARCH

*Harvard University*

### Description:

Harvard University invites applications for the Charles Bullard fellowships in forest research. This fellowship programme supports advanced research and study by individuals who show promise of making an important contribution, either as scholars or administrators, to forestry and forest-related subjects including biology, Earth sciences, economics, politics, administration, philosophy, humanities, the arts, or law.

Bullard fellowships are generally awarded to individuals in mid-career who have established themselves in public service, in academia, or in the private sector. For those in academic careers preference is ordinarily given to holders of doctoral degrees. This is not a postdoctoral position and recent PhD graduates are generally not appropriate candidates. The fellowship accepts five to seven recipients per year. The Bullard fellowship is a residential programme and fellows are expected to spend a substantial portion of their fellowship based at either Harvard Forest in Petersham, Massachusetts or at Harvard University in Cambridge, Massachusetts.

The fellowships carry stipends of up to \$40,000, or more if necessary, one return trip between the fellowship site location and the home base, and a \$500 supplies budget.

**Closing date:** 01 Feb 13

# R ESEARCH ASSOCIATESHIP PROGRAMS: FAA/CIVIL AEROSPACE MEDICAL INSTITUTE

National Research Council

**Description:** The National Research Council invites applications for its research associateship programs at the FAA/Civil Aerospace Medical Institute. The objectives of the programs are to provide postdoctoral scientists and engineers of unusual promise and ability with opportunities for research on problems, largely of their own choice, that are compatible with the interests of the sponsoring laboratories.

Awardees must hold a PhD, ScD, or other earned research doctoral degree recognized in US academic circles as equivalent to a PhD. Postdoctoral associates must have held the doctorate for under five years. Senior associates must have held the doctorate for five years or more or have equivalent research experience. Tenure ranges from three months to one year.

Opportunities are open to all US citizens and to citizens of other countries who have full command of the English language. The current annual stipend for a postdoctoral research associate is \$42,000 plus a travel allotment of \$2,000.

## NITA BORG MEMORIAL SCHOLARSHIP - EUROPE, THE MIDDLE EAST AND AFRICA

*Google*

### Description:

Google invites applications for the Anita Borg scholarship for students in Europe, the Middle East and Africa. This programme aims to encourage women to excel in computing and technology and become active role models and leaders. Applications are open to female students enrolled in a bachelor's, master's or a PhD programme in 2013-2014. Furthermore, candidates must:

- be enrolled at a university in Europe, the Middle East or Africa. Citizens, permanent residents, and international students are eligible to apply;
- be studying computer science, computer engineering, informatics, or a closely related technical field;
- maintain an excellent academic record.

Scholarship recipients will each receive a €7,000 (or equivalent) scholarship for the academic year.

**Closing date: 01 Feb 13**

# G RADUATE STUDENT FELLOWSHIPS

Society of Economic Geologists Foundation

## Description:

The Society of Economic Geologists Foundation invites applications for its graduate student fellowships. These one-year fellowships support students who intend to pursue a course of study in economic geology leading to a professional master's, MSc or PhD degree.

Students from throughout the world with an expressed interest in pursuing graduate studies in economic geology are encouraged to apply. Applicants must be SEG student members and have completed a BS or equivalent degree in geosciences or a related field. It is also required that applicants have been accepted, or are in the process of being accepted, as first-year graduate students at a recognised college or university offering a graduate programme leading to a professional master's, MSc or PhD in economic geology as it relates to the study of mineral and ore deposits, geochemistry or geophysics with applications to minerals exploration and mine geology. Alternatively, applications are also accepted from individuals currently enrolled as a full-time first-year students in graduate programmes that fit the foregoing description.

Fellowships range between US\$2,500 and US\$15,000 for a one-year period.

## BURT L NEWKIRK AWARD

*American Society of Mechanical Engineers*

### Description:

The American Society of Mechanical Engineers invites nominations for the Burt L Newkirk award. This award is given to an engineer who has made a notable contribution to the field of tribology in research or development as evidenced by important tribology publications. Tribology for this award is defined as pertaining to the science and technology associated with surfaces in contact and relative motion with each other. It covers all the fundamentals associated with the field of friction, lubrication and wear and embraces all the technological aspects of bearings, brakes, clutches and gears.

Candidates must be under the age of 40 on July 1 of the year in which the award is conferred, and must have been a society member for at least five years.

The award includes US\$1,000.

**Closing date:** 01 Feb 13

## **G**EORGE WESTINGHOUSE MEDALS

American Society of Mechanical Engineers

### **Description:**

The American Society of Mechanical Engineers invites nominations for the George Westinghouse medals. These medals recognise eminent achievement or distinguished service in the power field of mechanical engineering. Considering power in the broad sense, the basis of the awards includes contributions of use, application, design, development, research, and the organisation of such activities in the power field. The silver medal is bestowed upon engineers under the age of 45 on June 30 of the year in which the medal is awarded.

Both prizes include travel expenses to attend the meeting and cash awards of US\$1,500 for the gold medal and US\$1,000 for the silver medal.

## POSTDOCTORAL FELLOWSHIPS

*Canadian Institutes of Health Research*

### Description:

The Canadian Institutes of Health Research invites applications for their postdoctoral fellowship programme. Fellowships provide support for highly qualified candidates at the post-PhD or post-health-professional degree stages to add to their experience by engaging in health research either in Canada or abroad. For this competition, applications will be accepted in all areas of health research. It is anticipated that approximately CA\$21 million over five years will be available for this competition.

The maximum amount awarded for a single award is CA\$60,000 for up to five years. The value and duration of each fellowship is related to the major degree held, licensure, location of tenure and experience of the applicant. The research allowance is CA\$5,000 per year.

At the time of application, a candidate must hold, or be completing a PhD or a health-

professional degree or equivalent. The health-professional degree must be in a regulated health profession which requires at least a bachelor's degree to be eligible for licensure in Canada. For individuals that do not hold a health-professional degree, awards will take effect only after the recipient has completed all requirements of the PhD programme, including the oral examination. Candidates with more than three years of post-PhD research training by the competition deadline are not eligible to apply for this award. Candidates with a health-professional degree may propose a programme of research leading to a master's or PhD degree; however, registration in a graduate degree programme is not a requirement. These awards are normally held at Canadian institutions, however, Canadian citizens and permanent residents may apply for awards to be held outside Canada. Candidates who are neither Canadian citizens nor permanent residents may apply for awards to be held in Canada only.

**Closing date:** 01 Feb 13

**Deadline information:** Deadlines on: 1 February 2013, 1 October 2013.

## WILLIAM J PERRY FELLOWSHIP IN INTERNATIONAL SECURITY

#### Description:

Stanford University's Center for International Security and Cooperation invites applications for the William J Perry fellowship in international security. This enables early and mid-career researchers to spend an academic year at Stanford University carrying out policy-relevant research on international security issues. Researchers will address overlapping issues in nuclear weapons policy and nuclear proliferation, regional tensions, biosecurity, homeland security, and effective global engagement.

Applications are welcomed from academia, the public and private sectors, national laboratories and the military, either from the United States or abroad. A record of outstanding work in natural science, engineering or mathematics is required.

The fellowship includes health care and other benefits, and a stipend may be awarded.

### Description:

The Open Society Foundations invite applications for their fellowship. This supports individuals seeking innovative and unconventional approaches to enrich public understanding of fundamental open society challenges or to stimulate far-reaching and probing conversations within the open society foundations and in the world. A fellowship project might identify a problem that has not previously been recognised, develop new policy ideas to address familiar problems, or offer new advocacy strategy. Project themes should cut across at least two areas of interest, which include human rights, government transparency, access to information and to justice, and the promotion of civil society and social inclusion.

Proposals are accepted from individuals in a variety of fields from anywhere in the world. Applicants should possess a deep understanding of their chosen subject area and

a track record of professional accomplishment. Proficiency in spoken English is also required.

Most fellowships last one year although shorter and longer terms will also be considered. Full-time fellows based in the US will receive a stipend of US\$80,000 or US\$100,000 while appropriate adjustments will be made to part-time fellows or fellows based elsewhere. The programme anticipates that most fellows will spend a portion of their fellowship term at one of the organisation's main offices or at a regional foundation.

# FELLOWSHIPS ON CYBERSECURITY THREATS AND THE FUTURE OF THE INTERNET

*Stanford University*

## Description:

The Center for International Security and Cooperation at Stanford University invites applications for its fellowships on cybersecurity threats and the future of the internet. These residential fellowships support research on issues related to cybersecurity and the future of the internet. Research topics of interest include, but are not limited to:

- the organisation and effectiveness of cybersecurity efforts in the US and other advanced industrial countries;
- advanced persistent threats and cyberwarfare;
- privacy, security, and internet freedom;
- the use of information technologies by organised criminal networks and other non-state actors;
- rising powers and cybersecurity policy;
- organisational and legal issues raised by cybersecurity;
- problems of internet governance.

Applications are welcome from scholars at predoctoral or postdoctoral levels, or from professionals with experience in the subject area. Eligible applicants include social scientists, legal or policy experts, individuals with a strong science and technology background, as well as professionals who have worked on these issues and who have demonstrated capacity to do high-quality policy-relevant scholarship.

The fellowship is to result in a finished piece of academic writing, which may be a dissertation, dissertation chapters, an article, or a book manuscript. Successful fellows receive stipends in the range of approximately US\$25,000 to US\$65,000.

## PUBLICATION OF ENDURING QUALITY AWARD

*Agricultural and Applied Economics Association*

#### Description:

The Agricultural and Applied Economics Association invites nominations for its publication of enduring quality award. This is awarded to a publication that is regarded to have an enduring quality contribution to the professions in agricultural or applied economics.

The publication date of the nominated work must fall within the 15 year period ending 10 full calendar years prior to the year of recognition. Focus is on a specific publication by the authors, one of who was a member of the association at the time of publication, and not on the cumulative work of the authors. Submissions may be made by departments or other administrative units, by colleagues, and by the authors themselves. A maximum of one award is available per year.

## **S**TANTON NUCLEAR SECURITY FELLOWSHIPS

*Stanford University*

### Description:

The Center for International Security and Cooperation at Stanford University invites applications for its Stanton nuclear security fellowships. These offer engineers, scientists and social scientists an opportunity to conduct science- or social science-based research on issues related to nuclear security. Suitable topics include, but are not limited to:

- nuclear proliferation and non-proliferation;
- nuclear weapons, doctrine and policy planning;
- nuclear energy and its consequences;
- nuclear terrorism.

Fellowships are available to scholars with PhD or equivalent degrees and junior faculty from the United States and abroad. PhD candidates who have made substantial progress toward the completion of their dissertation may be considered if dissertation topic is in nuclear security.

## POSTDOCTORAL FELLOWSHIPS IN SOLAR PHYSICS

*Nordita - Nordic Institute for Theoretical Physics*

#### Description:

The Nordic Institute for Theoretical Physics invites applications for its postdoctoral fellowships in solar physics. These support postdoctorate research on local helioseismology and the formation of active regions and sunspots. It is expected that the successful candidate will work on forward modelling to infer seismic signatures from magnetic flux concentrations beneath the solar surface and on numerical models of radiation magnetohydrodynamics to explain the spontaneous formation of active regions and ultimately sunspots.

Applicants must have a doctorate degree or a foreign degree of corresponding quality. Precedence is given to applicants within five years of receiving their degree.

Fellowships include a salary in the range of SEK28,000 to SEK34,000 per month for a period of two years. In exceptional cases, fellowships may be prolonged by up to two years.

**Closing date: 01 Feb 13**

**Deadline information:** Applications are invited between 1 December 2012 and 1 February 2013.

## R ESEARCH FELLOWSHIPS *Cooley's Anemia Foundation*

### Description:

The Cooley's Anemia Foundation invites applications for its research fellowships. These fellowships are available to both postdoctoral fellows and junior faculty members interested in clinical or basic research related to thalassaemia. Applications should be focused on the understanding or treatment of the disease or a complication that is related to it. Applications studying globin gene regulation, globin gene transfer and expression, foetal haemoglobin production, haematopoietic stem cell research, bone marrow transplantation, iron chelation and iron overload, endocrine and cardiac disorders in thalassaemia and transfusion therapy and its complications.

Postdoctoral fellows should hold MD, PhD or equivalent degrees, and require sponsorship by a faculty mentor. Junior faculty applicants should have an MD, PhD or equivalent degree, and must have completed less than five years at the assistant professor level. Junior faculty members do require sponsors. Applicants who have not yet received R01 funding from the NIH will be given preference. National and international applicants are eligible. The research may not be conducted at a for profit laboratory.

Stipends will be US\$32,500 per year with the possibility of renewal for a second year.

## S CIENTIFIC PROGRAMME AWARDS *Institut Mittag-Leffler*

### Description:

Institut Mittag-Leffler invites proposals for scientific programmes. The institute runs research programmes in specialised areas of mathematics to which leading scientists are invited.

Programmes can run for the whole year or be of semester length. The recommended minimum length of stay is one month. Each scientific programme is led by an organising committee, which is expected to have at least one member from a Nordic country. The selection criteria for proposals are scientific strength and timeliness, and the degree to which the program would benefit mathematical research and postgraduate training in the Nordic countries.

## YOUNG INVESTIGATOR GRANTS *North American Spine Society*

### Description:

The North American Spine Society invites applications for its young investigator grants programme. The programme funds research that aims to improve quality spine care for patients and understand underlying disorders.

Applicants may be of any age, but must be within five years of completion of postdoctoral training at the time of application. Applicants do not need to be members of the society and international applicants are welcome to apply. Any qualified applicant in any specialty will be

considered and new investigators are encouraged to apply. NASS does not support research for independent manufacturers, industry development or personal financial gain.

Grants are awarded for one to two years and will usually not exceed US\$50,000 per year. One to two grants are awarded each year.

## MICHAEL FARADAY PRIZE

*Royal Society*

#### Description:

The Royal Society invites nominations for the Michael Faraday prize. This award is presented

to the scientist or engineer whose expertise in communicating scientific ideas in lay terms to UK audiences is exemplary. Preference will

normally be given to a practising scientist or engineer, although other individuals whose primary expertise is in writing, broadcasting or other relevant forms of communication may also be considered. The award is open to citizens of a Commonwealth country or Eire and to those who have been ordinarily resident and working in a Commonwealth country or Eire for at least three years immediately prior to nomination. If possible, the committee will award the prize to an early- to mid-career scientist. The winner will be required to deliver a lecture at the society. The prize is worth £2,500.

#### Description:

The Royal Society invites nominations for the Pfizer award. This award will be presented to an individual for an outstanding, innovative contribution to biological science, including basic medical science, which contributes significantly to capacity building in Africa. The grant is intended to be spent on a research

project, which must be based in Africa and which has the potential to continue after the 12 months of the grant. Nominees should be early-career researchers (usually having received their PhD within the last 10 to 15 years) who have not yet reached full professorship status. The project and nominee should be linked with an African centre of excellence, which would

normally be a university, or equivalent research centre. Nominations may be made by senior academics and members of the national academies of science. The award includes a grant of £60,000 for a research project and a prize of £5,000 for the recipient.

#### Description:

The Royal Society, in partnership with the Leverhulme Trust, invites applications for phase II of its Africa awards. The scheme aims to develop collaborative research projects between the UK and research institutions in either Ghana or Tanzania, and strengthen the research and training capacity of the African institution.

Applications are welcome in all areas of the life and physical sciences, including engineering, but are particularly encouraged from the following five national research priority areas in Ghana and Tanzania:

- agriculture, including animal health;
- water and sanitation;
- basic human health research, including medicinal chemistry;
- biodiversity, including medicinal plants and green chemistry;
- energy, including biofuels.

Proposals should include a PhD student, who must be based at the host institution in either country. Both the UK and Ghanaian or Tanzanian project leaders must be of at least postdoctoral status or equivalent and have a proven track record of training students at master's and doctoral level. The UK scientist must be resident in the UK and the Ghanaian or Tanzanian scientist resident in Ghana or Tanzania. UK scientists must hold a permanent or fixed-term contract for the duration of the award.

Both project leaders and their teams must be supported by a higher education institution in Ghana, Tanzania or the UK. Applications can also be accepted from not-for-profit NGOs and governmental research institutes in Ghana or Tanzania. Scientists in UK governmental research institutes may apply, but must explain why their institute is not funding the project.

Existing award holders whose project ends are eligible to apply for a continuation.

Funding is provided for three years and is worth up to £60,000 each year, covering research expenses, costs for mobility and equipment, and £10,000 for the PhD student bursary.

### Description:

The Royal Society invites submissions for the Winton prize for science books. This prize celebrates the best in popular science writing and rewards the books that best contribute to making science more accessible to public adult audiences. The subject matter of the books entered may include any aspect of popular science and technology, including biographies of scientists and technologists and histories of science and technology. Books should be stimulating, engaging, clear, accessible and high-quality, and should challenge people's views that science is too difficult, boring or inaccessible. Books must have been published for the first time in English between 1 January and 31 December 2011 inclusive. Entries must be available for purchase in the UK through a UK bookstore or through an online retailer at the time of entry. There is no restriction on the geographical location of the publisher or on the nationality, age or any other characteristic of the author or illustrator of any entry. Books must be submitted by the publisher. Prizes totalling £15,000 will be awarded. The authors of up to five shortlisted books will receive

£1,000 and the author of the winning book will receive £10,000.

## **FELLOWSHIPS ON HIV AND DRUG USE**

*International Aids Society*

### Description:

The International Aids Society, in collaboration with the National Institute on Drug Abuse, invites applications for the HIV and drug use fellowship. The focus of these fellowships is on research on HIV and drug use, with the goal of contributing to advances in the scientific understanding of drug use and HIV. All research projects focused on the interactions between HIV and drug abuse are eligible, including effects of drugs of abuse on HIV pathogenesis or disease progression, and treatment or prevention of HIV in drug-using populations. Research on the links between HIV and the use of illicit and non-illicit drugs is also eligible.

This programme consists of two awards:

- postdoctoral training. Applicants must be junior investigators with who have obtained a doctoral degree no more than six years before the time of application in the field of biological sciences, behavioural and social sciences, chemistry, engineering, mathematics, medicine, physics or public health. Funding is worth US\$75,000 for 18 months;
- professional development training. Applicants must be well-established

HIV researchers or drug use scientists who are not currently active in the field of HIV-related drug use research. Candidates should have a minimum of seven years' experience beyond postdoctoral level and have a documented scientific record that includes peer-reviewed publications. Funding is worth US\$75,000 over eight months.

Fellowships will be held at leading institutes in research in the HIV-related drug use field. Applicants must have an appropriate mentor who holds an established post for the duration of the fellowship and has a track record in research and training in HIV and drug use. While applications from across the globe are welcomed, scientists from low- and middle-income countries are strongly encouraged to submit applications. Applications will not be accepted from US candidates to undertake research within the US.

**Closing date: 10 Feb 13**

## JAPANESE AWARDS FOR THE MOST INNOVATIVE DEVELOPMENT PROJECTS

Global Development Network

### Description:

The Global Development Network invites applications for its Japanese awards for the most innovative development project. Funding enables development practitioners to scale up their work. Projects are not theme-based, but must contribute to sustainable development. The action may be implemented in Africa, Asia, the Middle East, Latin America, the Caribbean, the Pacific Islands or the transition economies of Eastern Europe and Central Asia, and must be managed by a non-governmental organisation headquartered in one of the above regions. Each project must have been implemented before 1 June 2010. The winning institution will receive \$30,000 and the second prize is worth \$5,000. Winners are also eligible

to compete for the Japan social development fund grant, worth up to \$200,000.

## ESSAY TOPIC PROPOSAL GRANTS *African Institute for Mathematical Sciences*

#### Description:

The African Institute for Mathematical Sciences invites applications for its essay topic proposal grants. These support lecturers and industry researchers wishing to propose a topic and supervise the writing of an essay at AIMS. The essay should be on a topic in the mathematical sciences and contain at least some parts that are formulated in terms of mathematics. Supervisors should be well versed in the proposed project field and should be prepared to guide students and clarify difficult concepts. The resulting essay should be of a publishable or master's thesis standard. Each applicant will be responsible for a maximum of three students. Those whose proposals are chosen by a student, and who subsequently become

supervisors at AIMS, will receive an honorarium for the seven-week essay period.

## **COLGATE-PALMOLIVE AWARDS FOR STUDENT RESEARCH TRAINING IN ALTERNATIVE METHODS**

*Society of Toxicology*

**Description:**

The Society of Toxicology invites applications for the Colgate-Palmolive awards for student research training in alternative methods. These aim to enhance graduate student research training using in vitro methods or alternative techniques to reduce, replace or refine use of animals in toxicological research. The training may include use of in vitro and ex vivo procedures, non-mammalian animal models, computer modelling, and structure-activity relationships. Graduate students may propose to develop expertise in relevant methodologies at a laboratory away from their home institution; at a laboratory at their home institution that would not be available to them otherwise; or at approved workshops, symposia or continuing education programmes where hands-on training will be received. The training should help toxicology graduate students enhance their thesis or dissertation research.

Applicants must be enrolled in PhD or MS study in the discipline of toxicology and be student members or pending student members of the SOT at the application deadline.

Two awards, worth US\$3,750 each, are annually available.

**Closing date:** 15 Feb 13

## **I**CTP-IAEA SANDWICH TRAINING EDUCATIONAL PROGRAMME

*Abdus Salam International Centre for Theoretical Physics*

**Description:**

The Abdus Salam International Centre for Theoretical Physics, in partnership with the International Atomic Energy Agency, invites applications for its sandwich training educational programme. This programme offers fellowship opportunities to PhD students

from developing countries in the fields of physics and mathematics. The programme supports research in the following fields:

- atomic and nuclear physics;
- nuclear, isotope and laser techniques applied to human health, agriculture,

- biotechnology and biophotonics, and water resources and environmental studies;
- synchrotron radiation and applications;
  - medical radiation physics;
  - condensed matter and statistical physics;
  - high energy physics;
  - mathematics;
  - earth system physics;
  - applied physics, including micro- and nanoelectronics, fluid dynamics and dense plasma source physics.

Training and research will take place in an institution located in the Trieste area or at the IAEA laboratories of Seibersdorf, Vienna and the marine laboratory in Monaco.

Students from developing countries who are enrolled in a PhD programme at their home university may apply. Women scientists are particularly encouraged to apply. Fellows will spend at least three months at the host institute during the first year. Fellowships are renewable for up to two additional successive years. Fellowships include a monthly stipend of €1,400 during each stay at the host institute, as well as travel expenses and medical insurance.

## CLIMATE CHANGE AND AFRICAN POLITICAL STABILITY PRE-DOCTORAL FELLOWSHIPS

*University of Texas at Austin*

**Description:**

The University of Texas at Austin invites applications for its pre-doctoral fellowships on climate change and African political stability. These aim to support the development of the next generation of researchers and thought leaders on the topic of climate change and political stability in Africa. Fellowships will support research in all disciplines, including the social and natural sciences, related to climate change, political stability and security in Africa. Registered PhD students from anywhere in the world are eligible to apply. These fellowships are designed for advanced PhD students, with preference given to those who have made substantial progress towards the completion of their dissertation. Ideally, fellows will complete their dissertation during the fellowship. Fellowships are tenable for one academic year, beginning in September 2013, and include round-trip air travel and a nine-month stipend of US\$24,000.

## **E**ARLY CAREER AWARDS *Thrasher Research Fund*

#### **Description:**

The Thrasher Research Fund invites applications for its early career awards. These aim to help new researchers gain a foothold in the area of child health by encouraging them to develop medical research in the field. The programme is open to a variety of research topics important to children's health.

Applicants must show great potential to impact the field of children's health through medical research and may be either:

- physicians enrolled in a residency or a fellowship training programme, or who have completed that programme one year prior to applying for the award;
- postdoctoral researchers, who have completed a doctoral level degree no more than three years prior to applying for the award.

There are no restrictions with regard to citizenship and the fund is open to applications from institutions around the world.

Funding of up to US\$25,000 is available for direct costs for a maximum duration of two years. The applicant may seek additional indirect cost funding of up to seven per cent. Applicants may budget up to US\$12,500 for salary of the new researcher, and up to US\$2,000 for travel associated with conference travel.

## **HAYMAN PRIZE FOR PUBLISHED WORK PERTAINING TO TRAUMATISED CHILDREN AND ADULTS**

*International Psychoanalytical Association*

**Description:**

The International Psychoanalytical Association invites submissions for the Hayman prize for published work pertaining to traumatised children and adults. This is presented to the author or authors of the best paper on the effects of the Holocaust on children who were interned in the camps and on those children's children, published or accepted for publication in a book or recognised journal in the two years preceding the association's biennial congress. The study of the nature and characteristics of massive trauma to children, of the influence upon their development and functioning, and on succeeding generations of their children, should be the central theme of the work. As a preference, studies should focus on the subject population directly related to the Holocaust or should apply the understanding derived from

holocaust studies to the effects of massive trauma suffered by children living under repressive regimes elsewhere. Submissions may be made by IPA members and candidates, as well as by non-members. Submissions will be accepted in English, French, German or Spanish. The prize is worth US\$4,000.

# **G**RAND HAMDAN INTERNATIONAL AWARD

*Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences*

#### **Description:**

The Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences invites nominations for the Grand Hamdan international award. The award not only recognises quality but also dedication to the alleviation of the sufferings of humanity through research and exemplary service. The major deciding factor will be a research breakthrough in the subject selected for the award, having the potential to have a major impact on healthcare delivery. These could be through the invention of novel surgical equipment or technique, the discovery of a new mode of therapy or new drugs that lead to a decrease in mortality or morbidity related to a particular surgical procedure or disease. Universities, research centres, science institutions and individual physicians and scientists are eligible to nominate for this award. In 2012, the award is given for research in the field of neonatal medicine and is worth \$68,000.

# **P**OSTDOCTORAL PROGRAMME

International Institute for Applied Systems Analysis

**Description:**

The International Institute for Applied Systems Analysis invites applications to its postdoctoral programme. The aim of this programme is to encourage and promote the development of young researchers and offer them the opportunity to further their careers by gaining hands-on professional research experience in a highly international scientific environment. Applicants should develop and submit a research proposal that interfaces their own research agenda with the research agenda of the institute. IIASA conducts policy research along the following themes within the context of global change:

- energy and climate change;
- food and water;
- poverty and equity.

Applicants should have a PhD at the time of appointment and a proven record of research accomplishments. Scholarships are tenable for up to two years and include an allowance for relocation to and from Laxenburg, limited support for business travel and an internationally competitive salary commensurate with experience and qualifications.

## VISITING RESEARCH FELLOWSHIPS

*University of Edinburgh*

**Description:**

The Institute for Advanced Studies in the Humanities at the University of Edinburgh invites applications for its visiting research fellowships. Fellowships are tenable for between two and six months in the period from June 2013 to September 2015. There is no limitation on the area of research within the humanities and social sciences but priority is given to those whose work falls within the scope of one of the institute's current research strands:

- Enlightenment;
- theory, practice and performance;
- the university and the world – in 2013 this strand will focus on the academic and the civic;
- the human and the environment – in 2013 this strand will focus on atmospheres and atmospherics.

Interdepartmental and interdisciplinary study is encouraged. Candidates should hold a doctorate or equivalent professional qualification. Consideration will be given to the academic record and the publications of all applicants and their capacity to disseminate their views within a community of like-minded people. Candidates who can provide evidence of any previous contact with researchers at the University of Edinburgh and of proposed collaboration during the fellowship will be at an advantage. Preference may be given to

applicants who have not previously held a fellowship at the institute or an equivalent institution. Fellows are expected to be resident in Edinburgh throughout the tenure of the fellowship. Fellows are allocated a private office in the institute with all the usual research facilities and are expected to play a full part in the activities of the institute.

# **M**RC/DFID AFRICAN RESEARCH LEADER SCHEME

Medical Research Council

**Description:**

The Medical Research Council and the Department for International Development invite applications for their African research leader scheme. The scheme aims to strengthen research leadership and capacity across sub-Saharan Africa by attracting and retaining researchers of high ability and build on existing strong research partnerships between African and UK research organisations.

The scheme is offered to candidates employed by African government institutions and well-established non-profit institutions in sub-Saharan Africa, such as universities, medical or dental schools, and academic institutes. South African institutions are excluded from this call. The MRC units in the Gambia and Uganda are eligible to apply. Awards are only available to African-UK institutional partnerships, and the application should be submitted by the UK institution. The UK partner institution may be any UK institution eligible for MRC funding.

Researchers from sub-Saharan African countries, as well as African researchers working overseas who wish to return to the region, are eligible under this scheme. The candidate should hold an academic position in an African research institution, or make arrangements to obtain a tenured academic position in such an institution. They are expected to hold a PhD and have between one and five years' relevant postdoctoral research experience. The scheme is open to applicants working in all biomedical and health research areas, and priority will be given to applications that address key health problems relevant to the region. Applications from women are especially encouraged.

Awards are worth up to £750,000 for a period of up to five years. The majority of funding will go to the African institution, which will receive funding at 100 per cent of full economic costing. Any costs specifically for the UK institution will

be provided on the basis of 80 per cent FEC. Awards provide salary for the candidate and eligible research costs. The scheme offers the African research leader an opportunity to spend three months in a UK institution for further development and training.

## **T**RAVEL GRANTS *White House Historical Association*

### Description:

The White House Historical Association invites applications for its travel grants. The purpose is to defray travel and accommodation costs for scholars conducting research at the National Archives and Records Administration, Presidential Library System, Library of Congress, or other appropriate repository. The association wishes to encourage new scholarship on the history of the White House. Projects that make use of textual and non-textual records pertinent to the president, first family and subordinates while the president lives in the White House are considered. The

focus should be the White House, including life and work there, as well the physical structure. Topics would include:

- image of the White House;
- White House personnel;
- social and diplomatic functions;
- study of the structure and its contents;
- family life;
- communications.

Preference is given to those undertaking dissertation or post-doctoral research with plans for publication, but all proposals,

including graduate-level research and independent projects, will be considered.

Grants are worth up to \$2,000.

## **I**NTERMEDIATE FELLOWSHIPS IN PUBLIC HEALTH AND TROPICAL MEDICINE

Wellcome Trust

### Description:

The Wellcome Trust invites applications for its intermediate fellowships in public health and tropical medicine. These enable high-calibre, mid-career researchers from low- and middle-income countries to establish an independent research programme. Research projects must be in the area of public health or tropical medicine, aimed at understanding and controlling human and animal diseases of local, national or global health importance. This can include laboratory-based molecular analysis of field or clinical samples, but projects focused solely on in vitro or animal model studies will not normally be considered under this scheme.

Applicants must be nationals or legal residents of a low- and middle-income country and should be graduates in a subject relevant to

public health or tropical medicines with a PhD, or medical graduates with a higher qualification equivalent to membership of the UK Royal Colleges of Physicians or recognised as specialists within a relevant research area. Three to six years' postdoctoral or research experience is required.

Fellows must be based at an eligible sponsoring institution that will administer the fellowship, and must have an appropriate sponsor who holds an established post for the duration of the award.

Fellowships last for up to five years and include basic salary, research expenses, training costs, funding allowance and travel to meetings. Research-dedicated costs may be up to £60,000 per year.

**Closing date:** 01 Mar 13

**Deadline information:** Preliminary applications due 28 September 2012 and 1 March 2013; invited full applications 7 December 2012 and 21 May 2013. This call is repeated 2 times a year.

## ETHICS AND SOCIETY DOCTORAL STUDENTSHIPS

Wellcome Trust

### Description:

The Wellcome Trust invites applications for its ethics and society doctoral studentships. These enable scholars to undertake basic training in research and methods on a subject within the remit of the international ethics programme leading to a doctoral degree at a university in the UK, the Republic of Ireland, or a low- or middle-income country.

Strong preference is given to applicants intending to make a long-term academic career in the subject or area. Applicants would normally be expected to hold a master's degree

or equivalent in a subject relevant to the aims of the ethics and society programme.

Studentships are for a period of up to three years and cover the student's stipend, university and college fees, travel, equipment and research expenses. Fees at the overseas rate will only be considered for applicants who are from low- or middle-income countries.

## TRAINING FELLOWSHIPS IN PUBLIC HEALTH AND TROPICAL MEDICINE

Wellcome Trust

### Description:

The Wellcome Trust invites applications for its training fellowships in public health and tropical medicine. These provide researchers who are at an early stage in the establishment of their research careers with opportunities for research experience and high-quality research training relevant to health in low- and middle-income countries. Research projects must be in the area of public health or tropical medicine, aimed at understanding and controlling human and animal diseases of local, national or global health importance. This can include laboratory-based molecular analysis of field or clinical samples, but projects focused solely on in vitro or animal model studies will not normally be considered under this scheme.

Applicants must be nationals or legal residents of a low- and middle-income country and should be graduates in a subject relevant to

public health or tropical medicine with a PhD and no more than three years' postdoctoral experience, or medical graduates with a higher qualification equivalent to membership of the UK Royal Colleges of Physicians and some initial research experience. Applicants may also apply if they do not have a PhD but have a clinical, basic or master's degree and some initial research experience, with the expectation that they will register for a PhD.

Fellows must be based at an eligible sponsoring institution that will administer the fellowship, and must have an appropriate sponsor who holds an established post for the duration of the award.

The fellowship is normally for three years, but may be for up to four years for those who wish to undertake a relevant master's training or diploma course, and includes a salary, research

expenses, training costs, a funding allowance and travel to meetings. Research-dedicated costs may be up to £30,000 per year.

#### Description:

The Institute of Advanced Studies at the United Nations University invites applications for its PhD fellowships. These fellowships are available for candidates from educational institutions around the world who would benefit from a stay of 12 months at UNU-IAS. Applicants must be at the dissertation writing stage of their PhD with a research proposal accepted by the candidate's university and able

to make use of the UNU-IAS facilities in Yokohama to carry out their research. Research topics should relate clearly to one of the following current research areas of the UNU-IAS:

- science and technology for sustainable societies;
- sustainable urban futures;
- biodiplomacy;

- sustainable development governance;
- traditional knowledge;
- marine/coastal governance and urban biodiversity.

The fellowship provides a monthly stipend of ¥260,000, from which a monthly usage charge for accommodation is deducted. A one off allowance of ¥80,000 will be granted to each fellow for adjustment expenses and incidental costs. Fellows will also receive a return air ticket. Applicants from developing countries and women are particularly encouraged to apply.

## **L ANDIS YOUNG MEMBER ENGINEERING ACHIEVEMENT AWARD**

American Nuclear Society

### Description:

The American Nuclear Society invites applications for its Landis young member engineering achievement award. This award was established to recognize outstanding achievement in which engineering knowledge has been effectively applied to yield an

engineering concept, design, safety improvement, method of analysis or product utilized in nuclear power research and development or commercial application.

The award is given to an individual who has made significant technical contributions in any

one of the engineering disciplines served by ANS. The attainment can be in the form of a new principle, concept, design, method of analysis, product emanating from research or development, or from effective application of engineering knowledge to yield a commercial service or product needed in the nuclear energy enterprise. Management contributions are not considered in the review and selection process. Emphasis is placed on achievement demonstrating a high degree of technical merit and ingenuity.

The candidate must be an ANS member and less than 40 years of age at the time of nomination. An engraved plaque and a \$2,000 monetary award are given.

## I SID SCIENTIFIC EXCHANGE FELLOWSHIP PROGRAMME

*International Society for Infectious Diseases*

#### Description:

The International Society for Infectious Diseases invites applications for its scientific exchange fellowship programme. The aim of this programme is to promote collaboration among researchers in different countries by enabling infectious disease researchers in the formative stage of their career to extend their research experience in institutions outside of their regions.

These awards are not restricted to physicians and are intended to support young scientists from developing countries in updating their knowledge of new, relevant laboratory techniques or in learning specific skills and techniques. Proposals that enhance the transfer

of technologies to geographical areas where they are particularly needed will be favoured. Applications are welcome from investigators under 40 years of age who are already working in a research area, but have not had the opportunity to work or to study outside their countries or regions.

Funding of up to US\$7,500 will be provided for a maximum period of three months.

## **H**ICKOK-RADFORD FUND *Society of Economic Geologists Foundation*

#### Description:

The Society of Economic Geologists Foundation invites applications for its Hickok-Radford fund. This supports field-based research projects and directly related laboratory studies as applied to metallic mineral deposits. Projects located in regions north of latitude 60 north, at very high elevations elsewhere, and at extreme southern latitudes are given preference.

Only graduate student research projects that lead to master's or doctoral degrees, or exceptional BS honours or BS Titulo projects will be funded. Students in mineral resource study programmes throughout the world are eligible and preference is given to SEG student members.

Grants typically range between US\$1,000 and US\$5,000 and support a one-year period.

**Closing date: 01 Mar 13**

**Deadline information:** This call is repeated once a year.

**Posted date:** 13 Nov 12

**Award type:** Financial aid for postgraduate students, Predoctoral fellowships, Directed grants for individual investigators

**Award amount max:** \$5,000

**Award amount min:** \$1,000

## VISITING GRANTS

*Netherlands Institute for Advanced Study in the Humanities and Social Sciences (NIAS)*

### Description:

The Netherlands Institute for Advanced Study in the Humanities and Social Sciences invites applications for its visiting grants. These grants are open to non-EU East-European and African researchers, enabling them to conduct research at the NIAS for three months. Applicants must be:

- in possession of a PhD degree;
- not older than 45 years of age;
- employed at a university or research institute;

The grants are intended for junior scholars from the humanities and social sciences. For this call, projects related to the following topics are especially welcomed:

- cultural heritage and computational humanities;
- brain and cognition;

# **G**OLESTAN FELLOWSHIP

*Netherlands Institute for Advanced Study in the Humanities and Social Sciences (NIAS)*

#### **Description:**

The Netherlands Institute for Advanced Study in the Humanities and Social Sciences invites applications for its Golestan fellowships. This supports non-Dutch scholars engaged in fundamental research in the medical or biological sciences. The applicant must have a specialisation which would make it profitable for them to work in an international setting and be in daily contact with scholars who carry out advanced research in the humanities and social sciences. Each applicant must hold a PhD and must have already made a significant contribution to their field of research and preferably be between 35 and 55 years of age. Where at all possible, Golestan fellowships will be granted alternately to a Swiss and non-Swiss researcher. The fellowship consists of a stipend set by the rector of NIAS, depending on individual circumstances, with a maximum of €4,300 per month. Unaccompanied fellows will receive free housing and fellows who bring their partner or family are entitled to housing at a subsidised rent. The fellowship is for a full academic year, running from 1 September to 30 June or for one semester of five months.

## **G**RADUATE ENGINEER TRAINING SCHEME *Cern (European Organization for Nuclear Research)*

#### Description:

Cern, the European Organization for Nuclear Research, invites applications for its graduate engineering training scheme. This offers an opportunity for training and work experience in engineering fields. Applications are accepted from researchers from Cern member states, but a limited number of positions in the research sector are also available for scientists from non-member states. Applicants must hold a university degree, BSc level or above, or a technical engineering qualification. Recent graduates at bachelor level should not have more than four years of relevant professional experience, whereas candidates with an MSc should have no more than 10 years of professional experience. Each position is granted initially for one year and normally extended for a second year. Extensions for all or part of a third year are granted only in exceptional circumstances. Stipends are calculated individually. Health insurance costs, and travel expenses for fellows and their family, are covered. An installation grant, family allowance and child allowance can also be awarded. Ref. AFC-2012-2/FELL.

# **G**LOBAL SOUTH SCHOLARS IN RESIDENCE

*Graduate Institute of International and Development Studies*

**Description:**

The Graduate Institute of International and Development Studies invites applications to its global south scholars in residence programme. This programme enables outstanding young professors from universities in developing and emerging countries to spend one semester at the institute to pursue advanced research in areas bridging the fields of international and development studies. The programme supports research in the areas of international affairs; development studies; development economics; sociology and anthropology of development; international economics; international relations; international law; international history and politics. Special consideration will be given to applicants with an interest in international governance or research on international organisations in Geneva. Scholars will have the opportunity to:

- update and strengthen the curriculum of their course;
- further a personal research project;
- participate in teaching courses;
- interact with the international community of the institute.

Applicants should demonstrate how their stay will contribute to their academic career and home institution. Applicants must hold a PhD and have a full-time tenure-track or tenured position in an academic institution in Africa, Asia or Latin America. Where the quality of applicants is equal, selection may be guided by an interest in promoting gender and regional diversity. Scholars will be provided with a work space and access to the institute's library and IT facilities. Scholars will receive a monthly stipend and the institute will cover the costs of travel, visas and accommodation.

## SCHOLAR AWARDS IN COMPLEX SYSTEMS SCIENCE

*James S McDonnell Foundation*

**Description:**

The James S McDonnell Foundation invites applications for its scholar awards in complex systems under its 21st century science initiative. The aim of this program is to support research with a high probability of generating new

knowledge and insights. Proposals are solicited in the area of complex systems. The complex systems program supports scholarship and research directed toward the development of theoretical and mathematical tools that can be applied to the study of complex, adaptive,

nonlinear systems. It is anticipated that research funded in this program will address issues in fields such as biology, biodiversity, climate, demography, epidemiology, technological change, economic development, governance, or computation.

Awards of up to \$450,000 will be available for projects lasting between three and six years. Nominees must have completed all doctoral, postdoctoral, or fellowship training and hold an independent research position. Nominees in the earlier career stages are encouraged. Foreign and domestic not-for-profit institutions may apply.

## Elliott P Skinner Book Award

Association for Africanist Anthropology

### Description:

The Association for Africanist Anthropology invites nominations for the Elliott P Skinner book award. The award is presented annually for a book which best furthers both the global community of Africanist scholars and the wider interests of the African continent as exemplified in the work of Elliott P Skinner. Contributions from all sub-fields of anthropology are welcome, with special consideration given to

works drawing upon extensive research in the field or those advancing new methodologies for fieldwork in Africa.

The book must not have been published earlier than 2006, and all award recipients must be members of the association. The award consists of a \$1,000 prize.

## R ESEARCH FELLOW

Society for Pediatric Radiology Research and Education Foundation

#### Description:

The Society for Pediatric Radiology Research and Education Foundation invites applications for its research fellow program. The aim of this program is to provide young investigators not yet professionally established in the radiologic sciences with an opportunity to gain further insight into scientific investigation and to develop competence in research techniques and methods. The grant can be used to fund protected time for a one or two-year fellowship, or as a transition-to-faculty award to buy additional time within the first five years of faculty appointment.

Applications are welcome from individuals who hold a full-time position in an educational institution. Applicants must be in a department of diagnostic radiology, radiation oncology or nuclear medicine and have completed all advanced training. The award is limited to members in fellowship or the first five years of their first faculty appointment.

The award provides \$30,000 salary support for one year.

## I NTERNATIONAL AWARDS *Lady Tata Memorial Trust*

#### Description:

The Lady Tata Memorial Trust invites applications for its international awards for research in leukaemia. These support leukaemia research, restricted to studies of the leukaemogenic agents, the epidemiology, pathogenesis, immunology and genetic basis of leukaemia. Awards are open to qualified investigators of any nationality. Priority will be given to those intending to move to other centres with a view to establishing scientific

collaboration between laboratories. In addition, one grant of a studentship for a student entering an MPhil or PhD programme is available. Awards are tenable for one year. On an exceptional basis, an award for a second year may be made.

Awards are usually between £25,000 and £35,000 per annum.

In addition, one or more MPhil or PhD studentships may be granted, normally for two years with renewal for a third year being considered on the basis of the strength of the 18-month progress report.

# S HORT-TERM FELLOWSHIPS

Smithsonian Institution

## Description:

The Smithsonian Tropical Research Institute invites applications for its short-term fellowships. Funding enables graduate students, and occasionally undergraduate students, to carry out short-term projects in the tropics in areas of STRI research, under the supervision of STRI staff scientists. Proposals for smaller projects that are part of a larger thesis or dissertation are encouraged, in which case the specific proposal should briefly sketch how the research project fits into the broader study. Projects may last for up to three months. Fellowships provide US\$800 per month in living expenses while at STRI, a research allowance worth a maximum of US\$2,000 and round-trip coach airfare.

**Closing date:** 15 Mar 13

# MOREMI LEADERSHIP EMPOWERMENT AND DEVELOPMENT FELLOWS PROGRAMME

*Moremi Initiative*

## Description:

The Moremi Initiative invites applications for the Moremi leadership empowerment and development fellows programme. The MILEAD fellowship is a one-year leadership development programme that develops young women's transformational leadership skills to help them tackle issues affecting women in their communities and in Africa as a whole. The programme includes a three-week summer institute, quarterly online seminars, informal networking, mentoring, community leadership projects and exchange programmes with other professionals. Fellowships will be awarded to 25 young women with exceptional qualities who have exhibited leadership potential in their community, organisation or profession. Applications are welcome from African women between 19 and 25 years of age, living in any part of Africa and the Diaspora with a commitment to fostering the growth and development of other young women. Applicants must demonstrate high academic potential and be able to communicate in English. Selected candidates may remain full-time students or work full-time for the programme duration, except during a full-time three-week residential summer institute. The curriculum also involves approximately 35 days of face-to-face and online training, plus time allocated to mentoring and community service projects in the applicant's home country or country of residence. A limited number of scholarships are available to cover meals, travel and accommodation costs for the duration of the summer institute.

## VISITING SENIOR FELLOWSHIP PROGRAM

National Gallery of Art

#### Description:

The Center for Advanced Study in the Visual Arts, a part of the National Gallery of Art, announces its program for the Paul Mellon and Ailsa Mellon Bruce visiting senior fellowships. Fellowships are for full time research, and scholars are expected to reside in Washington and to participate in the activities of the center throughout the fellowship period. Lectures, colloquia, and informal discussions complement the fellowship program.

Applications will be considered for study in the history, theory and criticism of the visual arts, including painting, sculpture, architecture, landscape architecture, urbanism, prints and drawings, film, photography, decorative arts, industrial design, and other arts, of any geographical area and of any period. Applications are also solicited from scholars in other disciplines whose work examines artifacts or has implications for the analysis and criticism of physical form.

Fellowships are intended for those who have held a PhD for five years or more or who possess an equivalent record of professional accomplishment at the time of application. Fellowships are awarded without regard to the age or nationality of applicants.

There are up to 12 short-term fellowships lasting up to 60 days. Fellows receive a stipend that includes round-trip travel and local expenses. Stipends for a two-month fellowship range from \$6,000 to \$8,000, depending on relocation requirements. Fellows also receive allowances for photography.

## Louis and Artur Lucian Award *McGill University*

### Description:

The committee of the McGill University Faculty of Medicine invites nominations for the Louis and Artur Lucian award for research in circulatory diseases. The award is to honour outstanding research in the field of circulatory diseases by a scientific investigator or group of investigators whose contribution to knowledge in this field is deemed worthy of special recognition. It is hoped that through this award, collaborative research in the field of circulatory diseases can be established between McGill and research centres elsewhere.

Nominations are invited from all researchers with no distinction as to geographical location or nationality. The recipient will be invited to visit McGill university for a minimum one- or two-week period, during which they should deliver a formal Lucian Lecture, have interchanges with the local research community, and possibly undertake a short research collaboration in the field of circulatory diseases. # **T**RANSLATIONAL CANCER RESEARCH PRIZE

Cancer Research UK

## Description:

Cancer Research UK invites nominations for its translational cancer research prize. This recognises an outstanding translational research team that has made seminal cancer research discoveries at the cutting edge of scientific novelty and that have had significant impact on the continuing efforts to prevent, diagnose and cure cancer.

The prize-winning team is expected to be multidisciplinary, and comprise both clinical and non-clinical members. The team may also include principal investigators and non-principal investigators. Candidacy is open to all cancer researchers affiliated with any institution anywhere in the world, whether academia, industry or government or a consortium of these. Team members do not necessarily have to come from the same country or belong to the same institution but a significant proportion of the work that is being honoured must have been carried out in the UK.

The team will receive an honorarium of £25,000 and free attendance at the NCRI annual conference for up to five team members.

## **I**NNOVATION RESEARCH INCENTIVES SCHEME VICI AWARDS

Netherlands Organisation for Scientific Research - NWO

### Description:

The Netherlands Organisation for Scientific Research (NWO) invites applications for its innovation research incentives scheme vici awards. These grants are for excellent senior researchers who have shown that they have the ability to successfully develop their own innovative lines of research and to act as coaches for young researchers.

Vici candidates can submit proposals in the period beginning eight years and ending 15 years after they received their doctorates, calculated from the date on which the doctorate was formally awarded to the deadline for the

submission of pre-proposals in the relevant round.

Applications may be submitted by candidates with or without a permanent contract of employment, irrespective of geographical origin. Appointments must be realised at one of the prospective host research institutions based in the Netherlands. The annual budget for veni, vidi and vici awards is €150 million. An applicant for a vici grant may be funded with up to €1.5m over a period of five years. All applications must be submitted in English.

# FERNAND BRAUDEL SENIOR FELLOWSHIPS

*European University Institute*

---

## Description:

The European University Institute invites applications for the Fernand Braudel senior fellowships. These enable established academics with international reputations to conduct research in one of the institute's four departments:

- department of economics;
- department of law;
- department of history and civilisation;
- department of political and social sciences.

The departments invite fellows to participate in the activities that they organise. Fellows may be associated with one of the research projects underway at the institute, and may be involved in teaching and thesis supervision tasks of the institute's professors. The fellowships are open to internationally established academics of all nationalities. Former professors or fellows of the institute are eligible beyond three years' expiry of their last contract. Fellows should speak English and any other language relevant to their proposed research. The monthly grant is €3,000. Fellowships last between three and 10 months.

**Closing date:** 30 Mar 13

**Deadline information:** The Department of Political and Social Sciences does not consider applications for the deadline 30 March 2013.

# **R**OTHAMSTED INTERNATIONAL FELLOWSHIP SCHEME

*Rothamsted International*

**Description:**

Rothamsted International invites applications to its fellowship scheme. This scheme is designed to promote the exchange of vital scientific skills and technologies relevant to the agricultural and environmental needs and aspirations of developing and emerging countries. Fellowships enable scientists working in developing or emerging countries to pursue research, learn new techniques or undertake other forms of study in fields within agricultural, environmental, mathematical and computational sciences that are of direct relevance to development issues in their home country. Applicants should normally be of doctoral status or equivalent, with at least two years' postdoctoral research experience and a substantial track record that will facilitate collaborative research at the institute. It is anticipated that applicants will have permanent salaried appointments in their home country, usually at resource-poor institutes or laboratories, to which they will return on completion of the fellowship. Fellowships are tenable for between six months and one year and include one return journey, an accommodation and subsistence allowance, discretionary payments for conference attendance in the UK and institute research costs.

# E MSLIE HORNIMAN ANTHROPOLOGICAL SCHOLARSHIP FUND

Royal Anthropological Institute of Great Britain and Ireland

## Description:

The Royal Anthropological Institute invites applications for the Emslie Horniman anthropological scholarship fund. This promotes the study of the growth of civilisations, habits and customs, religious and physical characteristics of the non-European peoples and of prehistoric and non-industrial man in Europe. It thus includes anthropological research in its widest sense, including ethnography and all branches of human and social science relating to the physical and natural development of people in society. The major aim of the fund is to encourage recent graduates to pursue fieldwork, and so to develop their careers as anthropologists and make significant contributions to the discipline.

Grants are normally made for research that will contribute to the award of an MPhil or PhD degree; those already in possession of a doctorate are not eligible. Preference will be given to those proposing to do fieldwork outside the United Kingdom. Applicants must be nationals of the UK or the Irish Republic, or Commonwealth citizens.

Awards are in the range of £500 to £7,000.

## G EORGE T HANYO AWARD

*AVS Science and Technology Society*

### Description:

The AVS Science and Technology Society invites applications for the George T Hanyo

award. The purpose of the award is to recognize outstanding performance in technical

support of research or development in areas of interest to AVS.

The award recognizes valuable contributions made by persons outside normal professional circles. Typical nominees should have received mention in the acknowledgments sections of published papers, but, with the possible exception of papers describing new apparatus or procedures, would rarely have been authors or co-authors.

A nominee must have contributed unusual skills and creative scientific or technical ideas in support of at least one major research or development program which influenced areas of interest to AVS. This supporting work must have been provided over a period of at least ten years.

Eligible candidates include those working in equipment design and construction, data analysis, improvements in experimental procedures and other comparable activities. Managerial and administrative personnel are not eligible. The award consists of a cash award and a certificate. Travel expenses of the awardee to the meeting at which the award will be presented may be reimbursed to a maximum of \$500.

# KREBS MEMORIAL SCHOLARSHIP

*Biochemical Society*

**Description:**

The Biochemical Society invites applications for the Krebs memorial scholarship. This enables individuals to study for a PhD or undertake a postdoctoral fellowship in biochemistry or a related biomedical science. The scholarship is tenable at a British university. There are no restrictions on nationality. Candidates must be in the top five per cent of PhD candidates or, alternatively, must have had their otherwise very promising research career interrupted by non-academic reasons beyond their control. The scholarship covers fees at the home or EU student's rate and maintenance; non-EU overseas students will need to find the balance of fees from other sources. The scholarship is worth £18,500 per academic year and will be awarded for one year in the first instance, but may be renewed up to a maximum tenure of three years.

## JJ/WBGSP SCHOLARSHIPS

World Bank

### Description:

The World Bank invites applications under the regular programme of its JJ/WBGSP scholarships. Scholarships enable individuals from World Bank member countries to undertake master's study in a country other than their own. Applicants should propose a programme of study related to development at master's level in fields such as economics,

health, education, agriculture, environment and natural resource management. Scholarships must be taken up for the academic year 2012-13 and are tenable for up to two years. Applicants must:

- be a national of a World Bank member country eligible to borrow;
- be born after 31 March 1972;

- have, by 31 March 2012, at least two and preferably four to five years of recent, full-time professional experience acquired after a university degree in their home country or in another developing country;
- hold a bachelor's degree or equivalent;
- not be a permanent resident or a national of any industrialised country or have resided in an industrialised country for more than one year.

This programme does not support study in the applicant's home country. Priority will be given to applicants from the public sector with the potential to impact on development in their own country following completion of their studies. Scholarships cover: economy return air travel between the home country and the host university at the start and end of the scholarship, with a travel allowance of \$500 per trip; tuition fees; basic medical and accident insurance; a monthly subsistence allowance.

# **F**IELDWORK AND RECORDING AWARDS

Association for Industrial Archaeology

---

**Description:**

The Association for Industrial Archaeology invites applications for its fieldwork and recording awards. These are given to submitted industrial archaeological projects involving a substantial element of site recording in the field, together with supporting research. The award categories are:

- entries from individuals or groups paid for the work they have done;
- research undertaken on a voluntary basis.

There is also a student award made to any fieldwork-based dissertation or report with a substantial industrial archaeology element whether it be analysis of a single site or process or an assessment of industrial remains in the wider landscape. The scheme is open to all - amateur and professional, individuals and groups. The winners are invited to attend the annual conference to present their work and will each receive a cheque, certificate and advice, if required, on how to publish their research.

## PRISE FOR NEWER RESEARCHERS Society for Research into Higher Education

#### Description:

The Society for Research into Higher Education invites applications for its prize for newer

researchers. In 2011 there will be two prizes of £3,000 available for a research project of one year's duration. These awards are intended to

provide support for early stage researchers in the field of higher education research to enable them to:

- undertake a research project in their own right;
- develop research skills which will help advance their research career.

The primary purpose of these awards is to offer support to newer researchers intending to pursue a career in higher education research by providing funding for an initial research project and offering access to the resources of the society. Successful award holders are provided with the support of a mentor and, for UK based applicants, invited to become a member of the society's research and development committee which affords a wider involvement in higher education research developments.

Entry is open to all and not restricted to current SRHE members. Eligible researchers are those with a minimum of a first undergraduate degree and currently registered as a student with, or undertaking research associated with, a university or college department and with an interest in pursuing a career in higher education research. These awards are not available to support study towards a postgraduate qualification or to support research work intended as the basis for a PhD submission. Applicants must be within six years of the completion of a PhD or equivalent professional qualification.
